Lakeview, Oregon, Thursday, June 2, 1910.

The University of Oregon will hold big educational conference at the university for four days, beginning June 20. The purpose of the conference is to take up and consider the educational problems of Oregon as a state, and the conference will be addressed by the specialists in the respective lines. The conference is state wide. The first two days of the conference will be given to the "Problems of the State School System," and the last two, June 23-24, to "High School Problems."

Upholding the government's right to have the cancelled land grant made in 1868 and 1869 to the Oregon & California railroad of 8,000,000 acres of land in western Oregon, special assistant to Attorney General has filed the government's brief in the United States circuit court, in answer to the demurrer to the complaint filed by the Southern Pacific company successor to the Oregon & California. The company attacked the government's complaint in many particulars, chief among the points urged were the alleged lack of jurisdiction and loss of right lapse of time. The government sets up the contemplation that the company has refused to sell to bona fide purchasers, that it has sold to lumber mill companies in great tracts, running as high as 60,000 acres, and that it has charged from \$25 to \$1000 per acre for these lands.

Council Meeting

The regular monthly meeting of the City Council was held Tuesday evening, much of the time being devoted to a discussion of the sewage problem. It is quite likely that an amendment to the city charter will be submitted at the fall election providing for dividing the city into improvement districts in order that any particular section may put in a sewer at the expense of the abutting property. It is planned to have the main sewer carry the waters of Bullard creek, thus doing away with the present open flume. The anti-spitting ordinance failed in passage. Councilmen Auten and Wilcox were appointed as a committee to examine and report upon the changes and other matters relating to the water system.

Tennis Tournament

Klamath Falls expects to have a celebration on the Fourth of July. One of the features will be an invitation tennis tournament, open to all players from all Pacific Coast towns. All the players from Lakeview are urged to take part. Entries should be forwarded to the Klamath Tennis Club by July 1, when the preliminary rounds are expected to begin. Special announcements in detail are being mailed and local players are requested to write for copies. First, second and consolation prizes will be given, both in single and doubles. The Klamath Falls tennis club is one of the best on the coast having about thirty members, fine courts, shower baths, etc., and has been headquarters for the Middle Pacific tournament the past three years.

The Show This Week

The Empire Stock Company commenced a week's engagement at Snider's Opera house Monday evening, and that they have made good is attested by the large houses in attendance. A Tricket.
I sent her the rose

I sent her the rose,
But I want to know
If the question is fair.

But who paid for the hair?
