## MINES AND MINING

E. H. Loftus and J. W. Loftus, the brothers who re-discovered the long lost and much sought after Lost Cabin Mines, at Goldrun in town this week, attending court.

In speaking of the mines they are very enthusiastic, and are optimistic over the development work now being done in the Lost Cabin district. The tunnel on the Butte property, on which work was stopped for a few days giving color to discordant rumors but due to the supply of powder giving out, was resumed Monday on receipt of a large supply of dynamite and the regular work, by means of three shifts each day, is being carried forward with all possible speed. The head or breast area of the tunnel is now in a regular lode porphyry of the highest order of mineralization, which betokens near approach of the lode; and the miners are biding any shot now to reach the ore body. The miners are experienced men from Goldfield and they have worked in all the mines in that camp, and others as well throughout Nevada, and they all say they never saw such heavy mineralization on approaching an ore body, and for that reason they look for something startling so soon as they strike the vein. The formation they are now in is solid, and in place, while at the opening of the tunnel the ground was loose and very much broken up. The ground also contains much talc in seams, which is another good indication of the value and permanency of the approaching lead. There is lots of it showing up on either side of the present breast of the tunnel workings. The rock is very silty looking, better than they ever saw. Every rock shows new points to a big mine in the Butte.

Before you can get any where in this vicinity see those in Watson's addition. Close to business center of Lakeview.

retained sole ownership, the shaft is down 50 feet. The vein of quartz is 5 feet wide, and at the bottom the indications were that it will be at least 8 feet wide. No assays have been made of the ore, but it pans free gold in good shape. This vein is a real contact, having andesite on the hanging or west wall, with porphyry on the foot or east wall. Work on the same has been discontinued temporarily in order to enable the gentleman to do a lot of assessment work on other claims they hold in the district. All in all the Messrs. Loftus are very well satisfied with the present outlook, and state that claim-holders in the district are busy developing their claims, and that none are allowing their assessment work to drag, all of which is pretty strong evidence of confidence in the district.

J. J. Reilley, of the Big Four Mining Co., of Goldrun arrived in town yesterday from Colorado and Nevada points. He has been absent some weeks, and is up to see how the work is progressing on the Butte property mentioned elsewhere.

**Held Catholic Services**  
Rev. Father Tonkin of Klamath Falls, was here last Sunday, and held services. He will be here regularly once a month, during the winter, and will give notice of his coming in the Examiner. The parish will be equipped with a regular priest sometime next summer. Rev. Father Vasta, who was located here last summer, has come to take charge of the Flat Head Indian Mission, in Idaho.

## CITY AND COUNTY BRIEFS

**Notice.**  
Business Locals or Readers inserted in this paper at the rate of 10 cents a line for each insertion.

The weather the latter part of last week was just what the sheep and cattle men needed—rain in the valleys and snow on the mountains. This will start fall feed. The result has been to remove the look of gloom heretofore noticeable on the faces of the stockmen. On Sunday morning about two inches of wet snow covered the ground, which soon disappeared. The farmers are much encouraged and will now be able to get their fall plowing done.

The Shakespeare Club will meet this (Thursday) evening at the home of Mrs. J. E. Norlin. The ladies of the club have taken up the study of "King Richard III" instead of "Henry II" as we inadvertently stated last week. Miss Gertrude Vernon and Miss May Snider have recently become members of the club.

The Examiner last week, after its regular edition of nearly 2,000 copies was run off, had to put the forms back on the press and print another extra 1000 copies. We venture that there are few papers in Oregon that has so large a circulation, and it is growing at the rate of 25 or more copies every issue.

Social Dance Saturday night at the Opera House. Music by the Lakeview Citizen's Band. Music will start at 8:30 sharp. Let us all get there promptly so that we can start in on time and thus do away with the old habit of starting in so late, so that every one will have plenty of dancing and a good time.

It is commendable to the people of this county that not a jury trial case was before the court, and no one was indicted for any crime or misdemeanor.

Judge Daly should feel proud of the fact that so far, since his incumbency, he has not had a single decision rendered, reversed by the higher courts.

Don't forget the Empire Stock Company next Monday night.

The farmers around Ft. Bidwell threshed a total of 5455 bushels of grain. Fifteen of them reported, and their crops ranged from 120 to 1119 bushels each.

The petition of Wm. Blurton, for liquor license at New Pine Creek, on the California side of the town, was turned down by the Modoc County Commissioners, for lack of sufficient number of signatures. Means his resolution is closed until the next meeting of the board, when Mr. Blurton expects to get the required endorsement.

Attorney W. J. Moore, has returned from his trip to Illinois. He reports that the weather there was about the same as we experienced here, being frosty, and rainy. While away he did not see any country he liked as well as Lake county.

A. E. Follett, of New Pine Creek called on The Examiner Tuesday. He was up in attendance at Court. Mr. Follette has just put in a furniture stock in his thriving town.

The Val-Orlando says Prof. Mayberry made a visit to his dry ranch between here and Ontario, and brought back a very nice sack of apples.

The average man in a city gets but little out of life. He shaves his best years away for a mere living, the product of his toil either mental or manual, going to swell the coffers of his employer.

J. B. Fox will open a small store at Fort Rock.

A vein of gold has been discovered in Gold Run, not far from Burns, that is reported to assay \$4,500 per ton.

It is reported that 10 families are en route from California to take up homesteads in the Silver Lake and Fort Rock countries.

The Portland Telegram of recent date contained a picture of our new court house, and a very creditable write-up of the same.

A trapper and hunter named Webb near Dering has been arrested charged with setting forest fires because deer always congregate to eat the young grass that usually springs up in burned districts.

Rev. W. A. Hopkins has just completed a dwelling on his lots, near the planing mill, which is already occupied by Mr. Harris, a recent arrival.

Hon. Geo. Noland, Circuit Judge, has made a good impression as judge, both with the bar and all interested in court.

An interesting article on creamery topics, received too late for publication, will appear in next issue.

D. W. Staley, of Los Angeles, is in town. The gentleman has decided to take up his residence on government land near Christmas Lake, in the upper end of this county. He has been interested in mining and like many others got a big jolt in the Goldfield stocks. He spent the summer in Alaska, but says that country is over-done. He believes that Lake county has promise just now of a big future and he intends to share it.

## EMPIRE STOCK CO. COMING NEXT WEEK

The Empire Stock Company, will occupy the Opera House five nights next week, beginning Monday the 28th inst.

They intended playing the full week, but the Orchestra has the house engaged for Saturday night.

The Company has been here before and are reported to have given general satisfaction.

**Lame Back**  
This ailment is usually caused by rheumatism of the muscles of the small of the back, and is easily cured by applying Chamberlain's Liniment two or three times a day and massaging the parts at each application. For sale by Daly and Hall.

A Washington man makes straw roads in his orchards, in removing the fruit from the orchard to the packing house. It prevents bruising the fruit, and also prevents accumulation of dust on the fruit which has to be removed, laborious and expensive process.

Remember that we are a stranger in a strange land, and consequently are unable to report all the local items of interest or social notes. If you have a friend visiting you, or there is an illness, or anything that will interest your friends or neighbors let The Examiner know about it in some way. We aim to give all the local news. Remember if you do not see that item in these columns it is your own fault.

## FREIGHT CONSIGNMENT VIA KLAMATH FALLS

Klamath Falls, Oct. 7.—The first large consignment of freight for Lakeview to come via Klamath Falls has arrived at Cal-r, present terminus of the California Northeastern Railway. The McIntire Freight Company will haul 35,000 pounds this week and will put its large freight trains between this city and Lakeview.

With the completion of the railroad to Klamath Falls it is expected that Lake county freight will come this way instead of from the south as at present.

**A Souvenir Book from China**  
The Examiner has received a Souvenir Album of China containing 450 original photographs by Charles F. Gammon and published by Denniston & Sullivan Shanghai. It is a complimentary gift of Mr. L. L. Hopkins at one time a resident of Lake county. It is a beautiful book and because of the far-away country of which it treats is highly appreciated by the editor. No price is named but those desiring a copy can address the publishers.

## SOME SPLENDID FRUIT FROM SUMMER LAKE

The Examiner was the happy recipient of a box of fine big peaches and pears last week from the orchard of Mr. John Foster of Summer Lake. They were equal in size of any grown elsewhere and possess a flavor and lusciousness that can't be excelled. The fruit shows that the country about Summer Lake is destined to become a big orchard in time and is conclusive evidence that the northern part of the county is all right and will make itself heard in the fruit markets of the country so soon as railroads reach that section.

The Alturas Plaine dealer says the big crowd of surveyors on the Alturas-Klamath railroad is camped at the Duncan horse ranch. It is certain that the line will either run down Blacks or Howard canyon.

## RESTORATION TO ENTRY OF LANDS IN NATIONAL FOREST

Lists 1592, 1624, 1625, 1635, and 1656 Notice is hereby given that the lands described below, embracing 1500 acres, within the Fremont National Forest, Oregon, will be subject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1906 (34 Stat., 253), at the United States land office at Lakeview, Oregon, on December 17, 1908. Any settler who was actually and in good faith claiming any of said lands for agricultural purposes prior to January 1, 1905, and has not abandoned same, has a preference right to make a homestead entry for the lands actually occupied. Said lands were issued upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to take homestead entry and the preference right is exercised prior to December 17, 1908, on which date the lands will be subject to settlement and entry by any qualified person. The lands are as follows: The NE quarter of NE quarter, S half of NE quarter, SE quarter of NW quarter, Sec. 11, T. 28 S., R. 13 E., W. M., listed upon the application of Royal E. Ward, of Silver Lake, Oregon, who alleges settlement in 1904. The SW quarter of SE quarter, Sec. 21; W half of NE quarter, and the NE quarter of NW quarter, Sec. 28, T. 28 S., R. 13 E., application of F. W. Payne, of Silver Lake, Oregon, who applied in July, 1907. Charles B. Howard, of Silver Lake, Oregon, also applied for the said SW quarter of SE quarter, Sec. 21, and the W half of NE quarter, Sec. 28, in September, 1907, alleging settlement in the spring of 1906. The SE quarter of SE quarter, Sec. 21, T. 28 S., R. 13 E., application of said Charles B. Howard. The E half of NE quarter and E half of SE quarter, Sec. 23, T. 27 S., R. 15 E., application of B. F. Lane, of Silver Lake, Oregon. The NE quarter Sec. 34 T. 33 S., R. 15 E., application of Gustav Stern of Paisley Oregon. The SW quarter of NW quarter Sec. 3; the S half of NE quarter and SE quarter of NW quarter, Sec. 4, T. 27 S., R. 13 E., application of Amos, H. Howard, Jr., of Silver Lake, Oregon. The NW quarter of SE quarter, E half of SW quarter, and south west quarter of SW quarter, Sec. 15, T. 27 S., R. 13 E., application of W. E. Davis, of Silver Lake, Oregon. The SW quarter of NE quarter N half of NW quarter, and SE quarter of NW quarter, Sec. 15, T. 27 S., R. 13 E., application of Percy J. Warno, of Silver Lake, Oregon.

Fred Dennett, Commissioner of the General Land Office, Approved September 23, 1908, Frank R. Pierce, First Assistant Secretary of the Interior.
