Queer Feeding.

"Come and watch me feed my star fish. The curator of the aquarium led the

reporter to a tank where a half dozen starfish tripped over the sandy bottom on slim brown fingers.

"Grub time, boys," he said, and he or dropped into the tank six mussels. The fish ran to the mussels. Each appiled his stomach to the hinge at the back of the shell. Silence and immobillity ensued.

"The gastric juice of the starfish." said the curator, "is now melting the hinges of flesh that hold the mussel shells together. Ah, look, there's one melted now There's another. It's the most powerful gastric juice in the world."

One by one, their binges destroyed the mussel shells opened, and into the openings the starfish thrust their stom-

'I trust I may count on your hearty support, as usual?' Clay asked. 'Faith, Mr. Clay.' said the Irish barber, 'I think I shall vote at this time for the man who can get but one hand into the treasury." -Success Magazine.

Needed a Big Dose.

The president of the Waiters' club of New York in a recent argument on tip ping said to his opponent sharply:

"Your reply is altogether beside the point and irrelevant. It reminds me of a woman's reply in a German court This woman was accused of poisoning her husband. The prosecuting attorney said to her:

"You have heard the evidence. The body contained enough arsenic to kill ten persons. What have you to say?" "'My husband,' the woman answer-

ed, 'was a big eater.' " Trouble Ahead.

Some escape the elbow, while others are finished a few inches below it. This would seem to foreshadow a return of the tight fitting plain sleeve, but as yet it is almost invariably accompanied by a shoulder drapery, or an additional short sleeve cut on the bell lines hangs over the close fitting one and partially discloses it.

Illustrative of an exceptionally pretty jumper waist is the design shown The pattern can be used in making new material or remodeling the blouse of last season's shirt waist costume. In the latter case the neck can be cut away and finished with a shaped band of the same or a contrasting ma-
