Carnation Wheat Flakes
will be Sold at the Regular
Price. 5 LARGE PACKAGES \$2.25**
is the lowest price that was ever
quoted for that. Breakfast food.
If you fail to take advantage of
this special offering this week you
will never be able to buy it for
less than fifty cents a package,
and that is just 16 per cent less
than our competitors charge
you for the same size package.

Only Cash Trade solicited.

CITY AND COUNTY BRIEFS

W. B. Rouston, of Adel, was in town last Friday. The gentleman recently sold out his sheep interests, as he considers from now on that the range will become more and more limited. He is seriously considering the question of going into Mexico or Argentina to engage in the stock business. Others here who have been engaged in the same line, are also considering the question of going to Mexico to start anew.

The N. C. O. has arranged for carrying 150 passengers per day to the O. V. L. Co. opening, and more if necessary.

Earl Huddle, of New Pine Creek, has built a 25-foot gasoline launch, with a capacity of 20 passengers. It has a six-horse power gasoline engine and will make seven miles an hour. It is named the "Iola." The boat has been and can be, chartered for excursion parties.

We have a large assortment of door locks, door bells, hinges etc. B. & M. That there is urgent need for more fruit and vegetables is the daily experience of housewives of Lakeview. The southern end of town gets all the fruit brought to town by the only source of supply at present, while those living north and south of the main street get none.

The Alturas New Era has this to say of one of Goose Lake Valley's most successful orchardists: Thos. Briles was here last Friday with a lot of cherries and berries. The cherries were the best, largest and nicest we have ever seen here.

A new assortment of Cluett Peabody shirts at B. & M.'s.

Another sizzard has been on the past few days. While it has not reached the former 100 mark, yet it was around the 90's, and more sultry than is usual here. The nights, however, are always cool.

The Court House grounds are being fitted, ready for seeding the lawn.

The County Court has bought many iron settees, which are to be placed beneath the trees, just room enough for Pete and Louise, who while taking there ease, can indulge in a sly squeeze, provided Pete is good as a tease, and—now wouldn't that make

you squeeze! These cosy seats, too, are built just for two. Don't we wish we were young? We do, yes, indeed we do!

J. B. Auten is building a pretentious home on Watson's addition.

Two Klamath electricians attempted to take in the beauties of Crater Lake on Motor cycles. They broke down, compelling the gentlemen to walk many miles, which was transposed into a Marathon race when they encountered a big cinnamon bear.

Sheepmen! fresh burned lime at Bahn & Kelley's, north Lakeview.

L. A. Stephens, of the West Side, brought the Examiner samples of grain, turnips, cabbage, broomgrass and clover, all raised on dry land, of which we will make further mention later.

The Examiner has been warned that the Heathen Chinese are splitting \$10 and \$20 gold pieces, scoping out the inside, and welding the halves together with a base metal. It doesn't make any difference to us, as we never get so much money, but our bankers and business men better investigate their big coins, as there is said to be lots of this depleted money in circulation.

A meeting of the Gun Club will be held in the Forestry office, at 8 p. m. Aug. 12th. All requested to be present.

The Evening Herald, of Klamath Falls, is now printed on a new Cottrell stop cylinder press of large capacity. The Examiner is glad to note this evidence of prosperity on the part of its enterprising neighbor.

The Hail Construction Co. are putting up an office building near the Mills rooming house, on Bear St.

All having rooms for rent should list them with the Board of Trade.

The Arcadia Theatre continues to give its patrons all possible attractions. Sunday night Mr. Brown and Miss Lincoln sang a duet that brought down the house. Miss Lincoln has a fund of sketches, songs, readings and monologues that appear to be inexhaustible. This week the management in addition to the Band, Mr. Brown and Miss Lincoln, also

have Natlano, who is very clever as a contortionist and chair-balancer. A small stage has been put in the hall which gives the audience a better view of the performers.

A young eagle, said to be only six weeks old can be seen at the rear of Easter's Jewelry store. It is owned by Geo. Wherton. The bird is now as large as a large turkey, and promises to become a big fellow when she attains full growth.

A representative of the American Bible Society is in town, engaged in selling bibles. It is stated that if any are too poor to buy a Bible that they will be furnished one free of charge.

Cedarville, Calif., Record: Chas. Streigl brought a load of cherries down from his ranch last Monday that would make the lower country cherries blush with shame. They were magnificent.

D. C. Williams and family, of Santa Barbara, Calif., passed through town Friday morning with a big White Steamer. Mr. Williams was much surprised to see so large a town up here, so far away from everybody. The gentleman is much pleased with his steamer, and says that with a run of 22,000 miles so far, his bill for repairs is only a little over \$200, and that no car of any other make can produce such a record.

Mrs. Gilbert D. Brown returned last week from her visit to Portland and other points.

N. P. Jensen and wife were up from New Pine Creek last week. Mr. Jensen reports he is now getting things in shape for winter. He has an extra water wheel, and other extras on hand, so that he does not expect to be put out of commission so far as electric lights and power are concerned the coming winter.

Mrs. A. L. Thornton and children left Sunday for McMinnville for a visit of a few weeks with her parents.

A salesyard for nursery stock and plants is the latest, and will be started by J. W. Schweinfurth, with a stock that is proven best suited for this vicinity. Parties can then see what they are buying. In addition orders will be taken now for shipments next spring.

C. E. Oliver has been on an assessing trip over in Warner valley. He reports the fruit trees of all kinds loaded at both Adel and Plush, an evidence of what the future holds in store for that valley. The number of trees in bearing is limited, but the quality and quantity of the fruit is second to none. The peaches and peaches are especially fine.

T. J. Powell went to Alturas Tuesday on business and returned Wednesday.

Six years ago T. B. Goodpasture, of Medford, purchased 80 acres of land near Central Point for \$3000. Thursday he sold one-half of it, or 40 acres, for an even \$10,000. It is probably something better than good pasture.

Try Wendt for fine photos.

**J. B. AUTEN
HARDWARE CO.
Sells**

Steel ranges and cook stoves. We carry the only steel range manufactured in Oregon. By importing the steel used for these stoves from foreign countries as ballast in ships, we save all the high railroad freight from the east. By this we can save you from 20 per cent to 30 per cent on each stove you buy of us. Remember these ranges are fully guaranteed for 10 years.

Just received a large shipment of Meekin Iron Stone China Dishes. We have them in plain and decorated sets. These dishes are guaranteed not to craze or turn yellow. No matter how long you use them. Call and examine them. "Dollars saved are dollars earned," we save you both.

Race Meet In Reno

The Nevada Jockey Club are to hold a fifteen or twenty day race meeting to open on August 17th. This meeting will unquestionably be one of the grandest affairs of this kind that has ever taken place in the state.

Liberal purses will be offered for all classes of racing, and, nothing will be left undone that will go to make the meeting a first class event in every particular.

Nearly all of the noted horses that participated in the Salt Lake meeting and that are taking part in the very successful meeting now in session at Butte City, Mont., will also be in full attendance at our meeting here.

We are looking for at least from fifteen to twenty carloads of these horses referred to. We will also have a good representation of horses from California points, all of which facts goes toward creating widespread interest.

Everything will be right up to date and the affair will be conducted upon lines that will make it square and honest.

We hope to obtain a goodly attendance from Lakeview and surrounding country.

The N. C. O. Ry has been asked to place on sale at their connecting points special round trip tickets to Reno and return.

For further information apply to W. D. Phillips, secretary

What Was Needed.

Since the announcement made in The Examiner last week that Mr. C. O. Miesner would solve the problem confronting the contract holders of the O. V. L. Co. in the approaching distribution of the lands of the Military Road Grant, all those now here expressed to me as decidedly in favor of the plan, and say it is just the solution of what has disturbed them or some time, with the result that they have placed their affairs in Mr. Miesner's hands. In view of this fact, Mr. Miesner has inserted an ad in this issue, and will be prepared to serve all who wish the best possible service, gained from years of endeavor in every branch of the real estate business.

The attention of our readers is asked to the advertisement in the Portland Business College appearing in this issue of the Examiner. The advantages of the school mentioned are set forth in forceful, straightforward, and convincing expressions. The motto or the slogan in the line following the ornamental script heading is full of meaning. "The school of quality" should be both inspiring and encouraging to young people who desire to prepare themselves for commercial careers. Anyone interested in a practical education will do well to send for a catalog of the school mentioned. It is a beautiful specimen of the printer's art, and contains full information about the several courses of study, besides a number of specimens of penmanship, samples of business forms, etc. It may be had for the asking.

APPLE SHOW TO BE IN SPOKANE

The Success of Last Year to Be Impooved Upon This Fall

The Second exhibition of the National Apple Show will open at Spokane, Washington Nov. 15th, and will continue for six days.

The premiums, valued at \$25,000, are arranged to cover the greatest possible variety of exhibits, from carload lot displays down to a single plate of five apples, as it is the desire to encourage exhibitors in every class. The National Apple Show seeks to establish a standard for commercial apples and to arouse interest in all sections in this kind of fruit.

For all commercial contests they have adopted the scoring rules of the American Pomological Society. These are considered the broadest and fairest published. It is the desire to encourage quality rather than size and show fruit against fruit and package against package.

It might be well for some of our Lake County and Goose Lake orchardists, if possible so to do, to display their apples at this fair. It would give us advertising of a desirable nature, in no other way obtainable.

OVERDONE.

TROPICAL FOSSILS FOUND AT DENIO

Evidence Showing That Country was Once Different

The Cedarville Record says: A. J. Handle, Miss Alexander and Miss Kellogg arrived here last Saturday from Nevada, on their way to their home in Berkeley. They are connected with the California State University at Berkeley, and for the past two months have been studying the flora and fauna conditions of the country in the vicinity of Virgin Valley and Denio's. They said that they found many interesting things out that way and that in all probability a party would return next summer for further explorations. While there they found bones of prehistoric animals, the mastodon, rhinoceros and camel, the latter being very numerous. From what they discovered, all indications point to the fact that in ages gone by this country was semi-tropic in climatic conditions, and a large portion of this country was probably at one time a vast inland sea. They brought in a large quantity of specimens that will be taken to the University for examination, and it is probable that this part of the country will become an interesting field of natural history in the next few years.

Portland at last is getting alive to the fact that there is such a place on the Oregon map as Lakeview. For instance this week there was C. H. Willson, who discovered this town. Then along in the rear came J. A. Viering, G. M. Jory, R. C. Van Dorn, P. P. Peterson, J. M. Mansfield, Louis K. Ginderlin, Gus A. Lowgren and Paul C. Bates, all from the town on the Willamette.

BANK NOTICE

By mutual agreement the Banks of Lakeview hereafter will close their doors at 3 P. M. each day.
F. M. MILLER,
S. O. CRESSLEY.

City Bakery and Cafe

D. M. Schaffer will open up with a full line of baker goods about August 5th. Special attention will be given to roasting duck, geese and other game.

SCHOOL LAND ASSIGNMENTS

We have, in this district where we are locating, several hundred acres of good level, valley land that is subject to entry under the "Enlarged Homestead Act," whereby anyone would acquire 320 acres as a homestead. The qualifications under this act are the same as under the old homestead law, about the only difference being the amount of land one may acquire being 320 acres instead of 160 acres and the required cultivation being one eighth of the land in the entire entry beginning with the second year and one fourth beginning with the third year, the same to be continuously cultivated until the proof is made. One is allowed to commute an entry under this act. Otherwise the law is about the same as the General Homestead Law.

Write us for particulars.
PACIFIC LAND COMPANY,
Offices, Pharmacy Lakeview Building,
LAKEVIEW, - - - OREGON.

FREE Homesteads and Desert Claims In the FAMOUS WARNER VALLEY.
