There are many reasons why you should read what it says 52 times each year. It is free to tell the truth. It will oppose the encroachment of special privileges upon the people's rights. It will call the roll on public men and measures and inform you how your congressmen work and vote. It will criticise the executive branch of government from the highest to the lowest, if in its judgment the peoples interests are not protected. It will spread the gospel of ideal home life through the Women's Department. It will be conservative when good things are to conserved, and radical when bad things are to be exposed.
