The Publisher's Claims Sustained

INTERNATIONAL COURT OF CLAIMS
The Publishers of Webster's International Dictionary allege that it is, in fact, the popular and intelligible dictionary re-issued in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation.

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-issued in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future in the past it will be the course of constant reference.
