"As the last step in Mr. Bowser's initiation he was required to lie at full length on his back on the floor while forty members marched over him. This was to show a proper humiliation of spirit. Each of the forty halted for a few seconds and stood on the candldate's stomach. Mr. Bowser was about to protest, but when told that James Polk had submitted to the same thing he remained silent.

Hailed as a Brother.

"The initiation thus concluded, Mr. Bowser was taken by the arms and run four times around the room and then hailed as a brother and a bottle of champague placed before him. In a few minutes and without any prompting from a member he arose and sang 'Old Black Joe.' It was a different 'Old Black Joe' from any that we had ever heard, and it was somewhat mixed with 'Annie Laurie' and 'John Brown,' but no criticisms were made. The Gay Old Boys never criticise.

"A few minutes later Mr. Bowser asked permission to deliver an oration in Latin. He was not encouraged and not refused, and he went ahead. In delivering his oration the name of Mrs. Bowser was frequently used, but we ber. To Clean Gloves.

White gloves may be cleaned in the following way: Lay them on a clean table and rub into them a mixture of finely powdered fuller's earth and alum in equal quantities. Work this well in draped as Julius Caesar, while four and then brush it off. Afterward eprinkle the gloves with dry bran and whiting, then shake and dust them.

Another practical way to clean gloves jected at first, but finally announced to with benzine or benzine soap. The combination of these two is death to dirt. A small sum will purchase a wooden hand, over which the glove is ellpped ready for scrubbing. A scouring brush, much like a nalibrush in form and stiffer as to bristles, is dip ped into the cleansing mixture, and the glove is thoroughly scrubbed. them with the hands and let them soak a little while. Rinse well in two or three waters to get the soap all out, and always have the wathey will not freeze and iron on the They will be soft and will not shrink.

Heats the Flatiron.

The operation of heating an iron is a wasteful process for the reason that the heat from the bed of fire is largely lost because of the indirect application to the iron. In order to increase the efficiency of the process by conserving the heat a new invention in the shape of a new attachment for the stove has been brought out. The device consists of a chamber made of cast iron, which has a general con-

formation or outline corresponding to that of an ordinary flatiron. This chamber has cast integrally with it a cover of such diameter as to fit the hole or opening in the stove top, and the opening in the top of the chamber is continued through this cover and of such shape and dimensions as to allow a flatiron to be easily introduced to or removed from the chamber.

Cleaning Frying Pans.

Frying pans, bake pans and bread pans, after having been used for some time, become rough and heavy, and it is impossible to wash them smooth again. An easy and extremely effective way to clean them is to set them in a stove on hot coals. They may be left there for an hour or more and turned once or twice. When taken out they will be as smooth and clean as when new.

Kitchen Hints.

To prevent sore mouth from eating sliced pineapple do not slice the fruit with the knife it is pealed with.

If you have salted food too much in cooking, add a little sugar, and vice

Rub your hands with lemon juice as soon as you have finished washing dishes. It keeps them from chapping and also keeps them white.

Teething Rings.

A child may be given a teething ring or pacifier as soon as the teeth begin to trouble, which is usually at five or six months. The best kind of a teething ring is a rubber one. An ivory ring is apt to make the gums hard, and this makes it harder for the teeth to come through.

Molding Tallow Candles.

Try out the tallow, add a little salt and a little powdered alum dissolved in the hot tallow. Then pour into wet candle molds. This is the way in which our great-grandmothers molded candles when they discarded the primitive mode of "dipping."

Tomato Removes Ink.

If you happen to spill ink on white wash goods, before you launder it take red tomatoes (the canned ones will do), rub well on the ink spots, let it dry overnight, then put it in the beller with the other clothes to boil. It will come out beautiful and white,
