Unlawful, Reactionary "Assembly" Will Cut No Figure in Politics

Judging from the tone of the organized farmers published sentiments and of the masses of the voters outside of pot-house politicians in the State, there is going to be a tremendous revolt given to the supporters of the so-called "Assembly" plan, which is nothing more nor less than a return to the vicious convention method that has been the cause of more graft and venality in politics than all other combined factors.

The entire nation knows the condition of Oregon, before the people of this state awoke to the iniquity of the thing and put it down for all time. Things political in this state were rotten. Men utterly unfit and unworthy, by means of the party bosses and the convention system, were forced in nomination, and elected on the plea of party fealty and solidarity of the party. In this way and by open and bold purchase, the highest offices in the state were bartered off, to men not fit to be so honored. That this is a fact can be shown by the prosecution of some of them by the government authorities.

ties, while others are still dodging shadows, if not realities, and fear arrest for their wrong doing.

Not to mention the question of venality in such matters, the convention system is wrong, because it makes boss rule supreme, and takes away from the people their inherent right to choose by ballot who shall serve them. In no other way can this be so effectively and honestly done as by means of the primary law.

In this matter, for right and justice, the people of Oregon were the pioneers of the Union, and in their footsteps have followed other commonwealths until sooner or later every State in the Union will be so blessed. Such being the case, it is a mistake not, the people Oregon are in no mood to take the reactionary step that will give us the boss-ruled convention.

It is patent that the primary law, Statute No. 1, and all the reforms now on the statute books of Oregon, are there to stay and that reactionary and unlawful "assembly" will not be allowed to undo that work.

Unprincipled Congressmen Fear Public Censure for Their Acts

Some of the "stand pat" Congressmen who have at last got their ears to the ground, and know a terrible storm of indignation is to sweep the country at the Congressional election this fall have suddenly concluded that their private affairs are urgent and henceforth will need their personal attention to such an extent they will be forced to decline to allow their names to come forward in the congressional race!

Others, not so wise, may conclude to run, but if they do they will be buried beyond all hopes of further political resurrection!

Not only, Joe Cannon, but all that he represents, has got to go with him.

The apologist for what he represents, and who has aided him in over-riding and defying public opinion must go with him no matter where he hails from, or whether or not he is a "good fellow."

This is the people's battle against the interests, and by the power of their votes they can right the wrongs, and undo some of the wrong against them by a complacent if not downright venal congress!

For that reason it behooves every voter in every state of the Union to vote first for "insurgents" or progressives, if given such opportunity, and if such men are not or can not be in line for your vote, then use the same tactics as that employed by "the interests" to gain their enfeebled vote for the opposition, provided, of course, he represents what you stand for and desire.

"The party" cuts no figure with the political bosses and the trust cohorts and in this fight do your own thinking and vote as you think is the plain advice of The Examiner to its thousands of readers all over the Union!

Stock Argument "Paternalism" By a Tool of the Interests

That man Smith, who by some means, broke into Congress from California opposes the Postoffice Bank bill? Why? Hear him:

He said that while he would oppose the bill, it was his opinion that the measure should be considered with great care. He confessed that, insofar as he had been able to give attention to the subject he had been led to believe that the measure "smacks largely of paternalism," and he feared it would interfere with the development of individuality, which heretofore has been the great distinguishing feature of the United States.

"Smacks largely of paternalism!" Does he not know that "paternalism" which he decries, is the chief stock in trade of all "the interests" and that is what they fatten on at the expense of the entire public?

But, why should this man Smith, or others like him, fear to do for the poor and needy what they so gladly do for the rich, who do not need government assistance?

Thank God! all congressmen are not of the type of this man Smith and his kind will be less in the near future in Congress!

On this question Senator Carter replied that postal banks were not an experiment, as they had been tried thoroughly in Great Britain and other European countries. The bill did not, he said, propose to interfere with banking or to do more than furnish to the poor an opportunity to save their small pittances. They should be encouraged to save, he said but, the government should guarantee repayment.

For once, Carter is right!

A Comparison of Prices Covering a Period of Only Three Years

A comparison of the retail prices published by the leading grocers of San Francisco in 1907, and those published this year, show that there is an increase of from 5 cents to 15 cents in the price of many staple articles. Three years ago pearl barley sold at 55 cents for ten pounds. Graham meal, which was 45 cents, has risen in price on the ten pounds to 50 cents. The leading brands of flour which sold at 35 cents for the ten pound sack, now cost the retail buyer from 45 to 50 cents.

The price of Mocha coffee has been raised from 35 cents per pound to 40 cents, and mustard, which was formerly 20 cents a bottle is marked at 25 cents. Olive oil has remained the same in price as in 1907, except on certain brands, which sell for 10 cents more on each bottle. The three pound pail of lard, which was purchased three years ago for 55 cents, now costs the buyer 70 cents, and beans, which have sold for years at four pounds for 25 cents now 40 cents. The price of split peas on the ten

pounds has been raised from 65 to 90 cents showing a 25 cent increase in cost. Bacon has been raised 2 cents on the pound and cheese 2 1/2 cents.

With the report of increased prices in groceries comes the statement from the shoe dealers that the price on shoes is from 25 per cent to 30 per cent higher than in 1907.

A big Wall Street banking concern, Fisk & Robinson, went down for over a million dollars last Tuesday. The concern had a lot of bonds as assets, but they were poor sellers, with result of failure.

The high cost of living indirectly caused the failure, according to Joseph Stanley Brown, manager of the New York office. He said that it was becoming more difficult every day to sell bonds because of the high cost of living has driven investors to search securities that bring a higher income than that offered by bonds.

Chickens surely come home to roost. And the big fish, Morgan, Rockefeller are surely eating up the little ones.

Yet we must have party solidarity and must not "muck-rake," in order to perpetuate such doings! Do you believe it?

Two more coal mine disasters this week in which many lives were sacrificed by inhuman greed that fails to provide safety devices!

How much longer will this condition be tolerated by the free born American people? No other civilized country on earth but America would stand such terrible conditions longer than the shortest possible period to insure safety to human life. But here, greed makes dollars and property more valuable than the lives of our toiling millions.

On this topic there is a well-written and timely article in Pearson's Magazine for February.

Sitting on the Snakes.

"While in Paris last summer another girl and I went out to Versailles one afternoon," said a schoolteacher. "It was dusk when we reached the railway station, and, as there was no waiting room, we sat down on two crates that were out on the platform among a lot of others. We noticed that the station employees kept staring at us with a persistence that was annoying. Presently a man in a shabby uniform with a bucket on his arm approached us. He touched his cap deferentially and said in French, of course:

"Mesdames, pray do not let me disturb you, but I am forced to open the boxes on which you are seated in order to feed the boa constrictor and other serpents that are within."

"When we recovered from our fright we found we had been seated in the midst of a huge collection of snakes that had just arrived from their native jungles en route for the zoo near Versailles."—Exchange.

Letter Perfect and Looked the Part.

An amateur theatrical company was recently arranging for the performance of a play which contained a rich variety of characters, says London Sketch. Owing to this fact little progress was made with the cast, a few members of the company making a dead set at principal positions, while minor characters were going begging.

One rather vacuous looking youth made himself particularly obtrusive and brought down the wrath of a brother artist.

"In my opinion," exclaimed the latter, "young Jones must, in the interests of economy, take the part of Simkins the Fool!"

"Why economy?" demanded Mr. Jones indignantly.

"Well, you see, my dear fellow," was the quiet reply, "you won't need any touching up!"

The Sacrifice.

"A Kentucky couple," said Mrs. Simpkins, "got married a few days ago after a courtship which had lasted fifty years."

"I suppose," replied Mr. Simpkins, "the poor old man had become too feeble to hold out any longer."—Chicago Record-Herald.

Representative Broleson, of Texas, one of the most prominent Democrats in the House of Representatives, predicted that the next house will be Democratic by at least 100 majority.

FORTUNES MADE ALBERTA WHEAT LANDS

We will sell you a section of the famous Sunny Southern Alberta wheat land, that will produce 30 to 50 bushels per acre, for a first cash payment of \$2,000 to \$3,000 and Half the wheat crop on 200 acres yearly until the land is paid for.

You get all the crop on any land you cultivate above the 200 acres on which we only get Half.

You do not have to pay one cent in money after the first payment. Land at \$15 to \$25 per acre near railroads and elevators.

SPECIAL

Chance for Capital

We have a solid block of seven sections, consisting of 4800 acres in SUNNY ALBERTA, that we will sell for \$16 per acre, which is a special buy, on the terms of \$6 per acre down, and the balance in one, two three or four years at only 6 per cent interest.

A large part of the land immediately adjoining this tract of land is under cultivation, and more will be broken up in the spring, by the settlers to whom we have sold adjoining sections.

One crop of winter wheat will pay for this land and give you a big surplus in the bank besides.

The yield is from 30 to 60 bushels, and and at 80 cents, the usual price secured, you can figure the return, less \$12 per acre, a big estimate for of production.

See us or write us soon, before this opportunity is lost, as these valuable lands are being rapidly taken by enterprising Americans.

CATARRH

Positively cured and not one drop of medicine taken internally

Immediate relief and cure for sufferers of head colds, chronic sore throat, congested bronchitis, laryngitis, catarrhal diseases, Asthma and Hay fever.

Not a medicine to upset your system, but simply a tablet which when dissolved in water makes a wonderful cleansing, soothing, and healing antiseptic, which is especially adapted to the delicate membrane linings of the Nose and Throat and when used with the glass nasal douche which we supply, or as a gargle, will immediately remove the mucus by thorough cleansing the breathing passages of the nose and throat, consequently allaying the discharge and giving nature an opportunity to get the respiratory organs into a healthy condition. This can never be accomplished while the breathing passages are filled with poisonous discharge of the mucus membrane, and unless the breathing passages are cleaned and treated with the proper heating antiseptic a slight cold will invariably result in Catarrh, La Grippe, sore throat, Cold in head or chest and frequently results seriously.

Ormsby's Nasal Douche treatments will positively relieve immediately and will cure diseases of the nose and throat and will give wonderful relief to sufferers of Bronchitis, Asthma and tuberculosis of the throat and lungs.

To convince you that this advertisement states FACTS, sign the coupon below, mail it with 50cts., and we will immediately mail you a \$1.00 box of Ormsby's Nasal Douche treatments consisting of 25 treatments with glass nasal douche or forty treatments without douche. The 25 treatments with douche will be mailed unless otherwise ordered. FREE--We will gladly mail you a valuable book with chart in five colors showing the Ormsby method which diseases of the respiratory organs are treated.

One of the thousands of unsolicited testimonials we receive: "Gentlemen: Several months ago I was very much worried about a cold I had contracted and which had settled in my head, from which position it was apparently impossible to dislodge it; after suffering greatly for ten days or two weeks a friend prevailed upon me to try Ormsby's Nasal Douche Tablets, with almost instantaneous results; in fact the results were extremely gratifying that I decided to continue the use of the Treatments in an endeavor to cure myself of catarrh, with which I had suffered for years, and after taking the medicine according to directions for about six weeks I was entirely cured and have not been able to detect the slightest trace of the disease since that time."

I also recommended the use of the Treatments to a friend who has suffered for years from Asthma, and he has just left the office after informing me that the Tablets had actually cured him; that he had not felt a trace of the old trouble for more than two months, and that it had been the longest respite he had for about twenty years.

Now, gentlemen, this is the first time in my life that I have ever recommended in a way a so-called "patent medicine" and I hope that you will take it as the evidence of one who appreciates the high merit of the article that you are placing on the market as a curative agent.

Very sincerely yours,
