The box consists of a bag stiffened at the lower part and sewed to a circle of cardboard large enough to accommodate the collars. Becky Sharp Needlebooks.

Quaint and pretty are the Becky Sharp needlebooks, completed at so little trouble, too, that they are well worth describing. Two pieces of cardboard five inches in diameter are covered first with perfumed cotton and then with silk or satin, not necessarily alike if the contrast is good, though the effect is better if the two forming the lining match. Overhand all around the circles and cover the stitches with a fine silk cord, then connect the two by means of a bow of narrow ribbon and sew in flannel leaves pinked on their Suchets of fancy ribbon attached to edges for holding the needles. The ties are of ribbon, and at this stage very fine lace edged doilles the size of the needlebook are sewed invisibly to the outer parts of the covers. This is a dainty addition to the workbox as well as a useful one.
