MISS OLGA NEIBERSOLE.

## Plan of Actress For Providing Wage Earners Against Illness.

"A higher standard of health—that is what the English actress, Olga Neibersole, has set apart for the absorption of all diseases she can spare from a very busy life, and she is now her agent for it in the ground of economy. It is a plan, a scheme, and it is planned for a purpose, a purpose that is planned for the benefit of the wage earners all over the world. She has found the fact that in all her travels she has found but one country that is working along similar lines, and that is Germany, which imposes a tax upon workers of both sexes which is turned into medical care and support for the family of workers when sickness stops

MISS OLGA NEIBERSOLE.

the wages and annuities for invalidism and old age. In that country sick men and women are not allowed to work even if they desire to, and whatever benefits they receive from the government entails no humiliation or loss of standing in the community, because they are rightly purchased by the tax paid each week. We must see in such system an end to pauperism and an increase in health. Great harm is done by sick people straining every nerve to perform duties for which they have no strength, by the incessant anxiety concerning money, the little sum necessary to support life. More than seven-eighths of the saddest cases can be directly traced to money worries, and old age is chiefly dreaded for the same reason. We are not a faulty nation, despite the existence of all kinds of insurance. A good profit is made from unpaid policies, and the percentage of insurance is none too high at the best. The most that humble workers achieve in that line is the success of a sum sufficient for burial expenses.

### How to Pack Furs Away.

With expensive furs it is unquestionably worth while to send them to some cold storage house where a guarantee of their safety can be secured or the money refunded to whatever amount the coat, muff or bag has been valued. The smaller and less costly furs can however, with perfect safety be locked up in a box or trunk in the store-room provided a few simple rules are complied with.

Either turpentine or camphor balls must be plentifully sprinkled in the box in which the furs are laid away, and the paper wrapping should be well saturated with one of the preventives against moths, camphor being generally preferred, having a less obnoxious odor. The furs should, however, be first wrapped in tissue paper, as the acid of the camphor may injure the delicate skin. Neither balls nor chinchilla, however, can ever be laid away protected by camphor balls, for the camphor will turn to a hideous yellow the rich brown of the sable and take away the soft tone from the lighter shades of chinchilla, imparting also a yellowish tinge that is distressingly ugly.

A large cedar chest makes an excellent receptacle for all kinds of furs, and, although for some inexplicable reason it seems to have been out of vogue for some little time past, cedar chests of all shapes and sizes are once again decidedly in favor. If it has been ascertained that the lid fits closely to the box so that even the most infinitesimal moth could not possibly enter in and that the lock is in perfect working order and incapable of being pried open, then a cedar chest is an excellent safeguard for furs during the summer months, as for some reason the moth's odor is apparently not deleterious to the superlative sensibility of the moth.

### A Hint For Hemstitching.

Now that hemstitching is so very popular a form of decoration the following useful hint will be appreciated by workers: A good deal of trouble when hemstitching handkerchiefs, ruffs or working draw thread luser-

ion is often caused by gauging the requisite number of threads which are to be caught up. An excellent method of dividing these evenly and at the required distances is that of first drawing the threads, folding over and fastening down the hem and then working the needle of the sewing machine along the line of pulled threads.

The needle should not, of course, be threaded, and the "stitch" should be so adjusted that the indentation caused by the needle occurs at the right intervals for the hemstitching—namely, at every third or fourth stitch. If this is done evenly the act of picking up the threads when working will be an easy matter, and no counting or close study of the threads will be necessary. Instead of course, the worker prefers to do so in hemming linen articles such as table napkins and doilies it is necessary, both to cut the linen and mark the position of the hem by a pulled thread otherwise, although the hem may appear perfectly straight before it is sent to the wash, when the "size" still remains in the material, the ironing process will completely change the set of the linen. In mending table linen a fine crewel or darning needle should be used, while it is far better to employ the unraveled threads of a piece of the linen than ordinary mending cotton. Before repairing open holes and very thin places a piece of fine net should be tacked over them and the darning carried on through this.

### Washing Woolen Garments.

The very best way to wash sweaters, babies' socks, leggings and afghans—in fact, all garments knitted or crocheted of wool—is to sew the article in a bag of cheesecloth or mosquito netting. Then wash the bag, with its contents, in soft water with a good white soap. The water must not be cold; neither must it be very hot, and of course the soap must never be rubbed into the bag, the water being soaped beforehand.

After rinsing in several waters, which must be of the same temperature as the soapy water, rip the garment from the bag, but do not hang it on a line to dry. Lay it flat on a table without stretching. Place in the air to dry. If colored, avoid the sunlight, as it will fade it.

### Delmonico Pudding.

Put one quart of milk in a double boiler and let come almost to the boiling point. Beat yolks of five eggs light, add six tablespoonfuls sugar and beat again until exceedingly light. Mix three tablespoonfuls cornstarch with a little cold milk. Add to the eggs and sugar and stir into the hot milk just as it is about to boil.

Add a saltspoonful salt, then stir until well thickened. Pour into a dish that can be sent to the table and stand in the oven for ten or fifteen minutes until firm. Remove and spread over the pudding a layer of canned apricots or other fruit. Beat the whites of the eggs to a stiff froth, allowing one tablespoonful pulverized sugar to each egg. Spread lightly over the top and put into a cool oven to color a golden brown.

### Delicious Custard.

The recipe for this delicate dessert has been handed down in my family for many generations, says a contributor to the Delmonico. Into each individual custard cup put the yolk of one egg, add a heaping teaspoonful of sugar, two gratings of nutmeg and five tablespoonfuls of sweet milk. Incorporate thoroughly and set the cups in a pan of hot water. Bake in a moderate oven until firm. When cool cover with meringue, using the whites of the eggs for this purpose, and allow a tablespoonful of powdered sugar to the white of each egg. Through the very tip of each snowy mound drop a teaspoonful of orange marmalade.

### Ovens With Glass Doors.

Up to date housewives are going in for ovens with glass doors now. In the big cities no woman of moderate means dreams of keeping house without a glass door to her oven.

"I can't think how I could ever have cooked without it," remarked one of them the other day. "How on earth can you ever bake a cake if you have to open the oven door every few minutes to look at it?"

Plate glass of a good thickness is used and is of course a rather expensive item. But those who use it maintain that its convenience repays them fully for its cost.

### For Tarnished Brass.

Pumice soap and ammonia will cure the worst cases of tarnished brass. Just moisten a cloth with ammonia, rub it briskly over the pumice soap and then apply to the article to be cleaned. The operation is a simple and easy one, and the results are immediate and most satisfactory.

### Unkind.

Mrs. A.—Mrs. Baker says she'd give a good deal to know where you get your clothes.  
Mrs. B. (smiling)—She likes them, then, doesn't she?  
Mrs. A.—No. She thinks they wear wonderfully.

Soap and powdered chalk mixed and rubbed on mildew spots will remove them. To expedite matters let the spotted article lie in the sun for a few hours, damping it again as it dries.

New bread may be cut quite evenly if the knife is very slightly heated.

## STOCKMEN SELLING SOME CATTLE

Cedarville Record: Mr. Humphrey, of Reno, has been in the city for several days looking for a buyer for the stock of Jim Givan, Caldwell and Bros., Frank Bros., Jim Dobson, Albee & Roberts, Manu Caldwell and several other bunches that he did not learn the owners of. The beef on the lot are pretty well cleaned up with the exception of T. B. Wackerly who will drive to Ontario and feed for some time before putting them on the market as he is reported plentiful in that section.

The Burns Times-Herald: Harry County, at 17th last, saw J. H. Oard was a caller in this office this morning and stated that he had just disposed of 80 head of two-year-old beef steers to Johnson Bros., of Westfall, receiving \$27 per head for them. In all the buyers secured some 100 head of beef from \$24 to \$27 per head. Among those who sold besides Mr. Oard were: J. H. P. Smith, J. P. Boerger, C. F. Miller, C. O. Hendricks, M. V. Smith, H. V. B. and others.

The Drain Newspaper says a newspaper publisher recently brought suit against forty-five men who would not pay their subscriptions and obtained judgment in each case. Twenty-eight of them made affidavit that they owned no more than the law allowed them preventing the attachment. Then under the decision of the supreme court they were arrested for petty larceny and bound over in the sum of \$100. All but six gave bail, and the six went to jail. The new postal law makes it larceny to take a paper and then refuse to pay for it.

## HOW IDAHO FARMERS GET RID OF SAGE-BRUSH

Over East of here is a new region being opened to the public, under the Carey act by several big irrigation companies. In what is known as the Twin Falls, Idaho, reclamation project, over a million acres of sage-brush land are being reclaimed. The News, of that place, tells in the following how they get rid of the sage-brush:

William Bonding has been doing effective work, with the kerosene torch, in the sagebrush on the North Side. Last Friday he burned 30 acres which, at the prevailing price of \$5.00 an acre, is equivalent to a saving of \$150. Mr. Bonding states that the torch works all right in dry weather and can be profitably used when the bush grows densely. Favored by the wind, it is possible to burn large areas with very little trouble. Hundreds of acres have been cleared of sage-brush on the North Side by this means in the past few weeks.

Some careless ones are still killing their friends in mistake for deer. When these excitable fellows, are treated just as other murderers are, such alleged accidents will be less common. It might be well, too, to compel deer hunters to undergo an examination first to demonstrate their fitness for handling dangerous firearms, before granting a license.

## DIARRHOEA

There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of

## Chamberlain's Colic, Cholera and Diarrhoea Remedy

In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year.

In the world's history no medicine has ever met with greater success.

PRICE 25c. LARGE SIZE 50c.

## New Timber Railroad

The Booth-Kelly Co. is going to be fully equipped for hauling logs on their new railroad. They will have not only their own cars, but they will also have a fine new, 50-ton Baldwin locomotive, which was built for them at the Philadelphia shops and is now on the way. In fact, they will have a complete equipment of their own for hauling logs from the tree to the mill.

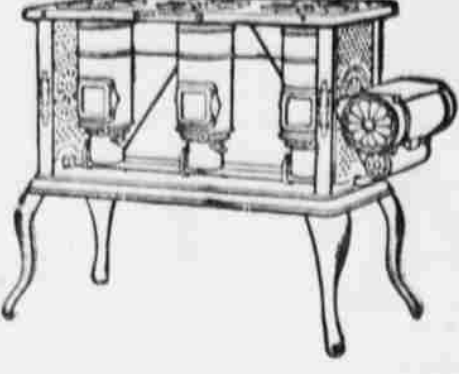

## Restoration to Entry of Lands in National Forests.

Lists 1700 and 1701.

Notice is hereby given that the land described below, embracing 250.68 acres, within the Fremont National Forest, Oregon, will be subject to settlement and entry under the provisions of the homestead laws of the United States and the act of June 11, 1907 (34 Stat., 233), at the United States Land Office at Lakeview, Oregon, on Dec. 24, 1908. Any settler who was actually and in good faith claiming any of said lands for agricultural purposes prior to January 1, 1908, and has not abandoned same, has a preference right to make a homestead entry for the lands actually occupied. Said lands were listed upon the applications of the persons mentioned below, who have a preference right subject to the prior right of any such settler, provided such settler or applicant is qualified to make homestead entry and the preference right is exercised prior to Dec. 24, 1908, at which date the lands will be subject to settlement and entry by any qualified person. The SW quarter of NE quarter, the SE quarter of NW quarter, the NE quarter of SW quarter, and Lot 3 (NW quarter of SW quarter), Sec. 10, T. 33 S., R. 18 E., W. 6 M., listed upon the application of Edwin C. Woodward of Paisley, Oregon. The said SW quarter of NE quarter and SE quarter of NW quarter are subject to the right of way for reservoir and ditches of James C. Woodward, Act March 1, 1891. The N half of NE quarter, the N half of N half of SW quarter of NE quarter, Sec. 22, the NW quarter of NW quarter, Sec. 23, T. 40 S., R. 16 E., application of Cyrus L. Berraff, of Vinitia, Oregon. Fred Dennett, Commissioner of the General Land Office. Approved October 3, 1908, Frank Pierce, First Assistant Secretary of the Interior. 029 N16.

## Put This Stove in Your Kitchen

It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days. The

## NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is so constructed that it cannot add perceptibly to the heat of a room; the flame being directed up a retaining chimney to the stove top where it is needed for cooking. You can see that a stove sending out heat in but one direction would be preferable on a hot day to a stove radiating heat in all directions. The "New Perfection" keeps a kitchen uniformly comfortable. Three sizes, fully warranted. If not with your dealer, write our nearest agency.

The Rayo Lamp is the ideal lamp for family use—safe, convenient, economical and a great light giver. If not with your dealer, write our nearest agency. STANDARD OIL COMPANY (Incorporated).

Pls. see a Chicago Show. Cedarville Record: Wm. Hoard, the fruit garden farmer, stock raiser station keeper and all round in a of Lake County last week presented this other with magnificent pomonku weighing 75 pounds. We have it on exhibit and a better demonstration of Superior Value's productive power than I have ever seen.

## Clubbing Offer

ALL (THE REVIEW OF REVIEWS - \$3) (WOMAN'S HOME COMPANION - 1) (OR, M'CLURE'S MAGAZINE - 1) (LAKE COUNTY EXAMINER - 2) \$5

THERE is no better magazine for the home than the two mentioned, and at this unprecedented low price should be in every household.

THIS OFFER GOOD ONLY 20 DAYS Send in Your Orders

## A Shot with Every Tick of Watch

SIX SHOTS IN FOUR SECONDS Free Book tells of this Gun

This Hammerless Repeater is the most rapid pump gun made; it has every known improvement—easy take-down feature, heavy breech block, covered mechanism and top rib if desired. Catalog shows our other shot guns, doubles, singles, etc.

PRICES, \$5 TO \$27. A postal brings our book—FREE. Address, THE UNION FIRE ARMS CO., 451 AUBURNDALE, TOLEDO, OHIO.

## New Clubbing Proposition

WE have arranged to offer in connection with this paper, the new monthly farm magazine just started at Lincoln, Neb., by Prof. H. W. Campbell and devoted to the subject of how to farm in the dry country and how to get best results from soil tillage under normal conditions. This paper is "Campbell's Scientific Farmer" and we offer it clubbed with the Examiner both for \$2.50 per year cash. Prof. Campbell's new paper is a monthly, chock full of good things, the only paper of its kind in the world, and it embodies the results of the editor's many years of painstaking investigation of the soil tillage proposition.

## A Grand Premium Offer For Ninety Days Only

WE HAVE BEEN successful in closing a special contract with THE CONSOLIDATED PEN CO., of Brooklyn, N. Y., whereby we can supply a guaranteed Solid Gold Fountain Pen.

## The "Celtric Model 1,"

To every subscriber, old or new, who sends us a year's subscription in advance, and fifty cents additional.

The "Celtric Model 1" compares favorably with any \$2.00 Pen on the market today. The pen will be forwarded immediately upon receipt of the money.

## A DESCRIPTION OF THE PEN

The pen is solid gold, it writes fine, the stock of which is made of the best quality of hard rubber and fitted in four parts; the pen points are perfectly fitted with iridium and the feed is guaranteed to flow evenly, without leaking or blotting. The pens are beautifully chased as shown in cut.

## "A Fountain Pen is a Necessity of the Twentieth Century."

The Egyptians used a split reed; our grandfathers a goose-quill; our fathers a steel or ordinary gold pen. But today we want

## A Fountain Pen

that dispenses with the inconvenient inkstand, that does not corrode, and that is always ready for use. Bears the manufacturer's guarantee that the pen is solid GOLD 14k fine. If it does not prove satisfactory in every way we will exchange it for another, or return the fifty cents additional on return of the pen.

This is an unusual opportunity to secure, at a very low price, an article of superior quality that is coming to be essential to the comfort and convenience of every one who writes.

REMEMBER THAT THE OFFER IS FOR NINETY DAYS ONLY.

Lake County Examiner, Lakeview, Oregon.
