LAKEVIEW, OREGON, OCTOBER 3, 1907

The Commercial Club.

We have often called attention to the need of a commercial club of some description in Lakeview; we are now in the act of again mentioning the fact.

It is one of the main objects of a commercial club to make the visit of strangers pleasant, to give them an opportunity to meet our business men, stock men, and people generally.

We need a club for ourselves. We need a place where our business men can meet and talk over the needs of the town; we need a place where the people of the county can meet and talk over the needs of the county.

Let some one—the Mayor for instance—call the people together to effect such an organization. If that is not the method, let some business man visit some of his fellows and effect plans for an organization.

The Chicago & Alton railroad which, from all evidence, was connected with the Standard Oil Co. in the matter of rebates, gets immunity from prosecution, because of information furnished in the prosecution of the Standard Oil Co.

The task confronting the land office officials in the Lakeview land office for the remainder of this year is a difficult one, but we have men whose courtesy and competency insures the successful work of restoring the several hundred thousand acres of land thrown out of the temporary reserves.

If you want to catch FISH get your Tackle at BERNARD'S.

If you want to sprinkle your Lawn get your HOSE and Sprinkler of us.

If you want a BATH we can furnish the outfit.

We also have a full and complete line of Hardware, Stoves and Tinware. a good Plumber and Tinner in connection with the business. Come and see us our prices are right.

T. E. BERNARD.

The work of restraining the strong from overrunning the weak in the line of the land seekers before the land office door; the work of permitting all the liberties and comforts to the claimants that is possible, without giving anyone advantage; the work of keeping the line orderly, is bound to prove arduous, but we have pulled off restorations successfully before, and can do so again.

Jupiter Pluvius got busy and started with the homestead claimants in their rush for settlement last Saturday morning. Those who made any effort at settlement and improvement of homesteads had a taste of the real pioneer experience—building cabins, etc., in the snow.

We notice that some of our exchanges from eastern Oregon counties, where large stock ranches predominate, that the progress of the country is greatly retarded by these large land holdings. These papers say that to insure development of the resources of the country these large land owners will have to cut up their holdings in small farms and sell to the homebuilder.

President Roosevelt announced that he has decided to approve the Oklahoma constitution, says the Oregonian, which means that all doubt regarding the addition of another star to the national flag is removed; that two more democratic senators will soon take seats on the upper branch of congress; that four Democrats and one Republican will be added to the rolls of the house and that seven brand new votes will be added to the Democratic column, in all probability, in the next electoral college.

Jasper Jennings, who has been on trial in Josephine county for nearly two years for the murder of his father, and who was once convicted, has been discharged from custody. Judge Hanna dismissed the case a few days ago. Dora Jennings, who was also tried for the same crime, and was acquitted, died recently.

U. S. Senator Wm. E. Borah, who was indicted for land frauds, is on trial in Boise, Idaho. Senator Borah worked with the prosecution of Haywood for the murder of ex-Governor Frank Stuenkel. A John Doe was indicted along with Borah, and it is said this John Doe was Governor Stuenkel.

The Chicago & Alton railroad which, from all evidence, was connected with the Standard Oil Co. in the matter of rebates, gets immunity from prosecution, because of information furnished in the prosecution of the Standard Oil Co.

The Portland Evening Telegram call the Evening Journal, its "Redheaded contemporary." Unless you have seen the Journal with its first page head lines printed in red you would not know why the name originated.

It has been studied out now that Roosevelt is sending the Atlantic

battle-ship fleet to the Pacific for the purpose of preventing Japan from attacking and stealing China.

The legality of the indictments for graft in San Francisco has had its hearing before the Supreme Court of California and the findings of the grand jury sustained.
