HONORING OUR FLEET

The warm and enthusiastic reception of our fleet in New Zealand and Australia is most gratifying to every patriotic American, which speaks well for our future relations with those thrifty colonies of the British crown.

Not only have the common people showered unstinted praise and favors upon the ships and men, but the governments are most cordial in ordering functions for both officers and men of the fleet.

The spectacle was exceedingly pretty. Eight thousand children in vari-colored dresses, participated in living tableaux, which represented among other things, the words, "Hail Columbia" in living columns.

As an indication of further honors in store for the fleet, Hon. T. Bent, Premier of Victoria sent a telegram to Admiral Sperry assuring him of the whole hearted welcome that will be given the American visitors at Melbourne, where the fleet was due August 29.

Melbourne is busy with preparations suitable to receive the visitors.

Admiral Sperry, in his farewell to the city of Sydney today, said:

"This visit will ever be remembered by the men of the fleet and by the people of America as an epoch-making international event.

"Apart from the promotion of more intimate relations between the two great bodies of English speaking people, the educational importance of the visit cannot be overlooked. We have been greatly enlightened regarding the wonderful progress and development being made by the Island and Continent, and we must readjust our former ideas of this prosperous young country which is destined to play a great role in the commercial and industrial development of the Pacific. The knowledge gained by

the men of this fleet will be disseminated throughout America and lead to results beneficial to both the commonwealth and the United States.

Count Tolstoi, the noted Russian author, is at the point of death from rheumatism following a cold plunge in to the river while in an over heated condition from a long walk.

OUR WISE PRESIDENT

President Roosevelt is probably the greatest all-around American the country has produced. He seems to be interested in everything—in all human thought and endeavor.

At the ceremony of opening a public library at Jordanville, N. Y. he deprecated the fact of so many young men and women leaving the farm to go to the city, and thought it was because so few farmers endeavored to make life on a farm attractive, and said that the isolation and loneliness of the farm could be changed by a little effort.

He said he had no use for the idler, but at the same time he thought the hardest worked individual on the farm was the wife and mother. He believed in the farmer economizing, but not on his wife. "I am dead right on that," he said, "if you have to drop some one, drop the hired man, and not the hired girl."

He also wanted the boys taught to work, to be self reliant, so he could grow up able to support a wife and children and to suppress all tendency to "smartness" which is sure to develop into trickery, or the kind of ability that is just off the line of honesty, then you should teach him that he is growing up to be an enemy of the Republic.

"Trickery is trickery if it takes the form of doing a man out of his day's work, or cheating in a grocery store or swindling on a great scale by stock gambling, or the manipulation of railway securities. I am with you to the limit; I am trying to put a stop to the rascality of the big men. I'll go any length to do it, and the big man knows it, but there never will be an end until the big man is made to know that what you object to is rascality itself, and not rascality in a big man alone.

"Rascality in the great and small is to be frowned upon in this republic. Distrust equally the man who never see dishonesty in the big man and the one who sees it only in the big."

The Spokane Spokesman Review, of the 25th inst. has a good cartoon showing the lady Spokane getting out her heavier clothing. If so, our cool snap of Saturday must have struck that town somewhat earlier.

HOW TO WIN

Out of the beginning of philosophy there came this bit of truth: "IF YOU SAY YOU HAVE ENOUGH, YOU PERISH, ALWAYS ADD, ALWAYS WALK, ALWAYS PROCEED."

No author of the present day is written anything that digs deeper into the "way of things" than does that thought.

The people who have ceased to "add, walk and proceed" have ceased to be useful to society.

The merchant who is satisfied is doomed. The merchant who believes his business is big enough, useful enough, important enough, is out of the race.

In all lines of business there must be, of necessity, the ceaseless adding, walking, proceeding—the reaching, pushing, shoving, pulling, pressing for GREATER USEFULNESS TO THE COMMUNITY. These things presage growth—they ARE growth.

Under modern conditions this striving and struggling would be of little avail if it were not for advertising—which makes striving and struggling worth while, and effective.

The advertiser who says "enough", who thinks he is striving sufficiently has really ceased to strive at all. Enough" is a delusion.

COFFIN NAILS DOOMED

Representative-elect Charles McDonald of Multnomah county has drafted a bill which he will introduce at the legislature next winter, vying for its purpose the utter extermination of the "coffin tack" in the Beaver State. Even substitutes for cigarettes will be placed under the ban, and any one caught giving or selling "the makings" will be subject to fine, and if the fine is not paid, then off to prison he (or she) must go.

Conservative statistics show that 500,000 cigarettes are smoked daily in Oregon. The figure may reach 800,000, for the 500,000 daily consumption is based on 40 per cent of the voters

smoking only 10 of the "tacks" a day, and any cigarette smoker will confess that ten "cigs" is a niggardly allowance and should be 20 or 30. Then, again, more than 40 per cent. of the voters use cigarettes and many who are not voters are heavy customers. The "makings" sold in this state in a week run into several thousand dollars.

Hon. Henry L. Benson has resigned the judgeship of the First Judicial District, comprising the counties of Klamath, Lake, Jackson and Josephine. He will return to the practice of law. His successor is attorney Noland of Klamath Falls, who is said to be a very able man, and will make a good Judge. He is a democrat, and an appointee of Gov. Chamberlain.

HERALD CHANGES HANDS

The Herald, last issue, contained the announcement that Mr. Geo. H. Ayres had retired from the management and that the paper in the future would be conducted by Attorney J. M. Batchelder. Mr. Ayres made a very good paper, considering facilities at hand, but other interests compelled him to withdraw. Mr. Batchelder has the ability and will no doubt make good as a newspaper man. The Examiner has the best of good will for both the incoming and outgoing editors of our esteemed contemporary, and wishes them both the best of success in life.

A Spokane justice of the peace has advanced a novel idea that the art of slugging and being slugged is not a profession, and that any who follow the life of a pug is nothing more nor less than a vagrant, and to the rock pile with him! Such was the sentence imposed upon "young Sharkey," the pugilist. If this idea becomes general there will be less white paper consumed and wasted about these brutal fighters, and farmers then might be able to get some good men to do haying and harvesting.

Col. Wm. F. Vilas ex United States Senator from Wisconsin, and who was postmaster general, also secretary of the Interior, under Cleveland, died at his home in Madison on the 27th, ult. He was a national leader in the democratic ranks, a very able man and much respected by his colleagues in both parties.

Good for Biliousness

"I took two of Chamberlain's Stomach and Liver Tablets last night and feel fifty per cent better than I have for weeks, says J. J. Firestone of Allegan, Mich. "They are certainly a fine article for biliousness." For sale by Daly and Hall. Samples free.

Farm Specimens Wanted

Parties interested in developing Lake county, are invited to bring in samples of grain, alfalfa, vegetables, fruits, etc., with particulars as to method of raising same, (with or without irrigation), to the office of Drenkel & Palne, Lakeview. They will label and exhibit and care for same until some permanent organization is effected to exhibit the products at the Yukon-Alaska and other fairs

For a Sprained Ankle

A sprained ankle may be cured in about one-third the time usually required by applying Chamberlain's Liniment freely and giving it absolute rest. For sale by Daly and Hall.

A squaw near Cedarville is reported to have the small-pox.

Best Treatment for a Burn

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless this injury is a severe one, heals the parts without leaving a scar. This salve is also unequalled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by Daly and Hall.

They Take the Kinks Out

"I have used Dr. King's New Life Pills for many years, with increasing satisfaction. They take the kinks out of stomach, liver and bowels, without fuss or friction," says N. H. Brown, of Pittsfield, Vt. Guaranteed satisfactory at A. L. Thornton's drug store. 25c.

Hay \$10 a Ton

Wm Bradford one, of the most prominent of our sheep men is in town and reports flocks doing well now, but says that things are awful dry in the desert, which necessitates laying in a stock of hay to provide against contingencies should the usual fall rains fail to materialize to make grass for feed this fall and winter. He purchased a supply, but had to pay \$10 a ton in the stack, which is an unusually high figure for this locality.

A Paying Investment

Mr. John White, of 38 Highland Ave., Houlton, Maine, says: "I have been troubled with a cough every winter and spring. Last winter I tried many advertised remedies, but the cough continued until I bought a 50c bottle of Dr. King's New Discovery; before that was half gone, the cough was all gone. This winter the same happy result has followed; a few doses once more banished the annual cough. I am now convinced that Dr. King's New Discovery is the best of all cough and lung remedies. Sold under guarantee at A. L. Thornton's Drug store, 50c. and \$1. Trial bottle free.

Bailey & Massingill advertisement for general merchandise, tents, and furniture. FOREST FIRES NOW UNDER CONTROL

Supervisor Ingram Busy—Loss 2,000,000 Feet—64,000 Acres Burned

Forest Supervisor Ingram has returned from his trip to the Des Chutes Forestry reserve, where he had a force of 65 men gathered from Paisley and Silver Lake engaged in fighting forest fires. The damage is even greater than at first reported as 95,000 acres mostly in hands of parties, was burned over, destroying on a very conservative estimate 2,000,000 feet, worth on the stump at least \$2 50 per thousand.

This estimate was made by Inspector Kent and Mr. Ingram, and is authoritative. There were 150 men in all engaged in fighting the flames, which after a number of days hard work at last was under control. Timely rains up there helped very materially in suppressing the fires.

How to Get Strong

P. J. Daly, of 124 1/2 W. Congress St., Chicago, tells of a way to become strong: He says: "My mother who is old and was very feeble, is deriving so much benefit from Electric Bitters, that I feel it's my duty to tell those who need a tonic and strengthening medicine about it. In my mother's case a marked gain in flesh has resulted. Insomnia has been overcome, and she is steadily growing stronger."

Made a Good Auto Road

John Cogburn and Geo. Hankins returned Tuesday night from Flush, Goldrun and the Rabbit Creek country. They have been repairing the road and it is now in such fine shape that an auto can now make the run of 45 miles over the mountains between here and Flush in a little over two hours. They are very highly pleased with everything out there, and say the mines at Goldrun are showing up in a wonderful way.

The Mongers Going East

Mr. and Mrs. W. V. Mong returned here Tuesday evening from Alturas. This charming couple are on their way East, via Klamath Falls, where they have engagements in their profession, in their old field where they are well known. Those who appreciate a high-grade of histrionic talent will miss them. They will remain here but a few days. The Examiner wishes them the best of success wherever they may go. They left this morning on the Klamath stage.

A Sure-enough Knocker

J. C. Goodwin, of Reidsville, N. C., says: "Bucklen's Arnica Salve is a sure-enough knocker for ulcers. A bad one came on my leg last summer, but that wonderful salve knocked it out in a few rounds. Not even a scar remained." Guaranteed for piles, sores, burns etc. 25c. at A. L. Thornton's drug store.

Indians Taking Allotments

The Klamath Herald says that Major H. G. Wilson, superintendent of the Klamath Indian Reservation, is in that city accompanied by Mrs. Wilson. He states that the work of making allotments is still in the hands of Acting Agent H. F. White and will likely be completed some time this fall.

Smiles and Squalls

By "THE VERDANT ONE"

While worked into a frenzy calling sinners to repent an exhorter in St. Louis was somewhat disconcerted to have a young woman walk forward and deposit a baby on the altar, and assert it belonged to him and her. He acknowledged the girl was right, but invoked the old Adam plea in extenuation. He was also expelled from his Eden, but he will probably show up in some other locality to work at both of his chosen trades.

Judge Pierce of Muenie, Ind., says: "The sheath gown is modest compared with some of the sights we see on a windy day." The "bench" of that judge evidently must be on the corner of a street grocery.

The papers tell of a man who stabbed his wife to death because she wore a "Merry Widow" hat. He should have waited till he saw her don a sheath gown.

A hard stern future looms ahead for the trusts. Neither Bryan, nor Taft will accept their campaign contributions. But they might try Preston, the Socialistic candidate for president, now languishing in the Nevada pen. He might not refuse. Even Rockefeller's tainted money might be acceptable to him.

It is now reported that monkeys in New York Central Park are learning to talk. Let's see, you that is where one Curuso received additional fame. And if these monkeys really learn to talk we probably will be treated later to sensational announcements in the press of the elopement of both be-monkeys and she-monkeys of the 400, with the more lowly residents of Central Park. It has already been noted that the 400 have given "monkey parties."

The oldest inhabitant says this is "the downcastest weather he ever seed" this year, hot and dry, and a new early frost caught all his "water-millions, by gum!" But the frost seemed to come in streaks, probably due to air currents down the canyons, and his next door neighbor's garden was not hurt at all.
