THIS PAPER is kept on file at E. C. Dake's Advertising Agency 124 Sansome Street, San Francisco, Cal., where contracts for advertising can be made for it.

ESTABLISHED DRY LAND FARM

A bill for a dry land experiment station was passed by the legislature. The farm is to be located somewhere, not yet determined, in central Oregon. The U. S. government assists in maintaining the farm to the extent of not less than $5,000 annually and the State of Oregon provides for not less than $2,500 each year for the same purpose.

Section one of the bill states that it is the purpose of the law to investigate and demonstrate the condition under which useful plants may be grown on dry, arid or non-irrigable lands in the State of Oregon, and to determine the kinds of plants best adapted for growth on these lands.

Section three provides that said experiment station shall be located on such part of the dry, arid or non-irrigated lands in the State of Oregon, by and under the direction of the board of regents of the State Agricultural College of Oregon, as shall be selected by the board of regents of said college, acting in co-operation with a representative of the United States Department of Agriculture.

Section five says it shall be the duty of those having said experimental farm in charge to secure seeds from this and other countries of the world, of plants that are thought suitable for growth on dry lands, and to observe and record the growth, yield and composition of the plants grown from the seed so secured; to investigate and determine the methods of soil treatment by which the soil water is best conserved; to investigate the possibilities of grazing on dry lands which have been seeded to different crops, and to undertake such other experiments and demonstrations as may be deemed advisable, having in view the reclamation of the dry or arid lands of the State.

When the farm is established and in working order bulletins are to be published for free distribution showing the result of their experiments.

Strong effort is being made by the Burns, Harney Commercial Club, and also by other towns to secure the station, and Lake County should also get busy in this matter.

The Oregon-Idaho Development Congress will be held in Boise, Feb 26-27. The objects of this congress are to develop the states of Oregon and Idaho, particularly the Southern portions thereof, by the encouragement of irrigation projects, the building of railroads and other legitimate means.

Included within Southern Oregon and Southern Idaho is one of the richest empires in the United States. This territory has hardly begun its development, is better equipped for making than any other section of our country to compete for wealth and resources. This territory must ultimately be the home of millions of people and with the proper encouragement, publicity and industry on the part of its own people it will within a few years sustain several hundred thousand inhabitants.

One of the main objects of this congress is to build a railroad across Southern Oregon into Southern Idaho. Such a railroad would cause a marvelous development and would advance both states far beyond the present stage. It would prove of inestimable value to every city within 100 miles of it and would probably be the means of bringing to us new transcontinental roads from the east.

It is too late now to send a delegation from Lakeview, but we can, and extend hearty co-operation. This is not a large convention but it is one which is in dead earnest. The organization has set out to do a certain work and that work must be done in the very near future. If Oregon and Idaho are to be developed as they should be, the people of these states must cease to wait for promoters to come from the east; they must awaken and do the development work themselves.

Progressive Japan has longer than any other country practiced technical forestry. With extraordinary skill and absolute success the authorities have for 1200 years planted and cared for the forest trees.

"The results, writes a correspondent of the Pall Mall Gazette, "have been really wonderful, for through the extremely sedulous management and the knowledge and skill by degrees attained the financial gains have been very large, indeed. Not a twig is ever wasted. The trees are regarded as almost sacred property, and not a particle of any one of them is regarded as rubbish, so close is the utilization. Thinning and all departments of arboreal culture are very carefully conducted. At the end of thirteen years from planting a woodlot is thinned by experts, and then every five years the process repeated for one hundred and twenty years, the average period of cultivation of a set of trees."

Oregonian, 17: The Ontario gas well, spouting with a force that hurled mud, water and gravel 150 feet into the air is so far ahead of anything that has followed years of effort to find oil and gas in this state that the event may mark an epoch in the industrial history of the state. The importance of the discovery can hardly be over estimated, and, if subsequent prospecting on a large and scientific scale which will now be assured, should disclose both oil and gas in paying quantities, the entire Eastern Oregon region will witness such a boom as a few years ago swept over the oil regions of Texas and California. The announcement of a gas gusher in Eastern Oregon and a railroad to Central Oregon all in one day, is reaching for the record for good news for Oregon.

The most sweeping anti-trust law ever drafted in Iowa has been introduced in the house. Its purpose is to stamp out the grocer's trust, the coal dealer's trust, and even the doctor's trust. The latter are charged with fixing excessive prices. The bill has the support of Attorney General Byers.

Imprisonment in the penitentiary for not less than one year, nor for more than ten years, is provided for persons violating the law.

The imprisonment clause is the only thing that will put a stop to the unholy practices of robbing the people under the spacious plea of "business."

One of the sections of the agricultural appropriation bill set aside $110,000 for the purpose of experiment in producing news print paper from corn stalk pith. An amendment by Gaines of Tennessee provides that any patent resulting from the experiment must be taken in the name of the secretary of agriculture, for the "benefit of the people of the United States." That will be the means of putting a quietus on the robber paper trust, fostered and abetted by a robber tariff, at least in so far it treats of white print paper.

Klamath Falls is to have a creamery with a capacity for handling the product of 1000 cows. By the way, what has become of the proposed creamery for Lakeview?

COUNTY NEWS

Adel

Regular correspondence.

Born:—to the wife of James Wakefield, 10 pound boy. Mother and baby are getting along splendid.

Cleveland Wakefield made a trip to the county clerk's office this week. You can guess the object. Ed Nesham and Raymond Clark accompanied him to town.

Frank Laird and Leon Frakes made a trip to the Dugout Saturday.

Born:—To the wife of Wm. Cooper, on Feb. 16, an 11 pound girl.

Jack Green is here doing work for some one or parties that intend to get control of the Deep Creek water power. This sure looks like business. This creek has one of the best water powers in southern Oregon for an electric light plant.

Geese and ducks are swarming into our marshes.

The Hall company gave a dance Feb. 2. It was a grand success. Thirty one tickets were sold and an elegant supper was served at the Morris ranch. The Plush people turned out in large numbers. Those present from the north were Miss Mary Higby, Miss Kitten Fine, Mr. and Mrs. Grizzel, Willis & Tom Grizzel, Wm. Moss, Jake Messner, Martin Messner and a number of others.

Arthur Parker and August Bogner were guests at the J J Ranch Thursday.

Walter Dent and wife are here from Lakeview, visiting a few weeks on their ranch.

There is a splendid farm of 160 acres of land with a good water right for sale in the south end of this valley, a good home for the right man.

Farmers who are looking for hay see the McCulley Bros. as it is understood they have a hundred tons for sale at the Cooper ranch. Nearly all our ranches have plenty. The Corporation has 25 large derrick stacks left for the early spring months. They will have hay left for the next season. We are more fortunate in Warner than our fellow stockmen to the south and west.

Another card party came off last Saturday at the Givans ranch. All had a delightful time.

Silver Lake

From The Leader.

Miss Eva Basey, we understand, has been engaged to teach the Fort Rock school for a term of three months, and will begin her duties next Monday. Miss Basey is a lady of culture and refinement and we predict the Fort Rock school will make rapid progress under her tutelage.

We understand that Adin McCall of this place has purchased the Charley Campbell ranch at Paisley.

The Z X Co. has taken on 8,000 head of cattle from their Paisley Ranch to the desert and turned them loose on the range in that section.

F. A. Weed, of Lake, is a business visitor in Silver Lake this week. Mr. Weed informs us that grain sown last fall stood the winter fine and is looking splendid.

Sam Wardwell has turned granger, having taken a months vacation from counter jumping and will during that time do some plowing and fencing on his homestead.

Rev. Hopkins, of Lakeview, will hold religious services at the school house next Sunday at 11 o'clock a. m., also in the evening at 7:30. Rev. Hopkins has the reputation of being an interesting speaker, and a cordial invitation is extended to all to be present.

The Lakeview Examiner predicts that thousands of people will come into that city at the time set for the auction of the lands of the road company. We hope they will, and if it should be possible that you get more people over there, brother, than you can find room for, or if some should not be suited with what you have to offer, speak a good word for Northern Lake and send the overflow this way, for we are satisfied we can suit them, if they can be suited at all. Some people can never be suited anywhere and of course that kind are not desirable.

The Examiner always has boosted for the whole county, Bro. Holder, and will continue to do so.

ENDS INDIGESTION IN FIVE MINUTES

Every family here ought to keep some dispepsin in the house, as any one of you may have an attack of "indigestion" or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards. If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50 cent case of Pape's Dispepsin and take one triangule after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullnes or heavy feeling in the stomach, Nausea, or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Dipepsin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all "you stomach misery is at your Pharmacist waiting for you.

These large 50 cent cases contain more than sufficient to cure a case of Dyspepsia or Indigestion.

City wishes to dismantle mill and clear grounds for park. Address M. F. Eggleston, City Recorder, Ashland, Oregon. F53

FOR SALE—West ½ of Sec. 34, Township 38, Range 19 East at $5 per acre, 7 miles from Lakeview, Oregon. Write or enquire of C. F. Elgin, 606 of City Hall, Salem, Oregon.

How would it do to pass a law that if any official asked for an increased salary this should be legally deemed equivalent to a positive resignation?—Portland Journal.

Well, in cases of this kind, what is the recall? Would not its use at the present time have a salutary effect?

A powerful flow of natural gas was struck last week in a drilled well 300 feet deep near Malheur lake in Harney county, adjoining Lake on the east. It is impossible to estimate the immense value this strike will prove to the future commercial and industrial life of southeastern Oregon.

FURNITURE STOCK

NOTICE—The public is hereby notified that I have taken over the Furniture Stock of Wallace & Co. No bills against said firm contracted after date of Jan. 1, 1909 will be considered and all accounts outstanding said to said firm are to be paid to the undersigned.

H. L. Chandler.
Dated, Lakeview, Ore., Jan 1, 1909.

LOST—One white and black two year old steer, branded Tillamook connected, M right split in left ear. A reward will be paid for knowledge of his whereabouts. J. C. OLIVER

Smiles and Squalls

By "THE VERDANT GAE"

Carrie Nation says, "the lips that touch wine shall never touch mine." Oh, dear Carrie, I am a teetotaler from this minute until we meet. But, "you will have to hurry, Carrie," or you will not touch mine. I can't teetotal too long at a stretch!

A Roanville doctor says every one should swallow a dozen eggs a day. The idea of giving a newspaper man such advice that while eggs are 70 cents a dozen. Such advice is really adding insult to injury!

A man at Wayerose, Ga., killed his mother-in-law about five years ago and last week was fined $100 for the crime. If the "punishment is made to fit the crime" mothers-in-law must be held in pretty poor esteem in that state!
