SCHOOL LAND ASSIGNMENTS

We have for sale 320 acres of land, in Klamath County, 30 miles west of Lakeview, the most part of which is mountain meadow land, with some pine timber on it. There is a creek flowing through this tract but is not used for irrigation, as this land does not require irrigation, there being sufficient sub-irrigation to produce a good growth of grass. This is an excellent property or a dairyman, or is first class pasture land. Price \$25.00 per acre, \$1250. cash, balance as per state terms on school land.

We also have another school land

assignment for 320 acres, located in the Warner valley, and is bench land, but excellent pasture land.

This tract is lower in elevation than Lakeview, but there is no water here for irrigation, and the same would have to be used either as pasture land or for dry land crops. The price of \$4. per acre will justify you in buying this for a speculation. Half cash will handle the above property, the balance as per state terms. Further particulars regarding either of the above properties will be furnished upon application to.

On account of Court being in session F. T. Gunther says it is impossible to have the clock fixed as soon as expected, but it will be in perfect operation by the first of next week. The hours strike all right now, and the quarter and half hours, and the chimes will be in working order the first of the week. In view of the fact that heretofore every one kept his own time to the confusion of every one else, it will be the proper thing now to have all time uniform with the town clock.

Orrie Bennett, ate of Illinois, who has been teaching the Union school on the West Side closed his work there Friday. The directors state that he gave the very best of satisfaction both with regard to instruction and discipline. Four pupils took the 8th grade examination and will pass. About 25 pupils were enrolled. The directors desired him to retain the school at a large increase in salary, but he has not as yet signed a contract as he desires if possible to secure a school of higher grade. Such a competent teacher should, it strikes us, be retained in the county.

Regular correspondence.

Ab, Gee! Fishing's fine in Deer Creek--nothing to it.

Adel base ball team shut out the Indians last Sunday in a well played game of ball.

The Adel school closes Friday after a most successful term. Mr. Willis deserves a great deal of credit. Every student that took the eighth grade examination made his credits, and

all the students that continued school cannot but help feel the good results. He has done most excellent work here and we hope to have him with us in the coming winter.

J. J. Riley was a visitor in our valley Wednesday.

Dr. Morrow and wife are here looking for a location and may locate in Warner. The Dr. is the nephew of J. W. Morrow.

BASE BALL

The Alturas and Lakeview base ball teams were scheduled to cross bats on the Lakeview diamond last Sunday, but at the last moment it suddenly occurred to the management of our neighboring nine that as far as a fair, clean base ball contest was concerned, the odds were greatly against them. Consequently nothing short of a little cash on the side, win or lose, would allure them into a game with our boys. To this end they demanded that Lakeview guarantee them the exorbitant sum of \$200 on the specious plea of "paying expenses." Our manager was willing to listen to any proposition within reason but rightly refused to even consider any such terms as those offered by our dauntless opponents of Alturas. The Lakeview ball nine will meet any of the neighboring clubs in a fair, dry, upright contest, but does not propose yielding to terms that will bankrupt the club and make it an object of ridicule to those abroad as well as our home people.

F. T. Gunther says that notwithstanding the fact that he is employed most of his time on the town clock, he is still able to take care of the business entrusted to his care by working nights.

TO THE PINE CREEK LADIES
