LAKE COUNTY ABSTRACT CO. INCORPORATED

A Complete Record

We have made an entire transcript of all Records in Lake County, which, in any way, affect Real Property in the county.

We have a complete Record of every Mortgage and transfer ever made in Lake County, and every Deed given.

ERRORS FOUND.

In transcribing the records we have found numerous mortgages recorded in the Deed record and not indexed; and many deeds are recorded in the Mortgage record and other books. Hundreds of mortgages and deeds are not indexed at all, and are most difficult to trace up from the records.

We have notations of all these Errors:

Others cannot find them. We have spent hundreds of dollars hunting for these errors, and we can guarantee our work.

J. D. VENATOR, Manager.

THE DISCONTENTED GIMLET.

How a Discontented Tool Was Made to Cease Complaining.

Once upon a time a Gimlet in a carpenter's basket was in a bad temper and began to talk like this: "I am sick of this life. I get no chance at all. All the other tools in the basket have fine work to do except myself. There is the Ax that hews the trees of the forest; there is the Plane that smooths the tables of princes; there is the Chisel that carves the cornices of palaces. But poor little me! I am always fretting and fidgeting, boring one little hole after another, and whenever I have made one a great Nail comes rushing in and takes all the credit, as if he had made the hole for himself. I am really very badly treated, and I have made up my mind that if I cannot do some bigger work I'll not do any at all."

Out poked the long nose of the Hammer. "What is that you say, you silly little Gimlet? You think your work is not worth doing, but you forget that there is scarcely a tool in the basket which our master uses more than yourself. You forget, my dear little Gimlet, that many of the tools you envy so may find their work done by others. The Saw will bring down the oak almost as well as the Ax, and the Adz. If you use it carefully, would do the work of the Plane pretty well, and even the Knife, though he is sometimes despised because he is so cheap, yet does quite as well as you for carving. But no tool in the chest can do your work except yourself, for you know that even your cousin, the Auger, is useless for your tasks, as neither Nail nor Screw will hold after he has made a hole. So, Friend Gimlet, grumble no more, but be content and do your useful work as well as you can, for it is to you that our master trusts for making his joints hold without splitting and for all his work being neat and solid."

The Shifting Brick.

A very curious and interesting form of optical illusion is well illustrated by what may be called "the shifting brick."

The central brick, drawn to show all its edges, as though it were made of

glass, will assume the form indicated by one or other of the smaller bricks at its right and left, according to the way in which the eyes accommodate themselves for the moment to one pattern or to the other. If you do not see this at first, look steadily for awhile at the pattern you desire.

Bible Conundrums.

Why could they not play cards in the ark? Because Noah sat on the deck.
Why was Noah a disappointed rat catcher? Because it was forty days before he saw a rat.
What did Adam plant first in the garden of Eden? His foot.
What man in the Bible had no father? Joshua, the son of Nun.
When was money first mentioned in the Bible? When Noah took the green back into the ark.
Who was the first man that bore arms? Noah.

The Baby Bantams.

Ly little banty Mary
Has tiny babies eight;
Their papa's name is Jerry—
He stands inside the gate.

My little banty Mary
Is careful with her chicks;
She takes them in the garden
And scratches there and picks.

But when a hawk comes flying
Above the garden lot
The bantams hardly know then
If they are safe or not.

They never, never tarry
When banty Mary calls,
But, fluffy, white and downy,
They fly like cotton balls.

And so my baby bantams
Have never come to grief,
For Mary hides them safely
Beneath a cabbage leaf.

And in the evening, after
The banty chicks are fed,
They all are tucked up snugly
In Mary's feather bed.

Is This the Line?

Miss Cod—Freddy Scales promised to drop me a line today. I wonder if this is it?

The Riddler.

Can you name two words where the five vowels follow in successive order? "Facetious" and "abstemious."
What words may be pronounced quicker and shorter by adding another syllable to them? "Quick" and "short."
What word of five letters can you take the first two letters from and have one remain? "Stone."

America's Greatest Weekly

THE TOLEDO BLADE

TOLEDO, OHIO

Popular in Every State

In many respects the Toledo Blade is the most remarkable weekly newspaper published in the United States. It is the only newspaper especially edited for National circulation. It has had the largest circulation for more years than any newspaper printed in America. Furthermore, it is the cheapest newspaper in the world, as will be explained to any person who will write us for terms. The News of the World so arranged that busy people can more easily comprehend, than by reading cumbersome columns of dailies. All current topics made plain in each issue by special editorial matter written from inception down to date. The only paper published especially for people who do not read daily newspaper, and yet thirst for plain facts. That this kind of a newspaper is popular, is proven from the fact that the Weekly Blade now has over 300,000 yearly subscribers, and is circulated in all parts of the United States. In addition to the news, the Blade publishes short and serial stories, and many departments of matter suited to every member of the family. Only one dollar a year.

Don't Get a Divorce

Rye as a Feed for Hogs.
Professor Smith, the Nebraska authority on live stock feeding, says: "I have had experience in feeding rye to fattening hogs. Rye alone makes a fairly good fattening ration, though it is less satisfactory than either corn or wheat. In tests made at the Nebraska station we have found that rye has a feeding value very nearly 10 per cent below wheat and practically the same per cent below corn. In composition it is much like wheat, but rye does not seem to be nearly as well relished; at least hogs will not eat as much rye as wheat on full feed. A mixture of equal parts of corn and rye makes a much more satisfactory fattening ration than rye alone, and equal parts of corn, rye and shorts are still better."

Stomach Trouble Cured.
If you have any trouble with your stomach you should take Chamberlain's Stomach and Liver Tablets. Dr. J. P. Klote of Edina, Mo., says: "I have used a great many different medicines for stomach trouble, but Chamberlain's Stomach and Liver Tablets more beneficial than any other remedy I ever used." For sale by Daly and Hall.

Alfalfa For Dairy Cows.
A summary of feeding trials by the Wisconsin station with dairy cows shows that alfalfa can be made to take the place of at least one-half of the grain usually fed our dairy cows, and is the nutrients needed by dairy cows can be produced much more cheaply with alfalfa than with grain the cost of producing milk may be greatly reduced by its use.

Heavy Horses on the Farm.
A few good heavy draft horses will do more work on the farm than double the number of light ones. Practically every team requires a driver. The horse that team can do in a day the other economical will work best. The light horse is all right on the road, but is at a discount when hitched to a fifteen inch plow.

Lame Shoulders.
This is a common form of muscular lameness. No internal treatment is needed. Apply Chamberlain's Liniment freely twice a day and a quick cure is certain. This liniment has proved especially valuable for muscular and chronic rheumatism, and is sure to give quick relief. Chamberlain's Liniment is also excellent for sprains and bruises. Price 25 cents; large size 50 cents. For sale by Daly and Hall.

What He Knew.
"Do you believe that love makes the world go round?" queried the sentimental maid in the big touring car. "I don't know about that," replied the practical young man at the steering wheel, "but it is gasoline that makes the wheels go round on a grade like this."

Don't Take the Risk.
When you have a bad cough or cold do not let it drag along until it becomes chronic bronchitis, or develops into an attack of pneumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of prompt relief. From a small beginning the sale and use of this preparation has extended to all parts of the United States and to many foreign countries. Its many remarkable cures of coughs and colds have won for it this wide reputation and extensive use. Sold by Daly and Hall.

A Christmas Race.
Here is a new sort of three legged race which does not require all the trouble of tying your racers together and is very much better than the old way. In fact, girls may go in this kind as well as boys, with no fear of hurting themselves, and two nimble girls stand a very good chance of beating two boys too.
All you have to do is to grasp the raised left foot of a companion, who hops along in front of you. It is really a race of hops, and the best hopper will surely win a Christmas gift as a prize, for it is no trick at all for the one behind to run as fast as the front one can hop.

Hundreds of orphans have been helped by the President of The Industrial and Orphan's Home at Macon, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It invigorates the vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up pale, weak children or run down people it has no equal. Best for female complaints.
