WHY ROOSEVELT IS DISLIKED

The venal rich have ample cause or disliking Theodore Roosevelt. That money grabber, J. P. Morgan, and E. H. Harrison, are particularly pronounced in their enmity against Mr. Roosevelt, who probably has done more than any other toward enlightening the public mind upon the real cause as to why the few absorb nation, while the many are subjected to a fierce struggle for a mere existence. Such men did not like his plain, blout exposure of their methods and naturally, in view of the fu ture, carnestly "hope that every lion in Africa will do its duty."

But, Mr. Roosevelt is a fighter, and no matter where the firing line is located he will always be found there the but tremendous word of NOW. with his best ammunition, ready for loves and who love him for the ene mies he has made in their interets. FOOLING THE PEOLLE

If you want evidence against the Aldrich, Payne and Cannin e-owd chinery and apparatus has been erect of high-way rebbery of the people u der the specious plea of protecting Amercian labor history will furnish it. Take, for instance the following:

"My Lords and Gentlemen :- To levy a direct tax of 7 per cent is a dangerous experiment in a free coun try and may incite revolt; but there is a method by which you can take the last rag from the back and the last bite from the months without causing a mormur against high taxes, and that is to tax a great many articles of daily use among the people and so indirectly that the people will psy them and not know it; their grumbling will then be of bard times but they will not know that the hard times are caused by taxation

Thus speke, William Pitt, British statesman, away back in 1770, and the same line of argument obtains with the present day and generaton.

The grand jury had our friend Blumeethal, the public administrator, of Tomopab, up for burying a live dead man and selling his effects

The Sun says he n ver sleet a wink all night previous to his ordeal, but does not any a wort as to how many "ainks" L. L. took to series his courage on to facing the sweating process. He had sold the property of the live dead man, and finding then the man not dead, bought it back at a loss of \$60; The live dead man claimed he was lengtly dead and would pay no cepts. But when L. L. said be would pay all the alleged dead there was a regular flood at the expence of Mr Blumenthal, and that means something when it occurs in

It now appears that Senator S. C. Beach, former editor of the Examiner, will not have clear sailing for anpointment as census supervisor, as he is very likely to be opposed by Senators Bourne and Chamberlain fle has the support of the Congressional delegation, but because of his active opposition to the Senators he will probably lose out, unless be secures his appointment during the congressional recess, something not likely if Senator Bourne is as close as allieged to President Taft. Mr. Reach had the support of the business

Representative Mann, republican, who has investigated the matter more than any other member of congress, declares that the duty on paper under the new tariff law will be an increase, and will amount to \$6.67, per ton, giving the paper truts a more absolute monopoly than ever, And the Examiner, by the same token, will pay 83 33 every month as its con-Oregon, for the County of Lake.
