LARGE ORE BODIES

Mountain View Opened Up On 4-foot Vein

Splendid Assays Make Outlook Assume Very Roseate Hue to Owners

Bidwell Nugget: A visit of a Nugget representative to the Mountain View mine, the property of the Fort Bidwell Consolidated Mines Company reveals the fact that the mine is immensely rich. A depth of 200 feet has been gained and every stroke of the pick reveals more, and richer ore.

Drifting has been resumed on the main drift, lower level and are now in four feet of good ore that pays well as the assay values are running into big figures.

Shooting in at drift No 1, lower level, has opened up a wonder. Good indications were struck some time ago when several rich stringers were encountered. The stringers were followed for a distance of 30 feet when assembled and a 10-inch vein appeared. In less than five feet the vein widened out and made from 10 inches to five feet. At the 10 inch mark assays showed \$121.00. Five feet further, assays run to \$163.00 producing evidence that the vein and values as depth is obtained.

Drifting is also being prosecuted on East drift No. 3 at the bottom of the mine, a wonderful sight meets the gaze of the newspaper man as he enters the workings, as gold is plainly visible to the naked eye in many places. The gold is coarse, and although assays have been made, there is no question but what the values will run high.

The West drift on this level is also being worked and the showing is good.

There is in the neighborhood of 1,000 tons of ore on the dump at Mountain View, all of which will run in the neighborhood of \$100.00 per ton.

Manager Cummings is considering starting work on the road leading from the mine to the mill and intends to begin hauling ore as soon as the road is completed which will be finished by the time the mill is ready to treat the ore.

The mine is in fine shape and according to our opinion from personal inspection it seems that manager Cummings is exercising the best of business judgment and as he has in the Mountain View a sure shipper, the mine should make a wonderful showing this year.

Costly Hogs

George Gatchelder and J. K. Dalbey returned Sunday afternoon from Surprise valley with 59 hogs that were purchased jointly by Hayes and Grob and the Goose Lake Valley Meat Co. from the Peterson ranch, eight miles below Cederville. When purchased the total weight of 67 hogs reached 13,707 pounds, or 204 pounds each but in the first few miles after leaving the home ranch eight of the animals were overcome by the intense heat of last Tuesday which reached 105 degrees in Surprise Valley. The price paid for the hogs on the hoof live weight was nine cents per pound, which will make them worth about 17 or 18 cents per pound at least on the block. There is money to be made raising swine in Goose Lake and adjoining valleys and the assessed number of a little over 900 hogs for the county last year should be quadrupled and multiplied, for instead of diminishing the demand is steadily increasing. Hogs properly cared for and fed can be sold when 8 months old and should weigh 200 pounds.

Indian War Vets to Meet

June 21 the Grand encampment of the Indian War Veterans will be opened in Portland, pursuant to an order issued over the signature of Grand Commander Alexander Coffey and attested by Grand Adjutant Otto Killeseman. A later date than usual is fixed, that the aged veteran may have the opportunity to meet in this city when there is comparative quiet. Adjutant Killeseman estimates that about 300 will be here from Oregon, Washington, Idaho and Montana. The sons and daughters of the Indian War Veterans are to hold a meeting at the same time.

Jap From Missouri

The Jap who runs the Inn Grill was formerly a resident of Missouri, or at least Marshal Tonningson seems to be of that opinion. A few days ago that official collected a 'poll tax' from the Jap, and when he gave him the receipt the Jap remarked, "What for dog tax, I no got dog; you say poll tax?" "On looking at the receipt Mr. Tonningson saw that he had issued the wrong receipt, not only in that instance, but also had given a number of white men poll tax receipts on a dog tax blank, and the Jap was the only one to discover the error.

Here Is Your Opportunity

To the Homeseeker:

At present we can locate forty people on homesteads of level valley land, where good well water can be had at depths varying from 30 to 60 feet, and where there is plenty of timber available for fuel within five miles. The soil here is very fertile, being a sandy ash loam and at present there is a heavy growth of sage on it.

The soil is very similar to the soil found in the northern part of Oregon and the eastern part of Washington, and will without doubt prove to be equally as productive and valuable, when we have the same transportation facilities. The railroad survey passes through some of the claims referred to, and none of them are more than three miles from same. Here is a pretty valley, that has never been cultivated, but has been used for range purposes only, and we assure you that it is equally as good as any land left in central or southeastern Oregon.

Now if you still have your homestead right, why not investigate this proposition, for we are quite sure you would not overlook such an opportunity, if you knew positively that it was here. Don't listen to idle remarks, but come and let us show you.

We also have several relinquishments and excellent bargains in raw deeded lands, if you are in the market for such.

DON'T FORGET US WHEN YOU COME TO LAKEVIEW

Write or call for particulars regarding above lands.
