Three months, " .75

If not paid in advance, \$2.50 the year.

Notice to Subscribers

Subscribers to The Examiner who remove from one locality to another, or change their postoffice address should remember to drop this office a card so their paper can be addressed to the right postoffice.

Heart to Heart Talks.

By EDWIN A. NYE.

Copyright, 1908, by Edwin A. Nye.

A CRUEL JEST.

At Cleveland, O., some time ago, this advertisement appeared in the newspapers:

WANTED.—Two hundred laborers and teamsters immediately. Wages \$2.50 per day. Apply D. E. BROWN, The Hollenden.

Mr. Brown was assistant superintendent of the Crucible Steel company of Pittsburg. He had just been married.

The newspaper account goes on to say:

"In blissful unconsciousness of the trouble in store for him Mr. Brown opened the door and was greeted by a delegation of teamsters and laborers who wanted work. He told them there must be some mistake.

"Downstairs he was stormed by 200 more. Packing his grip, he and his bride fled from the hotel. Friends of humorous instincts had perpetrated the joke and got much enjoyment out of Mr. Brown's discomfiture."

As to the latter expression—no doubt. Mr. Brown's friends were plainly of that sort who would get much enjoyment out of that gentleman's discomfiture regardless of the feelings of others.

But—

What of the two or three hundred workmen so cruelly fooled to make a holiday for the friends of Mr. Brown? These men were looking for employment and needing work.

Who knows? Short meals may have been eaten in laborers' homes because of the disappointment. The cruel delusion may have blasted the hopes for a little money to pay on rent to save eviction or on pressing bills. Who knows?

Fair Play For the Black Box.

As long as a colored boxer is the champion of the world there can be nothing but ridicule for the fear which hides behind efforts to dodge combats with men of the African race. To that extent the conditions now existing in the world of pugilism are adverse to sham and humbug in sports. They put all men on their own footing, to stand or fall as they may.

Any white man who makes a living by fighting would be perfectly willing to take the winner's part of a good sized purse for whipping a colored boxer—if he knew he could do it. The rub comes in the fear that the result may be just opposite to his hopes and fatal to his prestige and ambitions. The "manly art" is dragged down to the level of an outlawed sport by ring fights, but it ought at least to show enough manhood to give all nationalities and races a fair chance for its prizes, such as they are.

The Latest on American Ginseng.

United States Vice Consul General Fuller writes as follows from Hongkong on the ginseng trade at that port:

The imports of ginseng into Hongkong in 1908 are estimated at 15,000 pounds, there being no official customs returns, as Hongkong is a free port. A considerable proportion of this was imported by Chinese jobbing houses here, which purchased it in the United States through their own Chinese connections in small quantities. These are Chinese drug jobbers in New York city, Chicago and San Francisco all of whom purchase this commodity. It is not possible to correspond with local Chinese firms in English, nor would they be likely to deal with any one with whom they did not have a personal acquaintance.

Ginseng is sold here by jobbers to retailers on the basis of the picul of 133.3 pounds. It is usually classified in four qualities. For the poorest quality the jobbers get about \$2.00 Hongkong currency (\$30 American currency) per picul, running up to \$4.00 Hongkong currency per picul for the best quality. The prices paid by jobbers here to producers or jobbers in the United States are said to vary widely, and the business is understood to be highly speculative.

Up to the present time there has been only one foreign firm here dealing in ginseng to any extent. This firm has offices in Hongkong and in New York city. Another firm is starting to look into the business and would be glad to correspond direct with producers in the United States.

Particulars may be obtained by addressing the bureau of manufactures, Washington.

A woman reformer declares that pretty flirts are fiends.

But this said old workaday world seems bound to give the "fiends" a good time.

When the ten American students of oriental diplomacy in China grow up it will not be so difficult to get one good for minister to Pekin.

KILL THE COUGH AND CURE THE LUNGS

WITH Dr. King's New Discovery FOR COUGHS AND ALL THROAT AFFECTIONS. GUARANTY REFUND OR MONEY.

Some More Figures Showing In Whose Hands Rests the Wealth of this Nation.

There should be a "feast of reason and a flow of soul" in the rejoicing among the holders of corporation stocks in New York because of the enormous dividends on watered stocks and yet the "stock-olders are blaming President Taft for issuing sensational statements of what he is going to do with the trusts and thereby bringing about a decline in stocks, when on the 25th inst the leaders broke from three to seven points! In consequence, the bankers, who probably in light of such decline are busily feathering their own nests, are not letting money out on such securities as collateral and there may be further breaks.

But, in view of the amount of dividends declared, the stock-holders are needlessly alarmed.

For instance the U. S. Steel Corporation, had as earnings, more honestly called stealing, during the year 1909, the enormous amount of \$131,479,975. The record year of the corporation was 1907, with earnings of \$160,946,673. Since its organization in April 1901, the corporation has earned \$1,071,720,945.

Just think of it! That corporation alone filching from the American people in nine years over one-billion dollars!

Do you now that this vast sum is equal to one third the entire cost of the war of the rebellion to this Nation?

And in spite of all denial it goes principally into the hands of a few men namely John D. Rockefeller J. Pierpont Morgan, Andrew Carnegie, the Flicks, Thaws, Corays, and others of lesser note, but of shameless immorality?

But this is not all there is to this interesting picture!

The corporations all report a year of most unparalleled "prosperity" and this, too, in the face of a time when the increased cost of living, with no corresponding increase of wages is bringing a storm of protests that promises dire disaster to the party in power, and which unmistakably and undeniably is directly responsible for these conditions. Such being the case it now stands the republican party in hard to apply corrective measures at once, or it must suffer irretrievable defeat. The day of the stand patter, and the bitter partisan in these perilous time is past!

It is now known that the January dividends in stocks of nearly all the great corporations of the country have been reported as the largest on record \$202,032,002, but if the present prosperity continues the next July dividends will be quite as large if not larger.

The total dividends and interest paid by 150 of the most prominent railroads, traction companies, banks and industrial corporations during the month amounted to \$202,032,002 an increase of \$19,773,496 above the semi-annual dividends and interests paid by the same companies in January, 1909.

This total does not include thousands of smaller firms and corporations in New York, which undoubtedly paid an equal amount, nor thousands of corporations in other parts of the country, which are just as prosperous and have enjoyed similar profits.

Of the 150 great corporations referred to, 22 increased their dividends for January, 16 paid dividends for this year for the first time and four reduced their dividends 1 per cent, per year, or less, for various reasons.

The following statement will show a comparison between the various classes of dividends and interest in 1909 and 1910:

Industrial.....	\$14,906,000	\$14,700,000
Street railways.....	4,000,000	3,800,000
Government.....	3,281,250	3,211,250
Greater New York.....	6,800,000	7,000,000
Total.....	\$114,431,250	\$107,131,250
Grand Total.....	\$202,032,002	\$182,349,106

At its January meeting Swift & Co. declared dividends equal 3.66 per cent on \$69,000,000 capital stock.

A trust writer in discussing these enormous dividends naively, if not knavely, says few people realize the extent of the country's prosperity. The quarterly dividends which will be due March next will amount to about \$780,000,000 which is \$12,000,000 in excess of the total of any previous year.

The above is a total robbery of the American people in one year of \$78,000,000! The profits of that great trust in one year netting almost one billion dollars!

What does that mean and where will it end? No wonder the people are clamoring and at last have tardily forced the government to act!

There is no doubt about the "trusts" being in a satisfactory condition of "prosperity"! But now about the tolling millions?

It might be added here that the 150 railroads and other corporations by which these dividends are paid represent about \$40,000,000,000 in securities, bonds and stocks.

There is food for great thought in these figures, and there is no question but that the rapacious greed of the predatory interests will soon bring about their own downfall; and in this connection there is a good article on that topic in the February American Magazine by Ray Standard Baker that every voter in the United States should read. It is an eye-opener as to this rapid growth and concentration of thought that ultimately will lead to a revolution in the business and political methods of this nation.

Mrs. Pankhurst takes pride in the fact that she was born on an anniversary of the fall of the Bastille. She comes of a family of British radicals, and in her youth she was some time under the influence of Henri Rochefort, the French radical. She has been an agitator for thirty odd years. Noise, obstruction and agitation are bread and butter to her. She says it would be hard work for her not to be doing anything.

As a creditor-in part-of the Kansas Free State we undoubtedly have responsibilities, but they should be assumed, if at all, in conjunction with all the other actions responsible for that act.

There are some high powers of diplomacy waiting to be called into use when Lady Cook goes to "have it out" with the amiable judge at the head of the government.

If the United States must have a man for the Chinese mission who knows how to keep quiet in several languages there's one in George Bruce Cortelyou.

The Indians are increasing in numbers in some parts of the country, notwithstanding that the government ration is shy on the virile cabbage.

Dividends on Stock

ALBERTA WHEAT LANDS

Production of the famous Sunny Southern Alberta produce 30 to 50 bushels per acre, for a first year crop of \$3,000 and Half the wheat crop on 200 acres is paid for on any land you cultivate above the 200 acres.

See Hall.

You do not need to pay one cent in money after the first payment. One acre near railroads and elevators.

SPECIAL

Chance for Capital

We have a small block of seven sections, consisting of 4800 acres in SUNNY ALBERTA, that we will sell for \$16 per acre, which is a special buy, on the terms of \$6 per acre down, and the balance in one, two three or four years at only 6 per cent interest.

A large part of the land immediately adjoining this tract of land is under cultivation, and more will be broken up in the spring, by the settlers to whom we have sold adjoining sections.

One crop of winter wheat will pay for this land and give you a big surplus in the bank besides.

The yield is from 30 to 60 bushels, and and at 80 cents, the usual price secured, you can figure the return, less \$12 per acre, a big estimate for of production.

See us or write us soon, before this opportunity is lost, as these valuable lands are being rapidly taken by enterprising Americans.

Call, or write for circulars or further information.

CATARRH

Positively cured and not one drop of medicine taken internally. Immediate relief and cure for sufferers of head colds, chronic sore throat, congested bronchial tubes, Bronchitis, Laryngitis, Catarrhal deafness, Asthma and Hay fever.

Not a medicine to upset your system, but simply a tablet which when dissolved in water makes a wonderful cleansing, soothing, and healing antiseptic, which is especially adapted to the delicate membrane linings of the Nose and Throat and when used with the glass nasal douche which we supply, or as a gargle, will immediately remove the mucus by thoroughly cleansing the breathing passages of the nose and throat, consequently allaying the discharge and giving nature an opportunity to get the respiratory organs into a healthful condition. This can never be accomplished while the breathing passages are filled with poisonous discharge of the mucus membrane, and unless the breathing passages are cleaned and treated with the proper healing antiseptic a slight cold will invariably result in Catarrh, La Grippe, sore throat, Colds in head or chest and frequently results seriously.

Ormsby's Nasal Douche treatments will positively relieve immediately and will cure diseases of the nose and throat and will give wonderful relief to sufferers of Bronchial trouble and tuberculosis of the throat and lungs.

To convince you that this advertisement states FACTS, sign the coupon below, mail it to us with 50c, and we will immediately mail you a 140¢ box of Ormsby's Nasal Douche treatments containing 25 treatments with glass nasal douche or forty treatments without douche. The 25 treatments with douche will be mailed unless otherwise ordered. FREE—We will gladly mail you a valuable book with chart in five colors showing the Ormsby method by which diseases of the respiratory organs are treated.

One of the thousands of unsolicited testimonials we receive:

Gentlemen: Several months ago I was very much worried about a cold I had contracted and which had settled in my head, from which position it was apparently impossible to dislodge it; after suffering greatly for ten days or two weeks a friend prevailed upon me to try Ormsby's Nasal Douche Tablets, with almost instantaneous results. In fact the results were extremely gratifying that I decided to continue the use of the Treatments in an endeavor to cure myself of catarrh, with which I had suffered for years, and after taking the medicine according to directions for about six weeks I was entirely cured and have not been able to detect the slightest trace of the disease since that time.

I also recommended the use of the Treatments to a friend who has suffered for years from Asthma, and he has just left the office after informing me that the Tablets had actually cured him; that he had not felt a trace of the old trouble for more than two months, and that he had been the longest respite he had for about twenty years.

Now, gentlemen, this is the first time in my life that I have ever recommended in any way a so-called "patent medicine" and I hope that you will take it as the evidence of one who appreciates the high merit of the article that you are placing on the market as a curative agent.

Very sincerely yours,
JOHN R. MACLEOD,

1022 No. Bonnie Brae, Los Angeles, Calif.

COUPON
