SNAPSHOTS OF FASHION. Good Styles In Dark Shirt Waista

White Scrim Belts. Among the newest modes in shirt waists are those made up from what might be termed real dark colors la wash goods. Black galateas, ginghams and cotton cheviots are all represented and are developed in most severely tailored styles. A display of these waists reminds one of the moder of a decade ago. They are side platted on the shoulders to form a yoke and ever, incline to the pre-evvation of the close down the front under a box safer rule to match the costume to the plait. There is the old time shaped collar band and the bishop sleeves confined by straight bands.

New bells of white scrim are heavil embroidered in padded roses of embroldery cotion. They are quite a news fashion, and the loosely woven setti is such an excellent material for 1 purpose-Helting may also be en

Find Out and Get a Mate Who Har monizes With Your Scheme.

Mrs. F. F. Wieland is the most recent advocate of the theory that every human being has a soul color. So says Nixola Greeley-Smith. She unilutains. moreover, that every woman's gown must from babyhood match her soul What are termed in the fushion jour

nals "conservative dressers" will, howeyes. Eyes are so much more easily found than souls, and they are less changeable.

The mere matter of preserving harmony between one's soul and one's dress seems the least lateresting and Beall's Drug Store. least important feature of the subject. If there were really such a thing as a psychic color, there must result from It in the emotional world color affinities. A man with a green soul must naturally seek a damsel whose psychle. shade was blush pink or daffoill yellow. A lavender girl would have to and the same reward is hereby offered choose a white or pearl or amethyst mate. In divorce petitions the appealing husband or wife would merely have to state that he or she was deceived as to the soul color of the defendant. Experts would be called in to testify as to the actual psychic tints of the contestants, and a jury would have to pass upon the question as to wheth er or not the tints harmonized. This would pave the way to the establishment of feminine juries, for it is an acknowledged fact that more men are color blind than women. Persons summoned before the commissioner of inrors would have to pass a specially devised test as to whether or not they were qualified to decide the question of soul harmony.

"What is the fashionable shade in souls this year?" would be the query of anxious unsidens desiring to lead the mode.

As yet Mrs. Wieland has not stated whether the mothers' custom of adorning boy babies with blue bags and girl bables with pink is consistent with her ideas of soul colors. If so, it would seem that all men have blue souls, all women pink ones.
