August Bogner and Clay Rambo are in Guana valley this week.

Did Ray have any tonic in his bottle when he arrived home from Plush Wednesday?

J. L. Morrow who has been on the sick list is improving.

We are having the biggest storm of the winter.

Pete is queening now—it is one of the Adel girls.

Lloyd—What are you going to do now, Leah?

Leah—Why I am going over to see Ed.

Leon Frakes spent New Years at home.

Warner was visited with a terrific wind storm Wednesday night. No serious damage was done in the vicinity of Adel. But Plush was not so fortunate. The new big bay windows in Mr. Morris's residence were broken and the door in the W. V. M. C. store was sprung so it could not be closed.

Wm. Pope is on the sick list. Louis McCuJey was a visitor from the desert Friday.

DIED

Wm. Ogle, a recent arrival from Nebraska, died at his home on Slash St. at 3:30 o'clock Tuesday afternoon. He had been ill for several months, but was not considered in a critical condition, and was in hopes this climate would help him, but for the past two weeks had been confined to his bed.

Mr. Ogle was born March 14, 1864, in Hancock Co., Ill. A wife, and eight children, ranging from one to sixteen years of age, are deprived of husband and father. His wife is a sister of L. B. Hayes, of Lakeview.

He had been a member of the Baptist Church for the last 15 years. The funeral services were conducted Wednesday afternoon by Rev. W. A. Hopkins in the Baptist Church.

Though strangers in a strange land, the sympathy of all goes out to the sorrowing ones.

The infant child of Mr. and Mrs. Steele, which was born Jan. 5th, died the 14th and was buried Friday. Funeral services were conducted at the grave by Rev. I. C. Parker. This is the second child of the bereaved couple that has died within the last few months. Sympathy of all goes out to them in their loss.

The wife of W. T. Powell and sister-in-law of F. L. Ross, residing 10 miles south of town, died Tuesday of tuberculosis. She came here five months ago from Nebraska, with the hope of being benefited by change of climate. Deceased leaves a husband and five children to mourn her death.

Judge Raker, of Alturas, has refused citizenship to a man who had been in this country for several years, earned good wages but spent it as fast as earned in riotous living. The judge said this country had no desire or room for prodigals.

HYMENIAL

A very quiet wedding was solemnized Tuesday evening at 5:45 o'clock, when Mr. Ephraim Miller and Mrs. Edna Moss were joined in marriage by Rev. W. A. Hopkins at the home of the bride's parents. A few friends and relatives of the bride and groom were present. After the ceremony a wedding supper was served. The bride is the only daughter of Mr. and Mrs. W. Z. Moss well known in Lakeview while the groom is the popular postmaster of Lakeview. Both young people were raised in Lakeview and their friends are numbered only by their acquaintances.

The Examiner, together with a host of friends, wishes them many years of happy and prosperous wedded life.

Miss Lilla Brown and Mr. Alfred Sage were married in Sacramento, Jan. 3, 1909. The bride is a daughter of Mr. and Mrs. Jonas W. Brown, well known in Lakeview, having lived here for a number of years, before moving to Sacramento some three years ago. The groom is one of the firm of Sage & Newhouse, Clothiers, of Sacramento. They will make their home in that city.

A deal was closed last week by W. H. Norcross of Central Point, Oregon, for 12 acres of his famous Plain View orchard, the buyer being Frank Watson, a recent arrival from Los Angeles. The price paid was \$18,000 or \$1,500 an acre, which is the largest price yet paid in the Rogue River valley for orchard land. The tract is all in bearing trees.

An Orchard Captures All
George A. Kibly, commander of all the Salvation Army forces west of the Mississippi river in day resigned from the army. He will conduct a peach orchard. This fruit growing business, sooner or later, catches them all.

THIS IS SAID TO HELP MANY

Get from any prescription pharmacist the following: Fluid Extract Dandelion, one half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime. The above is considered as the most certain prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder, and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes rheumatism. Some persons who suffer with the ailments may not feel inclined to use much confidence in this simple mixture, yet those who have tried it say the results are simply surprising. The relief being effected without the slightest injury to the stomach or other organs. Mix some and give it a trial. It is highly recommended. It is a prescription of an eminent druggist, whose entire reputation, and was established by it. Druggist here at home when asked that he could either supply ingredients or could mix the prescription for our readers also recommends it as harmless.

WILL DRILL WELLS FOR ARTESIAN WATER

Lute Moss has ordered an artesian well drilling outfit to be used on his sheep ranch near Juniper mountain in the center of the county. He believes that artesian water in plenty can be obtained anywhere on the desert and the faith within has impelled him to go to big expense to test the matter. If he succeeds, others throughout the county will be inclined to resort to artesian wells for water for domestic use, and for purposes of irrigation. Dick Kingsley says he is to have Mr. Moss sink the first well on his orchard tract at New Pine Creek. There is artesian water on either side of Lake county and it seems plausible that it also can be had here. The Examiner hopes Mr. Moss will meet with success.

Why Hens Don't Lay

Prof. Pernot, bacteriologist of the O. A. C., has discovered that infertility in eggs is caused by bacteria, the exact character of which has not yet been determined. Prof. Pernot recently collected a few of these newly discovered bacteria and formed a culture. From this he inoculated a number of young chickens and every one of the chickens died. He is now trying to determine the characteristics of the bacteria and trace their source.
