SUCCESS WITH SHEEP.

Learning of the methods which have brought success to other business men has helped many a beginner to improve every opportunity while making his own start in a life's undertaking.

To become a true master of sheep breeding it requires the desire to do it correctly and to persevere for many years in continuation. A solid foundation is the first and greatest of all requirements, so do not start in a hurry, but do it well, saying a writer in the Shepherd's Criterion. A few ewes of undeniable breeding and correct individual merit are more to be desired than a larger number of inferior ones. Books and articles have been written on this subject and have done a great deal of good in scattering practical ideas among fresh minds, but your best way to gather the most reliable and practical information is to visit the best breeder within any ordinary distance by rail. Go and stay a day or so and have a few hours' conversation with the breeder himself, and there you can learn of practical ideas which have given good results, both in feeding and breeding. By personal interview numerous things can be learned which are hard to tell on paper.

No matter whether you are making purchases or not, any large breeder will be only too pleased to have you go through his flock. If you are contemplating the founding of a flock or are a new breeder, you will be greatly profited by a visit to the largest and most reputable breeder within your reach, and if you are an old breeder you would enjoy seeing how others do things. Sometimes I think that breeders miss a great deal by not having their efforts more united. More visits with each other would bind them

closer together, and each would profit by the experience of others. From personal experience I am sure that every such visit adds to your general knowledge of the business. Every visit I have ever made to another flock gives new ideas in breeding and feeding.

Your first few years should be spent in building such a live flock as will produce the very highest class of lambs. The first step is to get a few ewes from the oldest and most reliable breeder you know of, as these are the only ones that will give you uniformly good results, such as you desire. In a couple of years you can tell which ewes are not breeding just as you would wish, and these can be discarded, as well as their lambs, if at all undesirable. The lambs from the better ewes should be kept in the flock as breeders. Soon you have a most excellent breeding flock, and that will be the real foundation of your business. Keep your best young ewes regardless of what price may have been offered you. America needs more steady breeders in the sheep business who desire none but the very highest class obtainable. The common sort are in enough hands, so when you start make it your sole aim to have a flock superior to as large a per cent of the others as is possible.

The better your sheep are the larger will be the profits. When breeding pure breeds do not huddle down in your little nest and think that everything will come to you. You must get out and meet other good breeders and exchange ideas. The experience of other breeders will assist you in breeding the top notchers, and when you have once placed your flock among the leaders of the country there will be great demand for the surplus of your flock. It is a great satisfaction to know that the sheep you sell will be admired and do well in any country to which they go.

The Parker.

The perfect mother bunches her brood in some corner and settles down a few feet from them.

Never select a young boar with a coarse, homely head, as results are not apt to be satisfactory.

One acre of alfalfa in good growth will pasture about fifteen 100 pound shots receiving a full feed of corn.

In selecting a hog never pick out one that has very large bones, big, round hind legs, under the impression that the hog is strong and is going to stand up. Simply because a hog has got large bones is no criterion that he will stand up.

Castrate the pigs when they are three or four weeks old. Then they are unusually active and the wound heals quickly and is well before they are weaned, causing no setback in the pig's development.

Cowpea Hay For Live Stock.
Cowpea hay is very nutritious. It is nearly equal to wheat bran as part of a ration. It is satisfactory for work stock and for beef or milk production, and it gives good results when fed to poultry. The grain is a rich feed, excellent for poultry, but little used for other feeding.

America's Greatest Weekly THE TOLEDO BLADE TOLEDO, OHIO

The Best known Newspaper in the United States
CIRCULATION 200,000
Popular in Every State.

In many respects the Toledo Blade is the most remarkable weekly newspaper published in the United States. It is the only newspaper especially edited for National circulation. It has had the largest circulation for more years than any newspaper printed in America. Furthermore, it is the cheapest newspaper in the world, as will be explained to any person who will write us for terms. The News of the World so arranged that busy people can more easily comprehend, than by reading cumbersome columns of dailies. All current topics made plain in each issue by special editorial matter written from inception down to date. The only paper published especially for people who do not read daily newspaper, and yet thirst for plain facts. That this kind of a newspaper is popular, is proven from the fact that the Weekly Blade now has over 200,000 yearly subscribers, and is circulated in all parts of the United States. In addition to the news, the Blade publishes short and serial stories, and many departments of matter suited to every member of the family. Only one dollar a year. Write for free specimen copy.

LAKE COUNTY ABSTRACT CO. INCORPORATED

A Complete Record

We have made an entire transcript of all Records in Lake County, which, in any way, affect Real Property in the county.

We have a complete Record of every Mortgage and transfer ever made in Lake County, and every Deed given.

ERRORS FOUND.

In transcribing the records we have found numerous mortgages recorded in the Deed record, and not indexed; and many deeds are recorded in the Mortgage record and other books. Hundreds of mortgages and deeds are not indexed at all, and are most difficult to trace up from the records.

We have notations of all these Errors:

Others cannot find them. We have spent hundreds of dollars hunting up these errors, and we can guarantee our work.
