

Timber Land Notice.
Lakeview, Oregon, Jan. 29, 1907.
Notice is hereby given that in compliance with the provisions of the Act of Congress of June 3, 1878, entitled "An Act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by Act of August 4, 1892, Alexander A. Davis, of Silver Lake, County of Lake, State of Oregon, has this day filed in this office his sworn statement No. 3504, for the purchase of the W¹/₂ NW¹/₄ Sec. 5, & E¹/₂ NE¹/₄ of Sec. No. 6, in Tp. No. 34 S., Range No. 18 E., W. M., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Judge of Klamath Co. Oregon, at his office at Klamath Falls Ore. on Wednesday the 1st day of May 1907.
He names as witnesses: Chas. Messner, and Jas. Mongold of Klamath Falls, C. McKendree, and Chas. Hadley, of Dairy, Ore.
Any and all persons claiming adversely the above described lands are requested to file their claims in this office on or before said 1st day of May 1907.

COMMON SENSE
Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily proving in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formula, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-over coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.
Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

TIMBER LAND NOTICE
United States Land Office, Lakeview Oregon, Feb. 8, 1907.
Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Sarah A. Paxton, of Lakeview, County of Lake, State of Oregon, has this day filed in this office his sworn statement No. 3502, for the purchase of the NE¹/₄ NE¹/₄ of Section No. 24, in Township No. 39 S., Range No. 20 E., W. Notice
TO WHOM IT MAY CONCERN,
notice is hereby given that all irrigation, or millrace ditches on all trout streams throughout Lake County, Oregon, must be screened with a small mesh wire screening at their head or junction with the main channel of stream. Also all dams or obstructions on said streams must be provided with a fish-ladder, or other easy means of passage, at or near the middle of the main channel, so as to allow the passage of trout at all times of year, as provided by law. Said work to be done at low water time, or to be completed by Feb. 7, 1907.
By order of J. A. Barham,
Special Deputy Fish Warden for Lake County, Oregon.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

COMPOUND INTEREST
The trouble with most advertisers is that they expect immediate returns of large proportions. One prominent advertiser illustrates the principle of advertising in this way:
"The money expended for advertising is the same as if placed at interest. The profits from the advertising are virtually the interest on the investment."
"The sums spent for advertising are properly chargeable to capital account because the resulting good will is something that has value, which, if the advertising has been properly done, can usually be sold for the face value of the investment."
"The rate of interest is determined by the skill with which the investment is made."
"Just as the quickest way to increase invested wealth is by compounding the interest, just so the quickest way to realize results from advertising is to compound the returns."—Advertising Experience.

ROYAL MESSENGERS.
They Carry Other Things Besides Government Dispatches.
Very odd are some of the errands done by the royal messenger service in Great Britain. At an English seaport, for instance, a sealed packet which was being conveyed across the channel to Windsor in care of the British foreign office became accidentally unfashioned in the custom house, and a quantity of cigars tumbled out. As the packet in question was involved as containing "important confidential government dispatches," no little amusement was caused. Nothing serious, however, came of the incident, for it is a recognized rule that "the king can do no wrong," and neither, therefore, can the king's messengers.
Besides, it is well understood that the service is maintained for other purposes than the nominal one. During the late Queen Victoria's reign these messengers used frequently to carry to the continent in sealed bags supposed to contain dispatches shirts and collars of a special make and pattern for one of the British ambassadors, hats and bonnets for her majesty's female relatives, all sorts of English knickknacks for the late Empress Frederick at Berlin and even barrels of native oysters for the embassies at Paris and Vienna.
For many years, moreover, it was the practice of the messengers to call each week on their way back to England at Brussels, where they received from the court kitchens a box of special biscuits of which Queen Victoria was very fond and which she believed nobody could make as well as the head pastry cook of King Leopold's kitchen. This box of biscuits was solemnly sealed up at the British legation with the official seal and then conveyed with infinite care to Windsor by way of Dover and London.—Chicago News.

THE LAKE SKIPPER.
How He Taught a Salt Water Veteran to Hustle.
There was a salt water captain who, for reasons of his own, accepted a berth as first mate in a big passenger steamer on the great lakes. He was a capable seafaring man, but he did not know what "hustle" meant until he went aboard at Buffalo. The lake skipper to whom he reported for duty remarked in the most casual manner:
"Just give her a coat of paint this morning, and, if the sun stays hot and she dries in good shape, give her a second coat this afternoon."
The salt water mate staggered in his tracks and made amazed protest. This was a 5,000 ton vessel, and giving her two coats of paint was several days' work by his reckoning. The lake skipper was a person of discernment, therefore he had pity on his new mate and forbore to deal harshly with him, explaining with a tolerant grin:
"All right, I suppose you'll have to learn to move lively after snoozing around salt water all your life. You just pass that order along to the bos'n and tell him it's got to be done, and then you sit up and take notice."
The bos'n took the order calmly, as if it were in the day's work, and by nightfall the big steamer was speck and span with two coats of paint from her water line to her guard rail. The sailor from deep water had learned his first lesson in the ways of the great lakes during the navigation season, when the hard driven shipping must be forced to do twelve months' work in half a year.—Ralph D. Paine in Outing Magazine.

The Early Trusts.
Trusts were sometimes dealt with summarily in old England. For instance, the records of the Brewers' company show that "on Monday, July 30, 1422, Robert Chichele, the mayor of London, sent for the masters and twelve of the most worthy of our company to appear at the guildhall for selling dear ale. After much dispute about the price and quantity of malt, wherein Whittingtons, the late mayor, declared that the brewers had ridden into the country and forestalled the malt, to raise its price, they were convicted in the penalty of £20 (\$100), which objecting to, the masters were ordered to be kept in prison in the chamberlain's custody until they should pay it or find security for the payment thereof."
Ancient and Modern Bathing.
Soap is really quite a new factor in the world's life. Most of our ancestors were filthy and dissembled the fact by the use of stifling perfumes. Washing one's hands, which was only done by the very best people, meant dipping the fingers in rose water and drying them on a napkin. Even the Romans of the decadence, who were probably cleaner as a community than any before or since, bathed in water and rubbed themselves with oil. It sounds nasty to us, but then so does, for example, Chinese music, which millions of human beings think delightful.
Jack Tar's Reply.
A sailor was brought before a magistrate for beating his wife, when the magistrate attempted to reach his heart by asking him if he did not know that his wife was the "weakest vessel."
"If she is, she ought not to carry so much sail," replied Jack.—London Tit-Bits.
