### Personal Mention

Bishop Paddock, of the Episcopal Church, of Eastern Oregon, arrived here Friday morning and left Monday morning. While here he preached three very interesting sermons, one Friday evening and both morning and evening Sunday. In each instance he occupied the Methodist pulpit, and drew crowded congregations.

F. O. Ahlstrom returned Sunday morning from his trip to Marysville. Mrs. Ahlstrom accompanied him home. He says he is glad to get back. He did not like the climate down there—all fog, and rain, and air that chills one to the bone.

To avoid detection and annoyance engage your skates ahead of time for the carnival.

Brig Wade, of New Pine Creek was here Tuesday.

Mr. and Mrs. J. E. Norrin gave Bishop Paddock the hospitality of their home during his stay in town.

### NEW JEWELRY STORE IN TOWN

W. W. McCausland, late of Oxnard, Calif., has established a jewelry store in town. His wife is now here and he will be here with a full stock Jan 15th. The last Oxnard Currier has this to say of our new townsman:

An up-to-date jeweler is indispensable to every community of taste and culture and he whose work shows marked skill is sure of a liberal patronage. The people of this city are not behind in this respect and the generous patronage extended to the popular jeweler, Walter W. McCausland, shows how Oxnard appreciates this enterprise. The stock has been selected with good judgment, and includes the leading makes of watches, diamond rings, pins, studs and ornaments, novelties in silverware, clocks of all sizes and designs and an endless variety of jewelry.

Mr. McCausland is the only manufacturing jeweler in this city and everything in the engraving and manufacturing line is done on the premises. His work bench is in the front of the store and everything is done in plain view of everyone who wishes to see. Particular attention is given fine watch and jewelry repairing and no watch is so complicated for him to adjust or repair. Mr. McCausland's specialty, however, is fine engraving, and in this line he has few equals anywhere. As an example of his skill he has on exhibition the entire alphabet engraved on the head of a pin, while on a disc the size of a collar button is engraved the entire Lord's Prayer. For a number of years Mr. McCausland taught engraving in the East, both personally and by correspondence. A novelty he is now introducing is engraving residences or portraits, to order, on souvenir spoons. This has never before been attempted and is meeting with much favor, as it something entirely out of the ordinary and he now has many orders ahead.

Particular attention is given fine watch and jewelry repairing and no watch is so complicated for him to adjust or repair. Mr. McCausland's specialty, however, is fine engraving, and in this line he has few equals anywhere. As an example of his skill he has on exhibition the entire alphabet engraved on the head of a pin, while on a disc the size of a collar button is engraved the entire Lord's Prayer. For a number of years Mr. McCausland taught engraving in the East, both personally and by correspondence. A novelty he is now introducing is engraving residences or portraits, to order, on souvenir spoons. This has never before been attempted and is meeting with much favor, as it something entirely out of the ordinary and he now has many orders ahead.

Mr. McCausland is the only manufacturing jeweler in this city and everything in the engraving and manufacturing line is done on the premises. His work bench is in the front of the store and everything is done in plain view of everyone who wishes to see. ### Will Talk of Our Fruit Lgter

A. M. Smith and wife of New Pine Creek, were in town Friday and called on The Examiner.

Mr. Smith gives notice elsewhere that fruit growers must take steps to prevent and to eradicate orchard insect pests. The law of the state is very strict, and if orchardists do not take care of their trees, the inspector will do so, and the costs will be charged up against the property in shape of taxes.

The gentleman is an experienced horticulturist and says that this country as a fruit growing region, has gone beyond the experimental stage.

He has promised later to give the

Examiner some information as to the culture and production of fruit in this section, that will be interesting to our local readers, and especially to those rearing this paper throughout every state in the Union, who are looking this way for their future homes.
