**Wish You a
Very Happy and
Most Prosperous
New Year.**

Very truly Yours,

Bailey & Massingill

COUNTY NEWS

PAISLEY AND SUMMER LAKE

Nothing happened at Salem on the 11th. The case against the Portland Irrigation company was postponed till January. The reason for this action is not known, but the present administration is not likely to take any steps toward declaring the contract of the company forfeited. It would be a reflection upon the board. At least there will be nothing done before the April primaries are held. The policy will be to hold both sides for the re-nomination of the present incumbents. Then if Governor Benson and Treasurer Steel are not re-nominated the plan will be to pass the question over to their successors. The enthusiasm of the protestants took quite a slump just before the time set for the hearing. Attorney Young did not go to Salem to present the petition in person. It required a hundred dollars to pay his expenses. All that could be raised among the signers of the petition was fifteen

dollars. There is a difference of opinion between signing a petition and putting up money. In the meantime the company's right to the appropriation of water in the Chewaucan is about to expire under the new water law. This right can be extended only by permission of the board of control, comprised of State Engineer Lewis and H. L. Holgate and F. M. Saxton, division superintendents. It is feared that the protestants will oppose a further extension of time and the appropriation of water. It is said that some of the settlers who need water for irrigation will themselves make application for a water right. They could do assessment work on their certificate by building a road up the river to the reservoir site. The company has an up bill road its estimates of cost placed the land in the reservoir site, 2,500 acres, at six dollars. But those who have talked to Jones and Dobkins say it can't be bought for less than twenty five or thirty dollars an acre. It is known that

ready to take hold of the enterprise as soon as the Portland Irrigation company finds that it can not finance the proposition on the present basis. There is a strong feeling that this end of the county is entitled to at least one member of the county court an effort will be made next year to elect a county judge from Silver Lake or Paisley. Among those mentioned are G. B. Wardwell, Dr. A. A. Witham, W. A. Currier, Wayman Withers and Frank L. Young. Miss Gwendolyn Corbet, one of the teachers in the Paisley school is spending the holidays at her home in Lakeview. Three buyers were down from the Deschutes last week looking for broke horses for work on the railroad. The demand for horses promises to be extensive for the next year or two. It is a bad sign when a young man gets so busy Saturday night helping with the Christmas tree that he forgets Sunday morning to bring out the mail. If it happens again his name will be published and perhaps Mr. Answorth will lose one of his clients. The publicity given the enterprise on a load of booze from Silver Lake and Paisley did not do much good. However, fifteen

gallon jugs came in by stage, so there was no suffering among the thirsty. The temperature soon went on being agitated over having a wide open town and through Prosecuting Attorney Vernator were getting ready to take the scalps of the deputy sheriff and constable. Hayes McCall, the constable beat them to it and resigned. Justice Farra has appointed Alvin Moss acting constable. One evening last week ten people stopped at W. A. Currier's to stay all night and still there was room for one more. The big crowd that was out to the masquerade demonstrates the fact that Paisley needs a new town hall. The week ended December 26th was the coldest of the winter thus far at Woodard Hot Springs. The low temperatures were 15, 10, 6, 2, 18, 25, 23. The high 24, 20, 20, 21, 32, 37, 32. Five men from the Oregon Valley Land company's ditch were hoofing it and packing their blankets, making for the railroad grade on the Deschutes. It is a walk of 300 miles and zero weather but they thought they could thus make wages.

Wayman Withers had an experience not long ago that he is not likely soon to forget. In fact he thought for a time that it was all day with him. He was riding after a cow down at the red house and his horse was too well shod to slip. But the animal fell on the ice. Mr. Withers managed to extricate his feet from the stirrups and saved himself from the weight of the horse. But the horse in settling up caught the horn of the saddle in the top of his chaps at the rear. There Mr. Withers was suspended head downward and the horse started to run. The rider at last managed to reach the rein and save himself. Bill Mac says this is summer weather compared to what they are having in the north end of the state. The recent cold snap fled the Chewaucan with a splash and caused the river to leave its bed. It began with snow that blew into the river on the 24th. The bridge the first of the week was spanning the river to the south was cutting a new channel through the town. Conley's, Blair's, Farley's and other houses had been flooded. A temporary foot bridge had been erected across the new stream. It is thought the ZN dyke is the cause of the river's flooding up. This one comes from Missouri where one editor "showed" them why. An evangelist asked all the men present who were honest and paid their debts to stand up. All arose but one. He said was the local editor and couldn't pay his debts because the men standing were his delinquent subscribers.

PRIZE MASQUERADE.

Friday Evening December 31st

New Year's Eve.

Music By
Rice - Price - Collis
'Nuf Sed.'

THE SKATING RINK.

Tickets \$1.50. Spectators 25c.

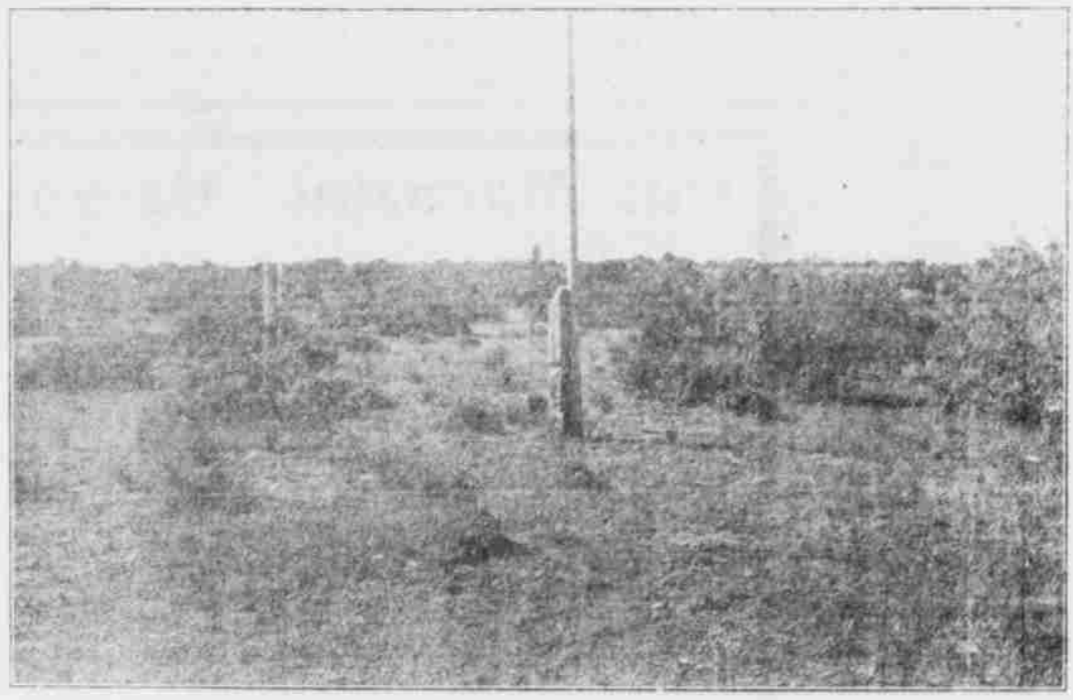

Making Moving Pictures Requires Big Capital

So many of the Pathe pictures films are shown at the Arcadia theatre and are enjoyed by so many theatregoers that a little information concerning the leading producers of the moving picture world will not be unwelcome to the thousands of amusement lovers who derive so much pleasure from the results of their artistic efforts. The Pathe Freres (Pathe Brothers) occupy ten acres of ground, operate four enormous factories and have a staff of over 3,000 employees. The plants are located in Paris, Joinville-le-pon, Montreuil-la-Noye, Vincennes, where they have dozens of photographic studios two complete theatres and thousands of dollars worth of costumes and scenic equipment. At the present time they take over 40,000 pictures a day, which means about 14,819 miles of negative film a year. The leading motion photography men of the world are in their employ; their pictures, comedies, tragedies, etc., are written by such leading French dramatists as Henri Lavedan, Jules Sandeau, Jules Lemaitre, all of the Academie Francaise; Jules Mary, Edmund Guereult, etc. They also make

most realistic pictures based on the novels of Victorine Sardou, Alexander Dumas, Victor Hugo, Alphonse Daudet, Honore de Balzac, and many other famous French authors, taking the pictures in many instances on the very spot where different scenes in the stories are laid. **Elizabeth Robins** the eminent English authoress, writes about the English Suffragettes. She tells why they resort to the violence that lands them in jail. Save a little of your indignation for the chapters of "The Beast and the Jungle" that are to come. Judge Lindsey hasn't really started to get to the heart of his story yet. **DECEMBER EVERYBODY'S**
