HAWLEY WRITES SECRETARY WILSON
But Fishing, Hunting, and Oregon Apples Look Good to Wilson

Congressman Hawley is developing into an epistolary. His favorite target for bombardment seems to be Secretary Wilson. First letter called for removing the agricultural land from the National Forests, to which the secretary replied that he was coming out this fall to see about that himself. But he did not say anything about that being a good time to hunt and fish.

Very good!
Then Hawley went at him again, and wanted a man to instruct the orchardists and gardeners how to prepare and market their products. But in that case the secretary was too busy, but will do something in that line next year. Evidently he intends to wait until he can sink his teeth in some of the wonderful fruit grown in Oregon, and perhaps will then consider that no information that the Interior Department could impart will be of value to fruit growers of Oregon.

Well, may be this is good, too?
Born in Iowa
Our family were all born and raised in Iowa, and have used Chamberlain's Colic, Cholera and Diarrhoea remedy (made at Des Moines) for years. We know how good it is from experience in the use of it. In fact when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Naricoossee, Fla., and have introduced the remedy there. It has proved very successful and is constantly growing in favor.—Eunice Bros. This remedy is for sale by Daly & Hall.

Investigation into the Cause of Sheep Poisoning in Lake County

Gilbert D. Brown, acting supervisor for Fremont National Forest, headquarters at Lakeview, addressed the following letter May 31 to Prof. Pernott, Corvallis in regard to sheep poisoning in this county:

On April 30, the stomachs of two sheep were forwarded to you for diagnosis. Sheep are still dying in the same manner, but all concerned have so far been unable to determine the cause.

I have not as yet been able to obtain any information that would assist in determining the cause of death. They first get stiff, lose control of their legs and die in 18 or 20 hours.

Mr. Brown received the following in reply from C. E. Bradley, of the Oregon State Experiment Station under date of May 13, which will be of interest to the sheep men of this section:

Professor Pernott has asked me to write you further concerning the sheep poisoning question. As he explained in his letter to you, we found nothing on examining the stomachs which you inclosed, that would give a clue to the poisoning, as the only abnormal condition noted was a blackening of the inner coating of the stomach, which probably was a post mortem condition. From your description of the manner in which the sheep died it seems very probable it must be a poisonous weed which is the cause of the trouble, and the weeds or plants obtainable at this time of the year on the range that are known to be poisonous are lark-

spur, lupine, and the con- siderable amount of alfalfa that is fed to the sheep. The symptoms of the trouble, great difficulty in breathing, and the animal usually dying in a short time in spasms. The antitoxin worked out by Chestnut and Wilcox is a one per cent solution of potassium permanganate of potash mixed with a one per cent solution of aluminum sulfate given to the sheep in the early stages of the poisoning. These compounds are now furnished in capsules ready for use, I understand. In cases where the sheep is in the last stages of the poisoning a hypodermic injection of a one fourth or one third grain of atropine sulfate, which is a powerful heart stimulant, has been used successfully. A dash of ammonia in the nostrils has also been used in the last stages of the poisoning.

An examination of the range where the sheep are known to have been poisoned will determine whether the plants are obtainable there or not, and a close observation of the sheep in feeding would also confirm the matter as to whether either of these plants have been the source of the difficulty. If we can assist in any way further in this matter I trust you will feel free to call upon us.

SCENES IN TOWNS WHERE ROOSEVELT HUNT STARTS.

On his arrival at Mombasa Mr. Roosevelt expects to find his camp outfit which he ordered in London awaiting him, and there he also hopes to part with the corps of newspaper reporters that accompanied him from this country. From Mombasa he goes up the Uganda railway 327 miles to Nairobi, from whence he will plunge into the jungle. Nairobi will be the base of the hunting campaign for six months, which is the extent of the dry season in that part of Africa.

A Thrilling Rescue

How Bert R. Lean, of Cheney, Wash., was saved from a frightful death is a story to thrill the world. "A hard cold," he writes, "brought on a desperate lung trouble" that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever. For Lung Trouble, Bronchitis, Coughs and Colds, Asthma, Croup and Whooping Cough, its supreme. \$50c and \$1.00. Trial bottle free. Guaranteed by A. L. Thornton.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia. Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol. When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it. Ordinary peptic "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do. Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C. Our Guarantee Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle. Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

LAKE COUNTY ABSTRACT CO.
Incorporated
A Complete Record
We have made an entire transcript of all Records in Lake County, which, in any way, affect Real Property in the county.
We have a complete Record of every Mortgage and transfer ever made in Lake County, and every Deed given.
Errors Found in Titles
In transcribing the records we have found numerous mortgages recorded in the Deed record, and not indexed; and many deeds are recorded in the Mortgage record and other books. Hundreds of mortgages and deeds are not indexed at all, and are most difficult to trace up from the records.
We have notations of all these Errors:
Others cannot find them. We have put hundreds of dollars hunting up these errors, and we can guarantee our work.
