The Street Masher's Discomfiture Was Than Compacts. She had arrived in the city quite recently from the country and had still time to learn...

Then she remembered the advice she had disdained. Watching her opportunity, she increased her walk to a run and sought refuge in a large building...

Common Prudence. A teacher in a downtown school has for her pupils the children of Russian parents. The other day she was explaining a sum in subtraction which the little ones found difficult to understand.

Now, said she to exemplify the proposition, "suppose I had \$10 and went into a store to spend it. Say I bought a hat for \$5. Then I spent \$2 for gloves and \$1.50 for some other things. How much did I have left?"

Piling it On. A convict in a western prison had been extremely refractory, and different means were tried without success to break his spirit.

Queer. "Funny thing about a man's tongue," said Jonkley.

Not a Logical Conclusion. "If you have nothing else to do, suppose we go to that amateur concert."

A Secret. Only she and the baby knew! The nurse was out and his mother too.
