Mosquitoes Busy

Millions of mosquitos, the origin of which is unknown are threatening to demoralize social and commercial activities of Woodland, Washington. The insect visitation was noted immediately following the statement of the recent period of severe weather and no explanation of their early appearance has been found. Never before have the unwelcome little visitors arrived before June. Many citizens are complaining of the loss of sleep and merchants declare the presence of mosquitos interfering with their business. — East Oregonian.

Smiles and Squalls

By "THE VERDANTONE"

So many "gentlemen" convicts are now being housed in the penitentiary the Pennsylvania officials have ordered the convicts clad in blue instead of the old Zebra stripes. What will be done when the law takes hold of Jawn D. and J. Pierp? Give them lace cuffs and gold buttons?

Joe Cannon says there will soon be 500,000,000 people in the United States. And just think, if one-fifth of the crowd did things to him, what would have happened to him if the whole half billion had swiped him one!

FANDANGO SAW MILL GETS NEW MACHINERY

The Fandango Lumber Company, situated south of Lakeview, between the beautiful valleys of Goose Lake and Surprise, in Fandango valley, are installing in their plant new and modern machinery.

Mr. William Lakes, formerly in the employ of George Wendling, and superintendent of his plant at Woodling California, will be the superintendent of the Fandango Lumber Co., and under him will be a crew of competent millmen and loggers.

The new machinery will consist of a one hundred and fifty horse power engine, Tain-fet engine on carriage, Herance 10-inch stickler, Rip saws, Turner saws, Resaws and an electric light plant to light the premises and run the filling room machinery.

In the woods are donkey engines to do the logging.

People in Lakeview wanting lumber will have no excuse in the future for shortage of lumber, if they will take time by the forelock and get their order in for what they want in the lumber line.

W. D. Duke, of Latrobe, Calif., the stockman has been confined to his room the past week with threatened pneumonia. But he got out again Tuesday.

To obtain the good results you must plant good seeds. Ferry's Bieliers Seeds are the best. For sale at

Normal Schools

The Normal School question is fairly before the voters by the Initiative Bill for Monmouth framed by her Alumni. This separates it wholly from politics, and gives the voters a fair chance to express their choice. Schools are a necessity—we must educate the boys and girls—and we must have teachers; the Normal School is the place to train and prepare these. Vote, Yes for Monmouth.

WHY "1892" Pure Spun Aluminum Kitchen Ware Is Better Than Agate or Enamel

Because it is sanitary and saves your money, time and health. The genuine spun aluminum ware, stamped with the Maltese Cross, will outlast any other cooking utensils and is guaranteed by the makers for twenty-five years.

It is pure, wholesome and hygienic—no danger of metal poisoning—cannot chip into the food, because pure SPUN Aluminum expands with the heat and will not crack, scale or peel like the old style ware.

Enamel ware is iron coated with colored glass. Heat causes the glass to chip off into the food in minute particles, which, taken into the stomach, is apt to cause serious troubles, including cancer, according to some medical authorities.

"1892" Pure Spun Aluminum Ware is made from solid Aluminum throughout—no coating of glass—and expands uniformly under heat. It cannot crack, scale, peel like the out of date enameled utensils; it does away with all possible danger from this source.

You owe it to yourself, and to every member of the household, to give this new and better kitchen ware a practical test. If it fails to do what is claimed for it, you get your money back without a quibble or a cross word.
