## Position of Our Navy Without Merchant Marine.

#### By Former Congressman CHARLES B. LANDIS of Indiana.

THE American merchant marine as at present constituted is a fiction.

THOSE AMERICANS WHO ARE INFORMED CON-SIDER OUR NAVY A BLUFF; OTHER NATIONS DO NOT REGARD IT SERIOUSLY. THEY KNOW THAT WITHOUT PRACTICALLY ANYTHING IN THE SHAPE minion Board of Railway Commis-OF ADEQUATE MERCHANT MARINE AS AUXILIARY IN TIME OF WAR ITS EFFECTIVENESS IS REDUCED TO A MINIMUM.

We have a SPLENDID LINE OF BATTLE-SHIPS, but there it ends. When our battleships made their cruise around the world every ton of woal for their boilers was CARRIED IN FOR-EIGN SHIPS.

Our navy at present is much like an automobile without gasoline, a department store without clerks, a rich farm without harvesters, plows or wagons.

Now we have virtually no merchant marine. To build one up a SHIP SUBSIDY IS NECESSARY. Every other big nation subsidizes her merchant marine.

### By GEORGE E. WALDO, Member of the Merchant Marine Commission.

We have a fine navy, but no means whereby it can be supported at any distance from shore in the event of war.

THE NEUTRALITY LAWS ALONE WOULD PREVENT OUR OB-TAINING COAL OR OTHER SUPPLIES IN FOREIGN BOTTOMS, AND. ASSUMING WE WERE ABLE TO GET OUR FLEET AROUND THE WORN AND INTO THE PALIFIC OCEAN, OF WHAT EARTHLY USE WOULD BE THESE COSTLY ENGINES OF WAR WITH NO BAJE OF SUPPLIES AND FACE TO FACE WITH A HOSTILE SQUADRON?

That constitutes an imperative reason why some effort should be made to RESTORE OUR MERCHANT MARINE whereby we may have at our command both ships and men.

## Chance for Capital

We have a solid block of seven sections, consisting of 4800 acres in SUNNY ALBERTA, that we will sell for \$16 per acre, which is a special buy, on the terms of \$6 per acre down, and the balance in one, two three or four years at only 6 per cent interest.

A large part of the land immediately adjoining this tract of land is under cultivation, and more will be broken up in the spring, by the settlers to whom we have sold adjoining sections.

One crop of winter wheat will pay for this land and give you a big surplus in the bank besides.

The yield is from 30 to 60 bushels, and and at 80 cents, the usual price secured, you can figure the return, less \$12 per acre, a big estimate for of production.

See us or write us soon, before this opportunity is lost, as these valuble lands are being rapidly taken by enterprising Americans.

Call, or write for circulars or further information.

WE ARE WEAK IN AUXILIARIES. NO DOUBT, BUT WE'VE THE FINEST NAVY IN THE WHOLE WORLD.

While all talk about our weak merchant marine is being noised about it shouldn't be forgotten that we have the FINEST COAST MERCHANT MARINE IN THE WORLD. But we need a foreign merchant marine as well.

## Let Us Make Prosperity A Benefit to All.

### By President TAFT.

VERYWHERE in this country there is evidence of prosperity, and if signs do not fail we are upon an ERA OF BUSINESS ENTERPRISE AND EXPANSION THAT HAS NEVER BEEN SEEN IN THIS COUNTRY BEFORE.

We must not forget that here are certain responsibilities. We have had EVILS GROWING OUT OF OUR PROSPERITY. Men have seized power by means of accumulation of wealth and its use in methods that are not legal and cannot be approved by way of monopoly and otherwise. Now we are attempting by the general law of the United States to suppress that kind of abuse.

It is to the people we must look for an enforcement of these principles. You should select your representatives and have them know you are watching them in congress and see that they follow the line of enforcement.

OF COURSE WE WANT PROSPERITY, BUT WE WISH PROS-PERITY IN SUCH A WAY THAT THERE SHALL BE AN EQUALITY OF OPPORTUNITY AMONG THE INDIVIDUALS SO THAT EVERY-BODY WILL GET HIS SHARE AND THAT IT SHALL NOT BE CON-FINED TO A FEW WHO MONOPOLIZE THE MEANS OF PRODUC-TION OR THE MEANS OF TRANSPORTATION AND THUS PRE-VENT THAT EQUALITY OF DISTRIBUTION WHICH WE ALL LIKE TO SEE.

It is a question of the ENFORCEMENT OF THE LAW.

photography M. A. Yetnick and Dr. L. M. Early of Columbus, Obio, discovered a way of making a new kind of photograbic printing paper. A deal was closed at South Bend, Ind., by which a camera company of Rochester, N. Y., will pay them \$1,500,000 for the secret.

The company could not duplicate the paper patented by the Columbus men. It promises to revolutionize the printing of photographs.

Before photography was applied to stars the highest number catalogued was 457,874. The number of the stars the camera will show is estimated at over 30,000,000.
