Why Not a Representative at the Chicago Farm Congress

The following suggestion from a valued subscriber is a good one, and one that our local Board of Trade, and the similar organization at Paisley, would do well to act upon for the good of this entire section. A few boxes of the fine apples produced here this year in charge of such a capable man, as Mr. Miesner, an experienced land man, could not help attracting people seeking such new homes and opportunities as we have to offer.

San Francisco, Oct. 22d, 1909
Mr. Fred J. Bowman,
Lakeview Oregon.
Dear Sir:
You have, no doubt, read the newspaper comment on the National Farm Land Congress to be held in Chicago the week beginning November 10th. As one of your subscribers having some interests in Southern Oregon and Northwestern Nevada, I would suggest that Lake County, Oregon, in fact all of Eastern and Southern Oregon, should be represented there and the attention of prospective home seekers called to the fact that the very richest of Government Land still open for entry is within 20 miles of Lakeview.
I learn that Mr. C. O. Miesner, the land man, will leave for the east about November 1st and suggest that he would be a good man to represent

RAILROAD MEN ARE BUSY

The Hill and Harriman systems are evidently in earnest in their purpose to reach Central and Eastern Oregon, by the Des Chutes valley. Nearly 10,000 men are now at work, and more are sought for at big wages. Both railroads know the value of Eastern Washington for traffic, and realize that Eastern Oregon is a better field for their exploitation.

Smiles and Squalls

By "THE VERDANT ONE"

A white man eloped with an Indian bride, two hours after the ceremony at Big Pine, Calif. The Indian husband was hopping mad and was vigorously scouring the country for his wife. He said he had paid \$2 for the girl and could not afford to lose her. The white man probably "raised him 50 cents and won."

College statistics show that college girls make the best wives and mothers. But the Plebian census shows that the bigger percentage of college girls do not marry. They drift as a rule into a "sphere" and stay there.

Congressman Williamson, of this state wants to put a muzzle on the press. We think he is right. The press has made many a blockhead into a congressman, and they should be muzzled from doing such things in the future!

WALTER'S Second Addition

1st. Physically the soil is good. Will make good lawns and gardens. The land lies on a gradual slope, insuring drainage for all time to come.

2nd. This addition is in reality not an addition to the town, as it lays in the center of the most populous district, just three short (200-ft.) blocks from the principal business street and commercial center.

3rd. We believe it is the first and only tract that was subdivided in conformity with adjacent property, all streets and alleys join and have the same names.

4th. All lots blocks and streets are made to conform as nearly as possible to that of surrounding property. Lots 50 x 150, 60 ft. streets, 16 ft. alleys, 6 ft. sidewalks and 6 ft. parking.

5th. Every lot when sold will be subject to restrictions, both as to value and character of improvements. A 25 ft. building line is likewise stipulated. Building restrictions are value insurance to the buyer, it guarantees the status of your property and assures you the better class of neighbors.

6th. A liberal discount is given for cash, and most lenient monthly payments can be arranged. The prices range from \$300 to \$100 each according to location. We will gladly show you the property, and furnish plats.
