### CITY AND COUNTY BRIEFS

The whole town was staring Saturday. One was very bright all through the day and supposed by many to be Halley's comet. The large number of strangers in town looks as though the cut rates from the East was doing this part of the world some good. Every stage that comes in is loaded with passengers and the way that they are going

to the land is enough to make one glad that there is land for all of them that act quickly and get their friends that are left behind to come with them.

The Western Stage Co.'s team ran away Monday morning and straddled two 6-inch hitching posts and four 4-inch awning posts, at Cheney's harness shop and tore them out like so many clay pipe-stems, and did not get hurt or injure the rig or harness. Cheney says he built that harness, but he didn't expect it would pull his house down over him.

A break somewhere in the transmission line of our electric light service Tuesday evening enveloped the town in darkness all that night. It was repaired next day.

### "Terrible" Robbery

Last Wednesday the laundry of The Examiner editor was taken from the front porch of his home in broad day light. Of course we know who is the thief. But just think of it! They took our "other" shirt, one we got on credit from Bieber's Cash Store; a brand new night shirt we borrowed when the clerk's were out from the Mercantile Co. store, and a lot of office towels we begged of Bailey & Massingill. In addition to the above the hairless ditty between the bed and table. They also stole some waists and other things belonging to our wife which we will be sure to recognize if we find them on any other woman. It is the worst thing we ever heard of. Robbing a poor country editor! The wretch who did the deed should go hang himself!
