MINES AND MINING

E. H. Loftus, of Goldberg, has been up to Paisley and Summer Lake, selling stock in the Butte and Junco mines. He reports great interest up there in Lake county mines, much more so in fact than in Lakeview. In view of the fact that the development of these properties, with the splendid showings now made, he thinks that the people of this town should lend a hand in bringing forward to success a proposition that means so much for the future of Lake County. The men engaged in mining have been liberal in their relations with the business public of this town, and the former only consider it fair return that they should encourage them in the work of up-building the mining industry.

Prineville Review 10: Earl N. Young, a mining expert in the For-

est Service, is in Prineville this week looking up matters in regard to mining claims in the Des Chutes reserve. He has gone to Howard to inspect the Oregon Mayflower and properties which are in the reserve. Mr. Young is making his headquarters at Grants Pass at present.

A decision rendered the 13th inst. in California courts, in the case of the Mountain Sheep Mining Claim in the Hoag district was made in favor of McCleary & Schaner, of New Pine Creek. The Examiner has no further particulars.

Rieber, Calif., Gazette, 10: It is learned that the Golden Eagle mine at Hayden hill has now a force of a hundred men a work, and this number will be increased to probably a hundred and fifty next month.

NATIONAL FOREST MEN ARE ACTIVE

Superior Ingram is making an extensive survey of the National Forest boundary and expects to return to Lakeview about July 20.

The Forest Service is constructing a telephone line from the Oregon Valley Road Camp to Dog Lake.

Ranger Sherman A. Brown has been transferred as Deputy Forest Supervisor from the Fremont to Wallowa National Forest where he will report for duty July 1.

Gard Grob is now in charge of the Oregon Valley timber sale work for Uncle Sam.

Ranger Musgrave has charge of grazing matters in Districts 1, 2 and 3, and as a result is very busy.

The forest hunter Wm. H. Hammersley is doing excellent work, having killed something over two hundred coyotes since March 1.

PORTLAND NOT AT KLAMATH

San Francisco and Sacramento both ran special trains to Klamath Falls on Railroad Day, but Poor Old Portland, with the moss on its back so thick you could not scrape it off with a steam shovel, kept away such stinky treatment does not make friends. It also leads one to the opinion, already in the air, that Eastern Oregon better secede from the Portland bunch and go it alone, with a new state. We've got resources enough, territory enough, and vim enough to make a great and progressive commonwealth. Push this idea along, brethren of the press of Eastern Oregon.

What Rev. Clifton E. Gray says of Boston is true of other cities: "The worst foe of civic virtue is not the Devil, but indifferent respectability."

OREGON AHEAD OF CALIFORNIA

For the first time in history the influx of home-seekers to Oregon exceeds those going to California. People are beginning to find out that there are better opportunities in Oregon than to be found in the much-boomed Gold State and each newcomer sends the glad tidings back to eastern friends and relatives. The tide has only just started, and promises to eclipse anything in the history of rushes, for Oregon delivers the goods!

Even poor old Spain, the last European nation to adopt reforms, has a parcel post and postal savings bank. The trust ridden United States, owing to "Me Too" Platt, and other express robbers, has not been able to get measures through congress for establishing such necessities for the people. And, poor fools that we mortals be, there are men in almost every community who unthinkingly decry anything that smacks of public ownership.

If the republicans, in spite of all warning and all protest, revise the tariff with an upward thrust, it will be a good thing to get your bets ready on that country newspaper man, Gov. Johnson, of Minnesota. In that event he will be a sure presidential winner. Just mark this prediction down in your little book!
