Hahn's Trip East

Several persons have asked me for a write up of my trip east, and I now set my hand to do my best.

On January 14th I took the stage from Lakeview to Alturas, where I staid over night and met several of my old acquaintances from Surprise valley and elsewhere, who were glad to see me take a trip to the east.

I took the narrow gauge to Reno where I arrived in due time. Here I bought my ticket for Newtown, Kansas, and was off within two hours.

Arrived at Ogden on time and started for Cheyenne, on the U. P. R. R. I passed along this line some twenty eight years ago with an ox team, crossing the plains. I noticed many wonderful changes in the improvement of the country.

When I arrived in Denver the first thing to greet my eyes was the word "welcome" written with electric lights, which made me feel that I was really welcome to that city.

Then we changed cars for Newton, Kansas. This was a flyer, the fastest ride I had on the trip. For about the first two hundred miles the country was a great fruit country.

Then we came to Dodge city, Kansas. At this place I saw vast fields of wheat and corn. Here I was told, they raised millions of bushels of wheat in that country for about 200 miles along the R. R. line.

At two o'clock I arrived at Newton where my brother was waiting for me. Though I had not seen him for twenty eight years I knew him at first sight.

We were soon at his home where I remained several days, meeting and greeting my two sisters and five brothers, with their families. Here we spent our first Sunday together for many years, which shall never be forgotten.

We six brothers went to Sunday school in the morning, and were introduced to the sons of the Rev. T. C. Hahn, a former missionary of North west Kansas, of the U. B. Church.

At the close of the services we returned home, were determined to read the good old Bible, which I used to read when father read it years ago.

After which every one of father's sons led us in prayer. Then we had a testimonial meeting each one telling his experience in life. Many shouts and praises were sent up to Almighty God for his great care, and keeping and permitting us to meet again.

At a late hour we retired to sleep, to arise the next morning and part again, to meet again at God's own time.

My brother Amble and I concluded to visit our birth place in Ohio also visit three uncles and one aunt. So on January the nineteenth, we started for Ohio by Kansas City and Chicago, to Richmond, Indiana.

Here we met our father's brother, Uncle Abner Hahn. We then went to New Paris Ohio, and visited our Uncle Henry Hutton (mother's youngest brother). Here we got conveyance and went to the Old Church at Pleasant Hill.

Here father and mother were converted, here they came as sweet hearts and were married. Arriving here just in time for Sunday school, we went in and were seated.

At class time the superintendent found out who we were. This man happened to be father's classmate. He was not a little surprised to see us. He being class leader invited me to lead the class, and introduced us as the sons of Rev. T. C. Hahn.

Here I stood within a few feet of where father stood when he was fourteen years old and lead his first class meeting. This seemed a very sacred place to us. After gaining control of my feelings, we read a lesson and applied it to the people of the class.

God surely blessed the people. Not one in the house but who gave a testimony. Shouts of praise were heard like old fashioned times. After meeting was over we were introduced to many cousins and relations, whom we did not know.

Then we visited the church yard, where sleep our grand mother and grand father and several uncles and aunts.

We then went to take dinner with our father's youngest brother. We saw many scenes of childhood recollections on our way. Here we had rehearsed to us our ancestry, which carried us back to King George the Second, of England on one side and the Weyleys on the other, which makes us the tenth generation from them.

From there we returned to Anderson, Indiana, where we visited our father's only living sister.

Then we started back for Kansas, with nothing important except one of Kansas's North western blizzards, which struck us near Kansas City and lasted for three days. I had fallen asleep and when I awoke my brother informed me that there was a terrible storm. Telegraph poles had fallen across the track and we were two hours late.

The next morning I arrived at my youngest sister's at Burns, Kansas. I made a short visit to the homes of my brothers and sisters. During this time I became acquainted with the Kansas people and their country.

I found them the most prosperous people of any state in the Union. They claim prohibition to be the great cause of their prosperity. They have more money per capita than any other state and more capital per population than any state in the Union.

I found that out of a population of one million, eight hundred thousand only seven hundred and fifty were on the county poor farms in the state. We can but say: Hurrah for prohibition!

By this time our hearts became somewhat weary. We began to long for wife and home among the beautiful mountain peaks of Goose Lake Valley which we have learned to love and hope to see many prosperous years.

So on Feb. 8th I started for Southern Oregon by way of Colorado Springs, where I visited the garden of the Gods, Pike's Peak and Grand Canyon. From there I came to Salt Lake City, Reno Nevada, and on to Home, Sweet Home.

H. H. HAHN.

We say without hesitation that Do Witt's Kidney and Bladder Pills are unequalled for weak kidneys, backache, inflammation of the bladder and all urinary disorder. They are anti-septic and act promptly in all cases of weak back, backache, rheumatism and rheumatic pain. Accept no substitute. We sell and recommend them. Daly and Hall.

DUSTING MADE EASY.
A New Brush For Cleaning the Radiator Pipes.

Brushes, as every good housewife knows, are an important part of the household care and the household economies. There must always be a sufficient supply of brushes on hand, and these must always be kept in good condition.

One of the newest and best inventions in the brush line is now on the market and is called a radiator brush. To the housewife who has tried to remove the surplus accumulation of dust from between the pipes of a steam radiator this brush will particularly appeal. The handle is long, and the brush part is narrow, allowing easy access to the dirt covered parts.

A new sink and window cleaner is a useful thing to possess. It is made with a brush on one side and a narrow strip of rubber on the other, which serves as a drier.

A good article to have near the sink resembles a small dustpan, and attached to it is a brush which is invaluable in cleaning the sink.

An imported brush for the cleansing of the sink has just arrived on the market and owing to its usefulness and cheapness bids fair to be the most popular of sink cleansers.

A new idea is being shown in the way of a furniture brush, the bristles being graduated in size, the center ones being the longest, which permits the user to remove the dust from the crevices and buttons of the furniture.

Feather dusters are as old as dust cloths, but are still considered by some persons as the most essential of dirt exterminators. New ideas are being worked into the manufacture of these dusters all the time. One of the many good points in their favor is the detachable handle.

Cuspidor brushes are a great boon to those whose lot it is to keep them in order. The brush part is about three inches square and made of the same bristles stuff as a scrubbing brush. The handle is long enough to reach the bottom of the deepest cuspidor.

The sanitary brush is one of the greatest of household conveniences. The handle is very long, being made of wire, and the bristles entirely cover one end of the brush. No bathroom should be without one of these brushes.

When one has in the kitchen a small plate cleaner the greasy pans and kettles are a minor consideration. The article mentioned has a small half circular piece of rubber which is held in place by a wire or heavy tin handle. After this is drawn over the dishes a few times all the surplus grease is removed.

Notice.
TO WHOM IT MAY CONCERN, notice is hereby given that all irrigation, or millrace ditches on all trout streams throughout Lake County, Oregon, must be screened with a small mesh wire screening at their head or junction with the main channel of stream. Also all dams or obstructions on said streams must be provided with a fish-ladder, or other means of passage, at or near the middle of the main channel, so as to allow the passage of trout at all times of year, as provided by law. Said work to be done at low water time, or to be completed by Feb. 7, 1907. By order of J. A. Barham, Special Deputy fish Warden for Lake County, Oregon.

\$1,000.00 Reward.
The Oregon, California & Nevada Livestock Protective Association will give \$1000 Reward for the conviction of any party or parties stealing horses, cattle or mules belonging to any of the following members of this Association:

The New Model Marlin No. 24 Repeating Shotgun. This new 6-shot model is the simplest, surest, and fastest 12-gauge repeater made. It has the solid top, side ejection and double extractors—special Marlin features of comfort and convenience. The closed-in breech keeps the action clean and the shells dry—keeps out rain, snow, dirt, leaves twigs and sand.

The Marlin Firearms Co., 42 Willow Street, NEW HAVEN, CONN.

DIARRHOEA. There is no need of anyone suffering long with this disease, for to effect a quick cure it is only necessary to take a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. In fact, in most cases one dose is sufficient. It never fails and can be relied upon in the most severe and dangerous cases. It is equally valuable for children and is the means of saving the lives of many children each year. In the world's history no medicine has ever met with greater success. PRICE 25c. LARGE SIZE 50c. Spring goods will arrive in few days at Lakeview Mercantile Co.

Portland Business College

"THE SCHOOL OF QUALITY"
Tenth and Morrison, Portland, Oregon A. P. Armstrong, L.L.B., Principal
We occupy two floors 65 by 100 feet, have a \$30,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution.
Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest."
Open all the year. Students admitted at any time. Catalogue free. References: Any bank, any newspaper, any business man in Portland.
