Reckless Driving.

Last Saturday evening about 6 o'clock an exhibition of reckless driving was given on the streets of Lakeview. Two men, whose names we do not know, driving a nice span of sorrel horses to a pretty good wagon, started from somewhere up on Water street and came down the street between the hotel and Reynolds' store, both horses on the dead run. They turned north on Main street and no team ever ran faster hitched to a wagon, the driver evidently doing nothing to check the speed. They turned down slash street and were still going about the same gait when last seen.

Sunday's Ball Game.

A game of ball was played at the ball grounds last Sunday between what was called the Chandlers Hayseeds and the Lakeview team. There was some pretty good playing done, but the score shows that it was always done by the side at the bat. The score was 10 to 23 in favor of the Hayseeds. The ball players all seem to be out of practice, or something, maybe it's because the weather is too hot and they don't get exercise enough.

Has Deed to the Fern.

The Pine Creek Leasing and Mining Co., which has been at work developing THE FERN, under a Lease and Bond, has taken over that property and now OWNS the undivided whole of THE FERN, together with the adjoining claims. The Huckelberry No. 3 and a 2 fifth interest in The Mineral Spring.
The work already done, has proven that, in THE FERN, we have a well defined and permanent Lead, from which has been taken, high grade Ore, selected samples of which, would show an assay value of many thousands of dollars per ton.
At a meeting of the Directors of the Company held, at New Pine Creek Ore., July 9th, it was decided that the Company would, on August 8th, offer for public subscription, 50,000 shares of its Treasury stock, at 10 cents per share, proceeds to be applied to the further development of its property.
This is no longer a question of meeting payments, but to simply raise money with which to keep the work going, as the Company now own the property.
So far as it is possible for any one to see or to know, it is very probable that a very little work in the DRIFT from bottom of FERN shaft will encounter the pay shute, which dips out of and east from the shaft, and, judging from the high grade character of some of the ore taken from this Lead, it is altogether probable that the pay shute, when reached by the underground workings will prove to be a very rich one.
We do not believe that any one can possibly make a mistake in buying this stock at price quoted.
Subscriptions for stock can be mailed to either, The President, V. L. Snelling, Lakeview Ore. or the Secretary, Wm. Schauer, New Pine Creek, Ore. 11
