How to Make Christmas Presents For Both Sexes—Hatpin Cushion—Needlebook—Suit Case Set For a Man.

The hatpin cushion shown is made of pompadour ribbons and val lace. It is tied in the center with baby ribbon. The needlebook is also a dainty little trinket, easily made, and appreciated either by men or women.

The design shown is a conventional primrose pattern worked in ribbons. For the man who travels nothing will be more appreciated than what is call

MATERIALS REQUIRED.

- One piece of cotton wadding.
- One yard of Dresden ribbon.
- Yard and half valenciennes lace.
- Quarter yard taffeta silk.
- Two yards baby ribbon.

HATPIN CUSHION.

ed a suit case set. So many people use the suit case, but have never been able to overcome the difficulty of keeping the shoes and brushes from rubbing up against their clean linen. There are three different articles in this set, all of which are made of coarse linen. The receptacle for shirts is in the shape of a large envelope, the edges bound with braid, and should be large enough to contain two shirts.

The bag for collars is made from the same material. The bottom is circular and made from pasteboard. A good idea is to sew to this a strip of pasteboard about two inches deep. These should be covered with the linen before being fastened together. The upper part of bag should be full and gathered with a drawing string. This protects the collars from crushing as well as keeps them clean.

The third article in the set is a plain linen bag lined with oiled silk. This is intended for sponges and protects the contents of the suit case from the moisture of this toilet necessity after it has been used. The hairbrush can be put in this bag if no sponge is used. The monogram can be embroidered on the outside.

To make a slumber robe for baby take two and a half yards of plain silkline, three bolts of No. 1 ribbon, one skein of Shetland floss and one hat of fine cotton.

Divide the silkline into two equal parts, place in a frame and put in

layers of cotton between, ready for tying.

Tie the ribbons all in tiny bows. Thread the needle with the Shetland floss, using a double. Bring the needle up from the bottom, then down again, taking a stitch through one of the bows. Tie the yarn on the wrong side, with three or four extra needles tied in the knot to make a small tuft.

Continue the knotting in this manner, beginning with two and a half inches from the edges, making the tufts four inches apart. Turn in the edges all around and buttonhole closely with the yarn used singly.

Crochet a row of shells around the quilt, each shell of five double crochet fastened with a single crochet and placed close enough together to make the work lie flat and filled at the corners.

On the right side, just inside the buttonholing, make a row of feather-stitching with the yarn.

This makes a light, dainty cover for the baby. It is very pretty of blue silkline tied with white ribbons or of white silkline tied with pink and blue.

PAPER CHRISTMAS GIFTS.

How to Make Attractive Desk Blotters and Wall Pockets.

Make your Christmas presents of paper. One of the most attractive of these paper articles is a desk blotter. The usual size for a woman is eighteen inches deep by fifteen wide. The materials necessary are one piece of cardboard of the dimensions mentioned and a second piece half an inch less in each dimension. The pad is covered with flowered paper on the lower side and has flowered paper corners. Plain crape paper is used to cover the top of the pad.

The largest of the cardboard rectangles is first covered with the flowered paper. The paper is folded over the edge to a considerable depth, at least an inch and a half being desirable. Its edges are then pasted neatly down, care being taken to make neat corners. The smaller cardboard rectangle is covered with the plain crape paper, which, for instance, may be yellow if a yellow flowered paper is being used. Four right angled triangles which are three inches on the two even sides are then cut from stiff and very heavy wrapping paper and covered on one side with plain and on the other with flowered paper. These are the four corners. When they are covered a margin of paper is left on the equal sides, and this is re-enforced by a narrow strip of muslin. This margin is turned over and pasted to the upper side of the cardboard, which is to form the bottom of the pad. The upper part of the pad is then laid on the lower part, and they are pasted neatly together. The corners, of course, go underneath the pad corners. The pad corners are not pasted down along their long side, as it is desirable to have them free so that new blotters may be slipped in and out at will.

A wall pocket of paper may be made which contains three pockets. For this purpose the bordered crape paper which comes in rolls may be used, or you may select paper napkins whose borders are in the form of garlands.

MATERIALS REQUIRED.

- One piece of cardboard eighteen inches wide by fifteen deep and a second piece half inch less in dimension.
- One roll of plain crape paper.
- One large blotter.

which will not make the pocket too long. The pocket must, of course, be just as long as the motif of the design.

The materials needed are three pieces of cardboard about nine inches long. The length, however, depends upon the design of the paper which is to be used. The cardboard is just the length of the design. The three cardboards are of graduated depths. They are straight on three sides, and on the top they are cut in the shape of the design of the paper. Sometimes the top line is straight and rounding, and again it will have large scallops. A design should not be chosen which has too small a pattern.

All of the cardboards are covered on the outside with the bordered paper and inside with plain crape paper. Perforations are made at equal distances in the three pieces along the bottom and sides. The perforations along the bottom are close enough together to permit of the sections of the pocket being laced together. Only three holes are necessary along the sides. Ribbon the color of the flower in the border is used to lace the sections together and fastened at the ends

with two tiny bows. Along the sides bands of ribbon are used to hold the sections together. The lowest band is very short, the next one longer and the top one longest of all. The edges of the pocket may be touched with gold paint, which adds to the attractiveness of the design.

USEFUL PRESENTS.

Dainty Christmas Trifles For the Woman Who Sews—Ribbon Holder.

A sewing case of cretonne is always appreciated as a gift by the woman who does her own mending. The vivid colors of the cretonne and the grace of the design make it particularly attractive as a material for this purpose. The case illustrated may easily be made at home at a very small cost.

A strip of cretonne is used for the outside of the case, and the inside is lined with silk harmonizing with the design in the design. The sewing articles which are held in place with straps of ribbon. At each end of the case are ribbons that tie it when not in use.

A most ingenious and convenient holder for the rolls of baby ribbon which are such necessary trifles in the wardrobe of the dainty woman has been devised and is so simply formed that it may be attempted by the most amateur in sewing. When complete it resembles a very large spool of cotton, and the starting point is to cut two rounds in cardboard one inch larger in diameter than the roll of baby ribbon. These are covered on both sides with anything convenient, though white linen outside and white china silk on the inside is a suggestion.

Around one end may be embroidered "A Friend in Need," on the other the initials going diagonally. Holes are pierced in the center of the cardboard and the rolls of ribbon and the ends secured under rosettes sewed on the cardboard where the holes are in the cotton spool, the rolls in varied hue taking the place of the cotton. The hanger also starts from these points, and through a loop on one end of the spool a pair of scissors is slipped, the other end holding a bodkin in a similar loop.

SET OF BLOTTERS.

Useful Holiday Gift That May Be Made at Home.

This simple and inexpensive gift can be made with little trouble. Buy a big sheet of gray blotting paper, dark gray preferred, the finest calendar that you can purchase and a yard of one-half inch holly red ribbon.

Cut twelve pieces of the paper 3 by 6 inches. Then, after taking the calendar apart, paste one month on the upper left hand corner of each blotter. Put the blotters in a pile, taking care to have the mouths of the calendars in order, and tie them together with the ribbon in the way shown in the illustration.

If you wish, you can make an envelope of cardboard, provided it is thin enough, after the patterns of any

envelope in the house, and print in the upper left hand corner in gilt letters "Greeting to a Friend." Place the blotters in this, and you have a very attractive and useful present.

Waist Protectors.

One of the simplest and at the same time one of the most appreciative gifts which one can make a girl is a waist protector to slip over the closet hanger which holds her fancy waists.

It is the easiest thing in the world to make.

Take a square of figured silk, silkline or any pretty, light material, cut a hole in the center large enough to slip easily around the collar of the waist and finish around the edges with some pretty white...

Rosettes of narrow satin ribbon tacked on the corners will add to the dainty effect.

Lining is not advised, as this would make the protector too heavy for delicate waists.

Nickel Bread Trays.

Quaint and ornamental for the table are the nickel bread trays in old colonial design, showing fluted and beaded borders in highly polished finish. These trays are somewhat boat shaped and show ornamental effects in pierced work.

Appropriate Motto Cards.

Motto cards have come into great prominence as Christmas gifts. Popular quotations illuminated with elaborate floral garnitures printed on large cards and furnished with rings by which to suspend them are 25 cents each.

Marlin
Repeating Shotgun

This new 6-shot model is the simplest, surest, and fastest 12-gauge repeater made. It has the solid top, side ejection and double extractors—special Marlin features of comfort and convenience. The closed-in breech keeps the action clean and the shells dry—keeps out rain, snow, dirt, leaves twigs and sand.

The new take-down construction allows you to take gun apart in ten seconds for loading or packing, yet the joint is always firm and rigid as in a solid frame, no take-down gun. The fat forearm fits your hand and helps quick operation.

The full choked guns are guaranteed close-shooting, hard-hitting guns, and are equipped for ducks, geese, foxes and all long-range work.

A circular giving large illustration, with full description of this handsome new gun, sent free on request or with complete 120-page catalog for 3 stamps.

"THE SCHOOL OF QUALITY"

Tenth and Morrison, Portland, Oregon A. P. Armstrong, LL.B., Principal

We occupy two floors 65 by 100 feet, have a \$20,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution.

Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest."

LAKE COUNTY ABSTRACT CO.
INCORPORATED

A COMPLETE RECORD

We have made an entire transcript of all Records in Lake County, which, in any way, affect Real Property in the county.

We have a complete Record of every Mortgage and transfer ever made in Lake County, and every Deed given.

ERRORS FOUND.

In transcribing the records we have found numerous mortgages recorded in the Deed record, and not indexed; and many deeds are recorded in the Mortgage record and other books. Hundreds of mortgages and deeds are not indexed at all, and are most difficult to trace up from the records.

We have notations of all these Errors:
Others cannot find them. We have spent hundreds of dollars hunting up these errors, and we can guarantee our work.
