## Inventory Sale Is Now Going On:

As we wish to retain the confidence the public has in this store's advertisements, let us tell you again--and bear it well in mind--staple goods which we sell every day in the year, and which we are buying all the time WILL NOT BE REDUCED. The reductions are on Fall and Winter goods which we will not carry over. Our successful store finds it economy to take a loss on seasonable goods, rather than carry them over another season and run the risk of change of styles.

We are adding continually new lines to be sold off during this month. Perhaps you will find here just what you are in need of and gain the benefit of our present prices.  
Only Cash Trade Solicited.

### CITY AND COUNTY BRIEFS

V. L. Snelling, T. F. Flock and John Clark have gone out to Dog Lake on a fishing trip. V. L. took along his rifle to kill coyotes, cougars and other varmints so as to make expenses while gone. It might be possible to also take along an antidote for snake bites, but as to that informant said no.

The Bunting Telephone Co. of Lakeview declared a 40 per cent dividend last year. We do not know as it should mention the fact, as J. Bierr, may need that in his business.

We now have a few good county correspondents and would be glad to have one from every post office in the County.

The Ladies Aid of the M. E. Church, elected their officers for the ensuing year: President, Mrs. Mary Herford; Vice-President, Mrs. Dykeman; Secretary, Mrs. Cronmiller; Assistant Sec. Mrs. E. Woodcock; Treasurer, Mrs. Brown.

Alturas is to have a masked ball all of the dancers to be on roller skates. It probably will be a good idea to mask on such an occasion to conceal the faces, should outward accidents occur.

Sealers have put out one of the largest and handsomest calendars we ever saw. The picture is a copy of a famous painting, "The Squirrel," and will be greatly admired by lovers of nature.

N. Waldo Taylor has purchased "The Bon Ton" Confectionery store, and ice cream parlors.

The Bunting block is nearing completion. The lower floor will be occupied by Mrs. J. Charles Smith's millinery store and the upper floor of seven rooms will be rented for offices.

E. F. Cheney has a favored his friends with a calendar that is a gem. It is a copy of Arthur Paine's famous painting "Safely Guarded," a beautiful little girl asleep by the side of a Bernard dog.

The Alturas Plowdealer, Walter Cambridge has purchased from D. W. Berry 1400 acres of land in Panjago valley. This property is valuable and well watered. Walter made a good bargain.

The Burns Herald reports the engineer of the S. P. road as saying that as soon as the weather will permit a large force of men will resume work on the extension from Vale, Malheur county.

The Merrill Record has a long account of an owl attempting to eat a man. He caught it in his chicken house, and the owl changed its mind, and sank its talons into his arm, which he could not release, until his heroic wife, by a gun hanging at the owl's legs with a pair of shears. The owl was finally killed. Bless that brave woman.

Sixty forest rangers from all parts of the Northwest and California have enrolled at the University of Washington in the forestry department, by order of the government. W. T. Andrews, expert of the forestry section will see to it the faculty in instructing the men. They are on full

### A BIT OF SLANG.

Origin of "Making a Noise Like" This or That.

Captain Henry G. Lyon, U. S. A., was the innocent cause of the slang expression about "making a noise like" this or that. At Peekskill in 1906 he gave instruction to officers of the New York national guard doing duty in that town of camp. The first day he formed the officers into a class in the big mess hall, which was open at the sides, so that all that went on inside was seen and heard by the enlisted men passing back and forth. In teaching the officers how to give the commands Captain Lyon impressed upon the class the necessity of clear enunciation and of making commands like an officer, saying "arms," not "umps," etc.

The privates' capacity for turning things to their own amusement was shown a few minutes after that first class was dismissed, for officers going through their company streets heard privates in front of a group of men shouting out, "Make a noise like an officer!" whereupon the entire "class" would roar "Umps!" A reporter sent an account to a New York paper, and from this grew expressions such as "Make a noise like a hoop and roll away," etc.

However, it is seldom one hears the word "arms" or "march," the voice finding it much easier to slur the word till it may mean anything, and as the preparatory command indicates what is to be done the command following is merely a signal for the execution of what has already been specified.—Army and Navy Journal.

Hampton's virile Magazine for January has a scathing article on our method of census taking, which costs the United States \$17,000,000, while the census taking for Germany, England and France does not cost a cent. We can if we will learn a lot from Europe or even "Barbarous Mexico."

### Fake "Towns"

The coming of railroads into Eastern Oregon has caused fake promoters to get busy in exploiting "towns" on paper in midst of desolate surroundings that never will exist. The much advertised town of Harriman in Crook county is one of these and the authorities are now after the promoters with the prospects of giving a steady job with free board in the penitentiary. The public should look out for such skin games.

### Missionary Address

In M. E. Church Mrs. M. O. Everett who has been working as a missionary in the mountains of Kentucky will address an audience in the M. E. Church Friday evening next. Come and hear her relate her story of the poverty and illiteracy of the mountaineers of the South.

### REHART WRITES OF FLYING MACHINES AT LOS ANGELES

Los Angeles, Jan. 11, 1910.

I attended the aviation exhibition yesterday and I was disappointed as to the small number of flying machines coming out on trial day, the tests proved wholly successful beyond expectations. However, all the machines were not assembled.

There were four aeroplanes and two dirigible balloons made successful flights; and of the aeroplanes, or bi-planes, the French machine with the Pailhan at the wheel made the best exhibition, being practically perfect, just like the eagle when sailing in the distance. This machine is larger in dimensions in every way, and has a much steeper motion than any other make yet exhibited.

The crowds, estimated at 20,000 were highly delighted with the performance from beginning to end.

Yours Respectfully,  
S. V. REHART.
