**Lawyer Conn Raises Apples**  
L. F. Conn has one apple tree in his front yard in town that was loaded with fine looking fruit. We did not learn the name of the variety or the quality, but as it seems to have entirely escaped damage from the late frosts last spring, it might be well for those planting orchards to secure a few grafts from this tree.  
**How Property Value Grows**  
Property in some of the new towns of the "New and Best West" rapidly increases in value. What has taken place in Twin Falls, Idaho, in regard to rapid rise in value is liable to be repeated in Lakeview within the next five years. The Twin Falls News has this to say of a recent transaction in that city: The south corner of Main avenue and Shoshone street, with a frontage of 50 feet on the former and 125 feet on the latter thoroughfare, was purchased this week by the Twin Falls Bank & Trust Co for \$25,000. On August 25, 1904, when the townsite was opened, the corner lot sold for \$1,000 and the one adjoining for \$750.

**THINKS NO OTHER PLACE LIKE HOME**

Our Beautiful Surroundings and Eine Water Please Everybody

W. M. Harvey and wife, who were visiting their daughter, Mrs. Storckman, at Prineville the past month, returned last week, and left again Monday for a winters stay at San Francisco, and other points. While away Mr. Harvey visited Burns, and other places in Harney County, Vale and Ontario, in Malheur County. He reports some activity in the way of improvement and settlement in those Counties, but none are going ahead so fast as are Lakeview and Lake County—and none of them are blessed with the abundance of pure water, such as we have in Lakeview, and which is not fully appreciated until one goes abroad, and never find its equal.  
During his absence Mr. Harvey purchased a band of fine young mules, which he is taking to the market, and doubtless will realize handsomely on them.

**Will J. Sherlock Hurt**

The Prineville Journal, of the 19th inst., says that Will J. Sherlock and Mrs. Nettie Sherlock, well known Lake County people, were there last week, en route from Paisley north. While crossing an irrigation ditch on the journey, Mr. Sherlock was tossed out of the wagon and as a result of the accident has his entire right arm paralyzed. Mrs. Sherlock had to do the driving and care for him until medical assistance could be obtained here.

**What Would You Do?**

In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and every one should be prepared for them. Chamberlain's Salve applied on soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar. For sale by Daly and Hall.

**Heard From York State**

Use the want columns of The Examiner. Mr. Chas. E. Sherlock did so and has rented his farm to a man in New York State, who is coming in the spring and says 15 or 20 families will come with him. All these new comers will surely patronize our want columns. Why don't you?

**Watched Fifteen Years.**

"For fifteen years I watched the working of Bucklen's Arnica Salve; and it has never failed to cure any sore, boil, ulcer or burn to which it was applied. It has saved us many a doctor bill," says A. E. Hardy, of East Wilton, Maine. 25c. at A. L. Thorton's drug store.

**Eastern Apples Ter Poor**

Forest Grove, Or., Oct. 31.—W. R. Harris, county fruit inspector, in a letter from Mackinaw, Mich., where he is visiting states that the people are paying \$1 per bushel for cider apples, and that even that quality is scarce. He examined a carload of apples from Pennsylvania that growers in Oregon would hardly allow to go to the cider mill. He says the apple crop in Nebraska, Iowa and Illinois is a failure. He suggests that some of Oregon's fruit men ship a few carloads to Peoria to demonstrate what real apples look like.

**COUNTY NEWS**

**Adel**

Regular correspondence.  
Quite an excitement occurred on the Deep Creek bridge last Saturday. Two intoxicated men came up to the bridge and began conversation with the carpenters. Little attention was paid to the men until one drew a revolver and fired a shot. The bullet passed through Oakley Clark's shoe and the end of one of his toes. The wounded man had to be carried to a wagon and taken home.  
Mrs. Morris is improving.  
K. J. Hutchinson and family will live on the Clark ranch this winter.  
Miss Gates was the guest of Mrs. Pope Sunday.  
The ranchmen around Adel, have been busy butchering their hogs.  
The two large freight teams belonging to the W. V. M. Co. arrived Wednesday.

The Warner valley people who were in Ft. Bidwell last week were Dwight Fuskot, Charles Tanner, Ray Clark, Kyle C. Idwell, Chester Curry, Charles Tanner, J. Bliss, A. J. Parker, Harry Calterwood, Mrs. J. C. Dodson, and Mrs. Erwin Wakefield.  
Mr. Wm. Harvey is here from Lakeview.

**Silver Lake**

From the Leader  
Andrew Scott has sold his farm in the Chewaucan valley and will leave this week for California where he expects to spend the winter visiting relatives. Uncle Andy (as he is familiarly called) is one of the pioneers of this region and will carry with him where ever he goes the best wishes of the entire county. Walter Witham is the purchaser of Mr. Scott's place and we feel quite complemented by Mr. Witham's decision to stay in this valley after his investigations of the valleys west of the mountains, for it looks like we have as good a country as is to be found. Mr. Witham has had several plows at work and we understand he has seeded several acres to winter wheat.

A petition is being circulated here this week asking the Forest Service to appoint a forest hunter for the purpose of destroying predatory animals.

Mechanics are placing the new turbine wheel in the George Conn flouring mill this week, so in a few days this region will be supplied with a high grade of flour.

There is probably more fall plowing being done in the Summer Lake and Chewaucan valleys than ever before.

**HOW TO GET RID OF SAGE-BRUSH**

Sow Rye and When Ripe and Dry Set Fire and it Leaves Land Bare

The Twin Falls Idaho News says one very good way to clear land of sage brush, provided you do not care to use the land for a year, is to sow rye among the brush in the fall. The fall and spring rains will cause the rye to grow. In August a fire will burn both the rye and sage brush. If care is taken in sowing the rye so that the fire will carry well from brush to brush the ground will be left clean as swept floor.

fore in their history. The farmers seem to vie with each other to see who will get the most plowing done. This is a move in the right direction.  
Mr. E. O. Check left Friday for Minnesota where he will spend the winter with his family. He expects to return to Silver Lake in the spring.  
Mr. Olsson of Astoria, who filed on 329 acres of desert land last spring will now file on one half of it as a homestead. Mr. Olsson thinks there is no place as nice as this for climate.

**Plans to Irrigate**

The Cedarville Record says George Ayres, of Lakeview, was in town Sunday. We understand that he was on a business trip connected with the tapping of Cow head Lake, north of Surprise valley. If that scheme is accomplished a large area of land that is now practically worthless will be brought under cultivation and be made to blossom as the rose by irrigation.

**GOT A FALL AND BROKE HIS RIBS**

Last Sunday morning August Storckmann Jr. had the misfortune to fall and break two ribs. He and several others were standing on a plank while tacking a steel ceiling. Their combined weight caused the plank to break, letting them fall a distance of about ten feet. August fell across the top of a barrel and was rendered unconscious for several minutes. Doctor Daly was summoned who attended to the injury and the wounded man was soon able to be about once more.

Peter O. Peterson, of Black River Falls, Wisconsin, came up to see if all the good reports of this country were true, and now he is satisfied that it is one of the best sections for a man with a little money to make a start open in the whole American Union.

**ELECTRIC LIGHTS ARE BRILLIANT**

Thank you! Mr. Jensen. We can now see to write or to do any thing else about the printery. If you can give us as good lights as we are now really enjoying, we hope you may never become baldheaded, and may have prosperity equal in value to the brilliant electric lights you are now producing!

**Will the Bears Bite?**

The Silver Lake Leader editor has been inviting us to come up and see that town and its people, for which we thank him, and promise to get up there as soon as our duties here will permit. But, Bro. Holder, we are dreadfully afraid of bears, and your last issue was full of meetings of those chaps by you people. Are they all tame like those in the Yellowstone Park, or do they eat the little boys who sell at old bald heads? If you can satisfy our mind as to the last two propositions we will feel safer in getting up to Silver Lake, which is said to be located at a point farther from railroads than any other town in the United States. But it will not have that distinction, if such it may be called, very much longer as Hill and Harriman are both going there in the near future.
