FOR SALE. One parlor organ, one Standard sewing machine, one Smith Premier No. 2 typewriter. Inquire at the Examiner office.

HOW TO CAN FRUIT TO KEEP

J. DRYDEN, Oregon Agricultural College, Press Bulletin.

Certain fruit and vegetables may be preserved in such a way that they will retain indefinitely their original flavor, color and structure. This is in the nature of a discovery made by Prof. Fernald of the Oregon Agricultural College. A report of Prof. Fernald's investigations is given in Bulletin No. 87 of the Experiment Station, Corvallis, and for the benefit of the housekeeper who is wrestling with the canning problem we give the salient points of the bulletin. Successful canning is a question of sterilizing. If a can of fruit spots it means that it was not properly sterilized, to start with or there was a leakage in the can. Spoiling of the fruit is due to germs which were in the fruit when it was canned or entered the can later. Sterilizing kills the germs, and the fruit may be sterilized by cooking or heating. We quote the following paragraph from the bulletin: "Micro-organisms, not unlike all other plants, possess the power of self preservation or of perpetuating their kinds; one is by means of producing spores, or seeds, which are very resistant, while others which do not produce spores have a resisting power nearly equal to that of the spores." Heating the fruit to 150 degrees for ten minutes will kill the germs without injuring the good qualities of the fruit, but the spores which are the "unincubated" germs will not be injured at that temperature and will become "germs" in another day, when the heat should again be applied. A few spores may escape the second heating, making a third steaming necessary. How it should be done—First, clean the fruit jars or cans by means of a brush, using hot water to which washing powder has been added. After washing thoroughly steam the jars to remove any dirt that may remain. Second, after washing the vegetables or fruit place them in jars, completely filling them. Then add water to fill the interstices, and put on the lid. Don't screw it on tight or the jar will burst when heat is applied. Third, procure a wooden steam chest.

Best the World Affords
It gives me unbounded pleasure to recommend Bucklen's Arnica Salve," says J. W. Jenkins, of Chapel Hill, N. C. "I am convinced it is the best salve the world affords. It cured a felon on my thumb, and it never fails to heal every sore, burn or wound to which it is applied 25c. at Thornton's drug store.

A Faithful Friend
"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1873, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says A. S. Nichols of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by Daily and Hall.

\$1,250 Reward.
The Harney County Live Stock Association, of which I am a member, pays \$1250 reward for evidence leading to the conviction of parties stealing stock belonging to its members. In addition I offer \$500 reward for horse brand horse shoe ran on either or both jaws. Recorded in counties Range, Harney, Lake and Crook Counties. Horses sold to pass through this section will be reported in this paper. If not so reported, please write or tele phone The Times Herald, Main Bldg, Burns, Oregon. W. W. Brown, Burns, Oregon.

Reward for Horses
I will give \$5.00 reward for information that will lead to the discovery of any horse branded with an old horseshoe brand on both jaws, placed as in the cut in this advertisement, with fresh triangle brand underneath the horseshoe. The triangle placed in such a manner as would cover up a bar on both jaws. Animals must be found in the possession of some person or persons.
