WEEKLY WEATHER REPORT.

Below we give a report of the weather as recorded by the Government weather bureau station at The Examiner Office. This report is changed each week, and if our readers wish to keep a yearly record of weather conditions for future reference, cut out the report along the black line and paste it in a scrap book one week after another. This record will be taken on Tuesday to end each week and begin on Wednesday for the next week. Government Weather Bureau Station at Lakeview, Oregon.

The Progressive Store

Again we call attention to our shoes. We asked our wholesale house to "send us the Best shoes you carry, regardless of price. Shoes you know will give satisfactory service, fit the foot comfortably and wear easy from the start, keeping perfect form until ready to be discarded after having worn as long as any shoes of the dress class could be worn." He sent us the ORTHOPOEDIC, stating that "they are the best shoe we carry, and we do not believe you could buy better shoes in this city." He also wrote us "they retail in this city, and in the cities and towns of this state and in the East, at \$3.50," while our price is \$3.35. Our claims are thus supported by evidence which could not be stronger, that we buy the best we can get, and we leave you to judge of our prices, whether they are reasonable or not.

It is not conceivable that this wholesale house would make and sign statements for publication, such as you have read in this paper, unless they were true, in every particular, and he knows the facts. See these shoes, and you will like their style. Try them on, they will fit your foot comfortably. Wear them, and they will give you satisfaction. If THEY fail to satisfy you, and we CAN, we WILL.
