Smiles and Squalls

By "THE VERDANT ONE"

A Portland wife got one of the latest creations in hats. She and her husband started for a walk when he noticed her head gear. "That looks like a hat," remarked the husband, when they started out for a stroll Sunday afternoon.

"If you don't like it, you can go to it," was the wife's reply. Whereupon he grabbed it and tore it into shreds. She called the police, and an unfeeling judge fined him \$20 for not being willing to have his wife look like the ----.

Some one says "Don't misjudge the man who wears a frayed overcoat." No, indeed! It might prove to be Harriman or Jim Hill.

A good story is told of Jim Hill. He was standing on Nicollet Ave., Minneapolis, one day wearing a frayed overcoat, and long hair hanging down his neck. A pompous man drove up, and not knowing the railroad king, exclaimed: "Here my man, hold my horse for a moment." Jim acquiesced, and when the man came out, he thought he would dislodge his identity. But the breezy individual tossed him a quarter and said: "Now, go and get your hair cut." Mr. Hill was so astonished that he did as he was bid, and hiked to the nearest barber shop and got his hair and beard trimmed. When he got to the general office of the Great Northern, in St. Paul, the office boys were not inclined to let him into his own private office, because of his changed appearance.

The woman or the man who invented the prevailing styles of headgear, for women, could not have imagined anything more hideous—and the women look like the d—l in them! Mark our prediction. The records of matrimonial alliances for 1909 will show a big reduction!

An Alabama man tried to eat a stick of dynamite the other day. He might have succeeded if his head had stayed together long enough.

A nurse says kissing babies is a crime. Sure! Wait till they get to be 16 or thereabouts!

It is now asserted that the ladies of Paris absolutely refuse to wear the new millinery creations. We admire them for their grit. And, just think! Our wife had taken the baby's bath tub and put some cabbage and other flowers on it, and made just the loveliest bunnet.

Kills to Stop the Plend

The worst foe for 12 years of John E. Eyer, of Gladwin, Mich., was a running ulcer. He paid doctors over \$4000 without benefit. Then Bucklen's Arnica Salve killed the ulcer and cured him. WOMAN AND FASHION

New Five Hundred Button Dress.

Decidedly the most radical creation of fashion was exhibited by Miss Elizabeth A. C. White at the opening of the dressmakers' convention at Masonic temple, New York. It was a Parisian gown of ecclesiastical design having 500 buttons. In fact, there was such a buttony effect on all the exhibits that when several inquisitive men wandered into the exhibition and be-

held their wives take a fancy to the gowns with the many hundred buttons they fled in dismay.

This style of gown is said to have met with success in Paris. If it becomes popular in this country it will serve to relegate Colonel Hooker to the background, for even with the most nimble fingers and with the aid of a button hook it takes over an hour to button the dress.

The buttons begin at the neck and wander up and down, finally ending with a flourish at the end of the train. The particular gown with 500 buttons was made of Salome silk.

The Question of Collars.

There has been so much talk about the elimination of the turnover linen collar that girls are interested to know just how the matter stands. The shops say they have sold as many this season as ever before, but the wide preference is given to the transparent collar. The stiff mannish one, no matter how handsome, has been relegated to second place.

Irish lace, real or imitation, and point de venise, which is a flit lace, are both used and give quite a smart touch to any kind of blouse.

The stock of the material is in high fashion and gives a dressier look to a blouse than a color does.

In the cause of cleanliness it should be detached that it may be sent to the wash after a day's wearing.

If a girl adopts the fashion of stocks rather than collars she should make two at least for each blouse.

The Ultra New Hat.

In the millinery openings the hat shown in the sketch has a dominant place. That it is ugly no one doubts. That it is fashionable every one accepts. This one is of ecrú straw, rather loosely plaited and open. It is lined with pink silk, as it is quite the fashion.

UGLY, BUT SMART.

tion to put a colored lining in a straw hat of open weave. There is a wreath of wide open pink roses at the base with very little foliage between them. At the left front is a scanty black egret caught under one of the roses. This hat is worn without a veil and has a false crown which goes straight across the hat with a slight opening in the center.

Wider Skirts in Vogue.

Skirts all show a tendency to widen, this effect being obtained either by panels of narrow plaits running to the waist in front or back or in godet folds set in at intervals around the bottom. In one model these folds, which are formed of a pointed piece of material with bias edges, are repeated at the bottom of the long redingote, each fold being braided in heavy soutache in a wide conventional pattern.

Eat What

You want of the food you need
Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it.

Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength.

You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly.

When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.

Our Guarantee

Go to your druggist today, and purchase a dollar bottle, and if you can honestly say, that you did not receive any benefits from it, after using the entire bottle, the druggist will refund your money to you without question or delay.

We will pay the druggist the price of the bottle purchased by you. This offer applies to the large bottle only and to but one in a family.

We could not afford to make such an offer, unless we positively knew what Kodol will do for you. It would bankrupt us.

The dollar bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

LAKE COUNTY ABSTRACT CO.

Incorporated

A Complete Record

We have made an entire transcript of all Records in Lake County, which, in any way, affect Real Property in the county.

We have a complete Record of every Mortgage and transfer ever made in Lake County, and every Deed given.

Errors Found in Titles

In transcribing the records we have found numerous mortgages recorded in the Deed record and not indexed; and many deeds are recorded in the Mortgage record and other books. Hundreds of mortgages and deeds are not indexed at all, and are most difficult to trace up from the records.

We have notations of all these Errors:

Others cannot find them. We have spent hundreds of dollars hunting up these errors, and we can guarantee our work.
