In Building Up Our Schools We Preserve Unity of the Nation.

By President WILLIAM H. FAGNOE of Brown University.

There is one great desideratum of the modern school is to reach the pupil to do the hard and disagreeable things without whining. The trained intellect works for the big thing which is far away, the untrained for the little pay check at the end of the week.

WHOEVER ATTACKS THE PUBLIC SCHOOLS ATTACKS THE UNITY OF THE COUNTRY. THE SCHOOLS ARE THE BIGGEST ORGAN OF THE BODY POLITIC.

No interstate commerce commission can hold this country together in the next hundred years, no miles of railroads, no branch of the federal government, but IN THE PUBLIC SCHOOLS ALONE LIES THE HOPE OF OUR FUTURE UNITY.

Essentially the same text books are used in Providence, New Orleans and Little. THE SAME IDEAS ARE BEING POURED INTO THE CHILDREN'S BRAINS. They learn a common tradition, are reared in a common method, breathe a common atmosphere all through the plastic period of youth, and in building up the schools we are BUILDING UP THE UNITY OF THE NATION.

WHEN TENNYSON WROTE "CROSSING THE BAR" HE DID MORE FOR ENGLAND THAN BUILDING THE BEST HARBOR IN THE WORLD; WHEN MRS. BROWNING WROTE "THE CRY OF THE CHILDREN" SHE DID MORE FOR HER COUNTRY THAN BUILDING A THOUSAND ORPHAN ASYLUMS.

Application of High Explosives in Aerial Warfare.

By HUDSON MAXIM, Inventor.

FLYING MACHINES NEVER WILL BE ABLE TO WORK WIDE DESTRUCTION BY DROPPING EXPLOSIVES FROM THE AIR. Even large quantities of high explosives dropped from an aerial fleet upon battleships, coast fortifications and in the streets of large cities would not be widely destructive.

In order to do much damage dynamite REQUIRES CONFINING. Large high explosive bombs dropped into the smokestacks of war vessels or close beside them in the water might do some wicked work.

The great field for operations with high explosives carried in airships will be in the raiders' outfit. The coming aerial fleet NEED NOT BOTHER ABOUT COAST FORTIFICATIONS OR BATTLESHIPS. They cannot in the least bar the way to aerial invasion, and in war it is never policy to waste effort or ammunition on what does not stand in the way of entering the territory of the enemy.

THE TRUE WORK OF HIGH EXPLOSIVES IN AERIAL WARFARE LIES IN WORKING WIDE DESTRUCTION ON UNPROTECTED INLAND CITIES AND TOWNS, DESTROYING RAILROADS, BLOWING UP BRIDGES, ARSENALS, PUBLIC STORES, POWDER MAGAZINES AND POWDER MILLS, IN LEVYING RANSOM AND IN THE HARASSMENT OF THE OPPOSING POPULATION.

Woman Should Be Man's Equal in Business and Politics.

By Professor CHARLES ZIEGLER of the University of Chicago.

ECONOMIC and political activity between the sexes is absolutely necessary if we are to have a purer and saner life both in our families and as a race. Economic equality is the first step. Given that, political equality will soon follow.

MAKE WOMEN THE EQUALS OF MEN IN THE BUSINESS WORLD AND AS WAGE EARNERS AND THEY WILL NOT BE LONG IN ASSERTING THEIR EQUALITY IN THE FIELD OF GOVERNMENT.

This equality of sexes would have two great effects on family life: First.—It would PROMOTE SPIRITUALITY. We have not yet got away from the ancient ideas of courtship. We still think of the man as "winning" or "capturing" his bride. We still think of the marriage relation as, in a degree, ownership of the woman by the man. Equality would remove these ideas of inferiority and would PLACE THE MARRIAGE RELATION ON A HIGHER PLANE.

Second.—It would PROMOTE COMRADESHIP BETWEEN HUSBAND AND WIFE. The woman who is economically independent of her husband and is capable of self support will enjoy a degree of companionship and comradeship with her husband POSSIBLE ONLY AMONG EQUALS and not possible where a relation of dependence exists.

Sex inequality REACTS ON OUR CHILDREN. We are bringing them up to be boys and girls rather than human beings. The result is that neither sex gets an adequate, well rounded education.

Ragtime Music Has Had Its Day

By JOHN PHILIP SOUSA, Musician.

RAFTIME music has HAD ITS FUNERAL. It had the gout or dyspepsia long before it died. It was OVERFED BY POOR NURSES. Good ragtime came, and then half a million imitators sprang up, and as a result the people were sickened with their "stuff."

MONEY IN TRUCK FARMING.

Profit of \$19,000 in Seven Years in Iowa.

The most successful tractorists in agriculture have just been made by Francis Seator of Des Moines, Ia., a young man who has made \$19,000 profit of permanent improvements on a thirty-two acre farm in the last seven years and paid for it all from the product of the soil. It is a demonstration of what application will do.

Francis Seator is the son of a French immigrant who came to Des Moines in 1853 to work on the construction of the state capital. But contracting in an unsteady business and one day he determined to quit it. He bought a farm within sight of the golden dome of the statehouse and he helped to construct and struggled along for years paying off the mortgages and at the same time raising a family. Seven years ago he died, and his son, Francis, took the active management. It is he who has worked the miracle of the soil.

He has turned his farm into a truck garden, which is now said to be the finest truck farm west of the Mississippi river. The beauty of his success is that, unlike truck gardeners of the east, he does not have to spend great sums of money for fertilization. During all these years his fertilization has not cost him more than 50 cents an acre a year.

Among the permanent improvements built since 1903 and paid for from this small farm are an \$4,000 house under which is a modern cold storage; a steam pumping plant that draws water from the clear a half mile away and lifts it 145 feet into a monster reservoir and eight greenhouses.

Mr. Seator by his management is making his farm yield a gross income of \$300 or \$400 an acre. Like every successful man Mr. Seator has found some things better than others. The tractor seems to be his favorite thing. He introduced the method of raising tomatoes on poles and grows 1,000 times to the acre, getting a yield of 750 bushels of perfect fruit that brings the highest price on the market. He makes as much as \$2,500 on lettuce in a year. Such figures for a thirty-two acre farm in Iowa are sensational, to say the least, especially when they are made to come by the son of a French stockholder who knew nothing of agriculture and who never attended an agricultural college.

Wash For Nursery Stock.

Dipping nursery stock in lime sulphur wash or other insecticides has recently been much advocated as a substitute for fumigation with hydrocyanic acid gas. The station at Geneva, N. Y., finds, however, that this treatment, if used at all, must be handled with care to secure scale destruction without injuring the trees. With the sulphur wash, exposure of the trees for too long a time or at too high temperature resulted in injury, while with any of the materials used exposure of the roots to the mixture resulted in serious injury to the stock. For nurserymen the station still recommends fumigation as most effective and least liable to injury and would advise orchardists to use the lime sulphur as a spray after the trees are set rather than as a dip when they are received.

For Harvesting Fruit.

The season for harvesting fruit is some months off, but the suggestion here made will keep. The invention will make the gathering of apples, pears and peaches a far easier and quicker proposition than it has been heretofore. This invention is simple enough, but like many other simple expedients, it remained unthought of until recently. The contrivance used

MADE ON PRINCIPLE OF SCISSORS.

is of metal, made on the principle of a pair of scissors, except that where the point of the scissors would come there is on one side a disk and on the other a circular aperture opening into a long bag, which is attached to it. The handles of the harvester are hollow, so that they will fit over the pointed ends of poles, which may be of any length required. By means of this device a person standing on the ground can reach fruit in otherwise inaccessible places and by compressing the handles can snap the fruit from the limbs into the bag. In this way fruit can be plucked before it falls to the ground and becomes bruised.

Spray For Apple Trees.

One of the most successful apple growers of Ohio uses arsenate of lead in the bordeaux mixture to kill the different fungi, as well as to keep in check the codling moth, spraying at least four times after the bloom falls. His formula for bordeaux is three pounds sulphate of copper, five pounds of lime and fifty gallons of water.

PROFITS—SECURITY

Extraordinary Profits

Unquestionable Security

Invest in Prince Rupert through our Real Estate shares, selling at par \$10.00 per share. As a part of our plan for handling our rapidly growing business and to increase its capacity, we offer to a limited number the opportunity to share equally with us in the large profits certain to accrue. The money received by the Company through the sale of its shares is invested in choice Prince Rupert realty, under the direct supervision of the Board of Directors. The opportunity is extraordinary because of the profit sharing plan by which you may share in all the profits of the Company and its rapidly increasing business.

PRINCE RUPERT BUSINESS PROPERTY

will make fortunes for those who invest in it now, as did Portland, Seattle, Spokane and Vancouver real estate, for those who invested in these cities ten years ago.

TODAY PRINCE RUPERT IS THE CYNOSURE OF ALL EYES.

No other city on this continent is making such rapid advancement in population, commerce and building. Prince Rupert's present and future growth insures investors in our shares a combination of safety, high returns and increasing value, which is not offered in an equal degree by any other form of investment open to the public today. Invest your surplus funds with this Company and share in this great progress and prosperity. If you have \$50, \$100 or \$1000 which you would invest where it will provide a large income with the opportunity for great profits, then subscribe for some of these shares.

We refer, by permission, to the Bank of Nova Scotia, Vancouver.

Write or wire your order for shares today. Don't delay.

NOTICE FOR PUBLICATION.

Department of the Interior, United States Land Office, Lakeview Oregon, Aug. 14th 1909.

Notice is hereby given that the state of Oregon has filed in this office its application to select under the provisions of the Act of Congress of Aug. 14th 1882 and the acts supplemental and amendatory thereto, the NE quarter NW quarter, SE quarter NW quarter, Section 15, T. 28 N., R. 28 E., W. M.

Any and all persons claiming adversely the lands described, or desiring to object because of the general character of the same for any other reason, to the selection of the applicant, should file in the office of the Register of the State of Oregon, at Lakeview, Oregon, a written protest, in duplicate, before the 28th day of September, 1909. The foregoing notice will be published in the Lake County Examiner, a weekly newspaper printed at Lakeview, Oregon, for a period of not less than thirty days prior to the date last herein mentioned.

ARTHUR W. ORTON, Register

SUMMONS.

In the Circuit Court of the State of Oregon, for the County of Lake.

JOSEPH E. AMBROS, Plaintiff

vs.

ROSIE AMBROS, defendant.

To Rosie Ambrose the above named defendant: You are hereby required to appear and answer the complaint filed against you in the above entitled suit, on or before the 28th day of October, 1909, that being the date of the last publication of summons and the last day with which the defendant is required to answer as fixed by the order of publication of this summons, and if you fail to appear to and answer the plaintiff will apply to the court for the relief prayed for in the complaint.

The relief demanded in the complaint is for a decree dissolving the marriage contract and bonds of matrimony existing between plaintiff and defendant and for the custody of the minor children, Martin F. Ambrose and Thomas J. Ambrose. This summons is published in the Lake County Examiner, a weekly newspaper, printed and published at Lakeview, Oregon, by order of Hon. George Noland, judge of said Court, and dated the 4th day of September, 1909.

The first publication to be made on Thursday, the 9th day of September, 1909, and the last publication to be made on the 28th day of October, 1909. W. J. MOORE, Attorney for Plaintiff.
