In this homestead there are 88 acres of level, valley land, 30 acres of which is number one sage brush land, the rest being grass land. This claim is within 4 miles of Lakeview, and comes under the irrigating ditch of the Oregon Valley Land Co., as it is adjoined on two sides by their lands. There is a good frame house on the claim size 182x222 feet, well built and finished except on inside, there is 1000 feet more than enough lumber on the ground to

finish the house. The 30 acres of sage land here is actually worth more than the price asked for this relinquishment, without any improvements, and we will assure you that you will never secure as good a bargain in the way of a homestead again. On account of ill health the owner wishes to dispose of this claim, and must do so before May 1st. If you are interested in this relinquishment, get busy, for we are going to dispose of this on or before the above said date.

It must be a hard thing for them to break the ties of half a century or more and come out here to begin life all over in what is practically a new country. If they do it for the sake of their children, and bring them out here for their activity, well and good, because for the young and the energetic there is ample field, and a good one, in the East and West.
