### COUNTY NEWS

#### PAISLEY AND SUMMER LAKE

Thomas McCormack is a young politician and like his father, W. K. McCormack may some day be chairman of the Republican county central committee. Thomas is three years old and rides horseback. There is nothing very wonderful about this in a land of Centaurs. But it is in getting off the horse where Thomas' troubles begin. He did not know that one way was to fall off. Therefore his father supplied the necessary information. "Climb off," said his dad. The boy hung suspended from the saddle horn. Was he waiting for his legs to grow long enough to reach the ground or did he expect the earth to rise up and meet him? "Let go," encouraged the sire. Thomas let go and then tears began to flow. The lad was not hurt. It was not this that made him cry. His sorrow was over the fact that his father at his age was entering upon a career of deception.

The Curriers who live too close under the rim to see the celestial visitor at night report over the telephone that they behold the comet in the east about nine o'clock in the morning. And Summer Lake is a dry precinct, too.

Vancil O. Morgan and Miss Belle Johnson were married Wednesday evening, February 2, in Paisley, Rev. Frank L. Young, officiating.

When William Hampton came to the Chewaucan in 1871 the Hoskins and Gillespies were the only two families living in the valley. The past week he has been helping out in Virgil Conn's store.

It is a good thing there are no ground hogs in this country. February 2nd there was not a cloud in the sky.

C. L. Withers last week received his new dynamo for his flour mill on Hampton creek and is now prepared to grind barley with a motor.

No one was more surprised than the hens at this second attack of winter. They got started to laying, thinking it was spring if a hen ever thinks, and couldn't stop.

The first week in February was not summer breeze and still was not bad weather. Monday two inches of snow fell and the rest of the week was cold. The low temperatures for the week at the Woodward Hot Springs,

the last being Saturday night, were 10, zero, 3, 2, 1, and 15, none being below zero.

After all January was not a very cold month at the Woodward Hot Springs. The mean temperature for the month was 28, 36 being the mean minimum and 20 the minimum. The first week of the month was cold, the minimum temperatures being 13, 1, 3, 3, 2, 1 and 28. There were twelve clear days, 2 partly cloudy and 17 cloudy. The highest temperature was 55 on the 30th and 9 on the 3rd the lowest. The greatest range was 32 on the 6th. The precipitation was but 30 hundredths and the total snow fell but five inches.

L. G. Harris has returned from Lakeview and has resumed his duties in the Paisley post office.

Frank Barnes came up from Lakeview last week with a load of supplies for the Ana river ditch company. Work on the dam is to be resumed soon.

W. K. McCormack will plant a hundred acres of new grain land this spring.

This cold weather seems to have made the politicians "hole up".

The stage driver last Monday evening, January 31st, failed to pick up the mail at the Woodward Hot Springs box. Therefore the Paisley correspondence was shut off for that week. It was probably snowing so the driver couldn't see. This is the worst "slam" our climate has received. However, the drivers do very well this cold weather, and it may be the people were thankful for the respite.

Clearing brush is the order of the day for the new homesteaders.

The people of Paisley claim that the reports of the flood from the recent ice jam have been greatly exaggerated.

Peary froze his ear the other day joy riding, but he has recovered and now wants the American Geographical Society to back him to go and find the South Pole. He will find no Eskimoes there to help him in his search, and probably when he gets there he will find his arch enemy Cook camped right on top of the Pole!

### The Home of Good Values

Once you experience the genuine satisfaction of wearing comfortable shoes, that hold their shape, with a style made permanent by fine material and skilled workmanship, no other shoes will satisfy you thereafter.

We are speaking of **Hanan Shoes.**

Selling them is the easiest thing we do because there is nothing to explain. The shoes tell their own story and every wearer tells it to his friends.

No man would be able to escape matrimony if nature had fixed it so that all women could have been born widows.

The new Washington postcards have George's picture on one half and his wife's picture on the reply card. We wonder if in the making of these cards the government means to auction the right of woman to forever have the last word?

Burns Times, 29th ult: A Lake county real estate firm is exploiting Catlow Valley in this county and plans placing a colony there May 1. This is an imposition on some curb stone "tin horn" realty men of Burns who don't own a foot of real estate in Oregon and who knock the town and its business men, yet take all the free handouts they can get and pay their board and other necessary expense when they have to. It's a shame that they are not given the privilege of at least getting a whack out for the Catlow colonization scheme.

WASHINGTON, Feb 3.—Interesting comparative facts are disclosed in a study of immigration to the United States for the seven years ended June 30, last year, in which 66,171,555 aliens were admitted, more than 70 per cent of whom came from Southern and Eastern Europe and Western Asia, composed largely of Southern Italians, Greeks, Hungarians, Hebrews, Rumanians, Slavs, Bulgarians, Turks, Armenians and Syrians.  
The addition to the population in those seven years was nearly 1,000,000 more than the combined population of California, Oregon, Washington, Idaho, Nevada, Arizona, New Mexico, Utah, Colorado, Wyoming, Montana, the two Dakotas and Nebraska—58,878,735.

## REMOVAL NOTICE!

The Lakeview Development Co., finding that their interests are located in Modoc County, California, and from experience gained by attempting to do business away from the county-seat and where mails are delayed in transmission to and from Alturas, have decided to locate their main offices in that town. The business of the company will in no way be changed or affected, and the contracts made by the company with their patrons will be carried out to the letter. Contract holders in their Lakeside orchard tracts will please take notice of the change, and here-after address their communications to

## The Tri-State Land Company

Opens the sale of orchard land at Willow Ranch, California.

The last tract of desirable land in the Golden Goose Lake Valley is now offered for the last time at the original low price. After this limited amount is sold, you will not be able to purchase land suitable for fruit farms at twice our present price and on terms that may possibly be beyond your reach.

Now is your opportunity to secure a 10 acre fruit farm, including a sufficient water right for irrigation, at the low price of \$500.00, and only \$50.00 down and the balance in monthly payments of \$15.00 each, or semi-annual payments of \$100.00 each until paid. No interest and no taxes until deeded.

Write for full information and plats, but do not answer unless you mean business. We mean what we say and expect the same from you.

No tracts will be reserved for any-one.
