Favors Actual Settler.

Hundreds of people are expected here at the opening of the reserve on October 28, when the lands will be -open for flling or selection. On September 28, settlement may be commenced, but no filings will be accepted for 30 days. This ruling is in comformity with the department's policy in giving settlers an opportunity to settle upon lands released from with drawals over scrippers and timber land seekers. There is a possibility, however, that in favoring the homeseeker the department has still left a loophole through which the timber lands may be secured by s. eculators, In not restricting the homestead applicant to a homestead filing alone, on the same tract of land. In order to profit by the leniency of the ruling, it is true, perjury must be committed, and he who is caught at it must look tor punishment. Under the present ruling a person may go upon a tract of land on September 28th and stitutional disease, and in order to begin settlement. On October 28, he can file a homestead on the ground of prior occupation. After the smoke has settled he may then relinquish his homestead filings and file a timber and stone claim, which does not require residence upon the land for physiclans in this country for years five years to gain title. Numerous and is a regular prescription. It is contests are likely to follow, and it composed of the best tonics known, is to be hoped that he who seeks the combined with the best blood puriland in good faith will win out

China Tom Wants his Son.

Mr. John B. Sawyer, of Portland, Bureau, arrived in Lakeview Monday free for the purpose of investigating the application of "Tom" the laundryman for the admittance of his son to the necessary to show that he is not of the tories is against joint statehood. Cooly class, and we understand that the affidavits show that Tom is a fate of the young Chinese boy rests simply had enough. upon the showing made at this trial Tuesday substantiating the affidavits that China Tom is a merchant. Tom is a good Chinaman, honest, industrious and everybody likes him, and would be glad to see him have his or even those who like him,. He expects jaundice . 25c. to strike the ledge within the next hundred feet, over 100 feet down from the surface. He has absolute faith in finding comething worth digging for when he strikes the main lead.

His description of the country and the formation of the rock he has tunneled through compares very favorably with the description and analysis of formation in the richest mines known of today. He says he bas compared descriptions with the noted Cobalt mines also with the Goldfield mines, and in his belief the formation is the same, only that he has what he calls the porphyry in original state, something the former mines do not profess to possess. Mr. Howell has not LAND AND TOWNSITE SURVEYS. said very much about his prospect before, in fact he has not taken the time to talk, having been busy digging. If there is a mine in the district be certainly will find it, if be is in the right location, and in this fact be has the greatest confidence. So strong is his faith in the outcome he will remain there working all win-
