A New York man had his wife arrested because she had an allowance of \$7.10 a week and only gave him two meals a day. The judge ordered her to give him 50¢ of beef and cabbage or some other satisfactory food three times a day. He says he did not like his new food.

**Irrigation Project**

The Cedarville, Calif., record of the 23rd ult. has this to say of an enterprise irrigation in Northwestern Nevada: A. E. Murphy, who is interested in the Massacre Lake reservoir and irrigation enterprise, arrived here Monday and leaves to day for Massacre. He informs us that they would put a force of ten men and some teams to work making ditches at once, and as soon as a few minor preliminaries are adjusted active operations will commence out there with a large force of men, and the reservoir completed as soon as possible. This irrigation project will be the means of placing under cultivation a large area of land that has heretofore been cult for a stock range and has been considered practically worthless for agricultural purposes, and it is safe to predict that within a few years that valley will be dotted with many comfortable homes, and in time may be a competitor with Surprise for beauty and productiveness. Mr. Murphy has been in the east during the winter and says that a large number of people there will come west this summer looking for homes, and it is probable that a good many will locate in Nevada and northern California.

**The New Model Marlin**  
No. 24

**Repeating Shotgun**

This new 6-shot model is the simplest, surest, and fastest 12-gauge repeater made. It has the solid top-side ejection and double extractors—special Marlin features of comfort and convenience. The closed-in breech keeps the action clean and the shells dry—keeps out rain, snow, dirt, leaves twigs and sand.

The new take-down construction allows you to take gun apart in ten seconds for cleaning or packing, yet the joint is always as firm and rigid as in a solid frame, no take-down gun. The fat forearm fits your hand and helps quick operation.

The full choked guns are guaranteed close-shooting, hard-hitting guns, and are unequalled for ducks, geese, foxes and all long-range work.

A circular giving large illustration, with full description of this handsome new gun, sent free on request or with complete 136-page catalog for 3 stamps.
