Subscribers to the EXAMINER who remove from one locality to another, or change their postoffice address should remember to drop this office a card so their paper can be addressed to the right postoffice.

Lakeview, Oregon, Thursday, June 16, 1910.

## POSTAL BANK BILL

Considerable interest is being manifested in the provisions for the postal savings bank bill passed by the House of Representatives. The measure differs from the bill passed by the Senate chiefly in respect to the nature of securities that may be given by banks for deposits and postal funds. In addition to the government, state and municipal bonds, various other classes of securities, such as mortgages etc., may be received.

Under the terms of the bill a board of trustees is created, consisting of the postmaster general, the secretary of the treasury and the attorney general, who shall declare what post offices shall become postal savings banks. Deposits in these banks made by any one person shall not be more than \$100 a month or need a total of \$500. The amount may be opened with \$1, but stamps of 10 cents each will be issued for those desiring to accumulate money to be deposited. On deposits two per cent interest is to be paid. Any depositor desiring can exchange his deposits for government bonds to be issued in denominations of \$20, \$40, \$60, \$80, \$100, or \$500, to bear interest at 2 1/2 per cent the money accumulated in the postal savings bank is to be deposited in both national and state banks in the vicinity of the post offices in which the money is deposited by the people, such banks to pay 2 1/4 per cent interest.

Five per cent of the total deposits is to be retained by the secretary of the treasury as cash reserve. Not more than 30 per cent of these deposits may be withdrawn by the government at any one time for investment in bonds of the United States the remaining 65 per cent to remain on deposit in the banks.

The banks are required to give as security for the deposits they receive "public bonds or other security supported by the taxing power," which restricts the securities to some form of national, state, municipal or other such bonds, approved by the board of trustees in charge of the postal savings bank.

Several of the Democratic members of the House are said to be prepared to wage another fight against the deficiency appropriation to defray President Taft's traveling expenses for the present fiscal year, as provided for by the Senate in an amendment to the sundry civil bill.

The administration of President Taft is strongly endorsed in the platform which was unanimously adopted by the Wisconsin Republican State convention. The present tariff law is approved, and its for maximum and minimum schedules and future scientific revisions are especially commended.

The stand pat element of the Republican party in Iowa claim a majority of 15 delegates to the state convention, thus insuring complete control of that body which will write a platform endorsing the Taft administration and securing the insurance, particularly Senator Cummins, Carol for governor is assured a substantial majority.

The wreck of the battleship Maine lying in Havana harbor will not be raised until army engineers have reported on the best method of going about the work and the probable cost. The report will probably be submitted to the next congress. The plan provided in the general deficiency bill for raising the Maine, which will be reported in the house tomorrow, carries an appropriation of \$5,000,000. It is understood the house leaders have agreed to hold up this provision pending the submitting to the experts reports.

Portland will get the 47th annual convention of the National Wool Growers' Association, the dates of which have just been fixed for January 5, 6, 7, 1911. On those dates there will be thousands of delegates there from the wool growing states and the convention will be of the widest interest to stockmen. In connection with the gathering, there will be a big sheep show that is expected to draw many exhibits from the farm of Oregon sheep raisers, and many hooded sheep will be brought there from other parts of the country. Preliminary plans are now being made for the gathering, various committees being already at work.

An invitation has been sent to Governor Charles E. Hughes, of New York to address the State assembly to be held in Portland next month. This invitation has been prepared and signed by C. M. George, chairman of the Republican State committee, and E. V. Littlefield, the secretary. In the invitation George and Littlefield have gone over the reasons for needing an assembly and Hughes, who has advocated assemblies, is wanted to give a speech for harmony.

Charles B. Meitck has been appointed by the President, on recommendation of Senator Bourne postmaster of Portland to succeed the late John C. Young. Mr. Meitck has been register of the Portland office and his successor has not yet been named.

The value of the rubbish collected in New York City last year was \$23,000, according to the figures of the department of health. Of this sum \$16,000 was received from bottles and \$25,000 for grease. One million cubic yards of asphalt was used in building operations in New York last year.

One Hundred and fifty convicts from Washington state penitentiary are now working at the state's rock crushing plant at Marshal, not far from Spokane, breaking rock for the crusher on the county and state high ways which are to be improved. The capacity of the crusher is eighty ton of stone daily, and the convicts seem pleased that they are permitted to work in the open away from their prison wall, notwithstanding they are under a strong guard. Some such disposition might be made of a number of the prisoners of the Oregon penitentiary. Simply because there was considerable trouble with a few of the convicts that were used in the improvement of a certain highway last year, is no reason for not having road work done at present. If proper precautions are used in such cases there will be no attempt at an out break.

In Washington, it is regarded as practically certain that Assistant Secretary of the Treasury Charles Norton, of Chicago, will succeed Fred W. Carpenter as Secretary to the president. There has been some doubt whether Mr. Norton would give up his work in the Treasury to assume secretaryship. President Taft is anxious to have as secretary a man who, in a way would be an "assistant president." He has declared to his friends that he wants a man who will relieve him of the minor details of the executive office such as Mr. Loeb shared the work of Mr. Roosevelt. There has been talk that Mr. Norton's appointment would be withheld until after Mr. Carpenter's confirmation as Minister to Morocco.

The President has signed a proclamation eliminating 293,635 acres from the Willowa National Forest, Oregon. The elimination is the result of a careful examination made by the U. S. Department of Agriculture during the past summer, which disclosed the fact that the areas now eliminated were either open grass land with very little timber or timbered areas so largely alienated that further administration by the forest service was considered impracticable. The lands released are not needed for watershed protection, and are not considered to be chiefly valuable for National Forest purpose.

An unusual operation was performed at Salem by two local physicians recently when they relieved O. E. Fry, a farmer residing near Salem, of his right kidney. Fry was assisting in stretching a woven wire fence when the stretcher broke and buried a piece of iron into his right side. On account of the man's kidney being severely lacerated, the physicians removed it. Although Fry lost much blood, he is getting along nicely.

Livestock shipments to the Portland markets of the month of May are far ahead of the same statistics for May of last year, showing the growing importance of this market. Particularly is a big gain shown in hogs, which is gratifying to the trade. A total of 515 cars of livestock of all kinds came to the stock yards during May of this year. The increase in hogs received was over 7000 head.

**Chronicle:** The announcement that the old frigate Portsmouth, which on July 6, 1816, sailed into San Francisco bay and took possession of Yerba Buena and afterwards captured Vallejo and Sonoma, will be given to the city, to be maintained as a historic reminder of the beginning of American authority in California, calls attention to the fact that there are many historic souvenirs in San Francisco. To mention one other, and also a ship there is the Gjorn, in which Captain Roald Amundsen was the first to go through the Northwest passage and locate the north magnetic pole. Both of which will be of interest to the visitors who come here for the Panama-Pacific International Exposition.

By the end of the present year, it is promised that the most remote districts of Oregon will be served by railroad transportation. Central Oregon will have two main lines, the Oregon Trunk and the Deschutes Railroad and the building of these roads is, of course, the prime achievement of the year in transportation. In addition the Harriman line to Tillamook will be completed and much progress will have been made by the end of the year on the Natron-Klamath road. This year the cost of contracts of new railway lines and betterments in this state will aggregate about \$30,000,000. Many other important new projects will undoubtedly be mapped out and started before 1911.

Chicago school children will be much happier in a few months if the plan is adopted to abandon forcing them to learn a lot of dates in history. The superintendent of schools says that very little of such things that the children learn remains in their minds, and that it is useless to burden them with it. She is probably correct; but undoubtedly she does not propose to shut out the great dates in American History, such as the year of the discovery by Columbus, the year of the landing of the pilgrims, the dates of the Declaration of Independence, of the second war with Great Britain and of the Civil war.

The New York Sun is of the opinion that the Republican is the best of all parties; it has saved everything worth saving, and there is no true goodness of it and the protective tariff is the sole source of prosperity, but when the Republican party is divided against itself and prosperity means a large drain upon the pockets of the wage earner and salary owner can tell what to expect of the weak and the wicked?

After all we can't believe that the Republicans will care to stand upon even the best of the; imputed righteousness which they will derive from a celebrated article of virtue which is to be imported this month.

When King Edward died, a number of Americans, previously prominent at the English court, suffered social deaths, so far as that country is concerned, from which there can be no resurrection. A mere landful in number they enjoyed a great measure of his late majesty's friendship and confidence and were real powers in the land. Socially as well as personally, his death is to them a very great tragedy, for it means that millions of dollars and years of patient scheming devoted to attaining the positions they held have gone completely to waste.

## Isn't It Awful?

"Isn't it awful?" the maiden cried,  
Shaking her head in a sad dismay,  
But we found when to comfort her we  
We tried

She was telling how hot it had been  
That day.

"Isn't it awful?" the maiden said,  
And her eyes grew wide with the horror  
There.

Yet no one was murdered and no one was  
Dead.

She had torn her gown on a stupid chair.

"Isn't it awful?" the maiden gasped,  
Yet it wasn't a case for a sigh or a sob.

She simply stood with her bundles clasped  
In her weary arms in a shopping mob.

"Isn't it awful?" the maiden moaned,  
Alas, we laughed! How were we to tell  
She had lost her father and all he owned  
In a holocaust in a big hotel?

—Pittsburg Dispatch.

## Well, What Did?

"I witnessed an incident yesterday  
which reminded me of darkest Rus-  
sia."

"Tell me about it."

"A small boy threw a banana peel-  
ing on the sidewalk in front of a fat  
man who couldn't see the ground."

"Of course you warned the fat man?"

"Well, n-o-o-o. To tell the truth, I  
was anxious to see what would hap-  
pen."—Birmingham Age-Herald.

**The Youthful Romance.**  
Once there was a boy  
Caught a comet's tail for fun;  
Comet gave a flutter  
An' whisked him in the sun!

An' there it is he's spendin'  
The balance of his days;  
Got a job of fireman  
An' made the of sun blazet  
—Atlanta Constitution.

**A Feminine Advantage.**  
Two mature young women were over-  
heard the other day conversing in a  
street car.

"Yes," said the one with the sugar  
scoop hat; "I'm almost determined to  
give up schoolteaching and become a  
trained nurse. They seem to get mar-  
ried quicker."—Cleveland Plain Dealer.

## Committee Meets

A meeting of the Republican Coun-  
cil Central Committee was held  
pursuant to call, Chairman F.  
P. Light presiding, and A. H. Ham-  
mersley secretary. A general discus-  
sion followed, and it was decided to  
order the precinct assemblies to be  
held Saturday, July 2, 1910, to elect  
delegates to the county assembly to  
be held in Lakeview July 9, to elect  
delegates to the State Assembly. The  
appointment is as follows:

Silver Lake	3
Paisley	3
Summer Lake	2
Crooked Creek	2
North Lakeview	2
South Lakeview	2
North Warner	2
South Warner	2
Drews Valley	2
Goose Lake	2
Cogswell Creek	2

## Good Showing

The annual meeting of the Lakeview  
Flouring Mills Co. was held Monday  
and the following directors elected:  
A. M. Smith, New Pine Creek P.  
O., Bunting Drews Valley; Harry  
Bailey and D. J. Wilcox, Lakeview,  
and L. A. Carricker, West Side.

The financial condition of the com-  
pany is most excellent, the assets be-  
ing \$23,115, while the liabilities are  
but \$11,050. Counting the various  
products and cash on hand, the cor-  
poration could now wipe out prac-  
tically all indebtedness. The showing  
is a most excellent one and reflects  
credit upon the management.

The stockbooks were ordered closed,  
and no further shares will be issued  
to any one.

## Things Theatrical.

Miss Henrietta Crossman will not  
play "Sham" after this season, as she  
will have a new play.

John Drew may be seen next  
season as Benedick in a revival of "Much  
Ado About Nothing."

Laura Nelson Hall will play the  
leading feminine role in Sidney Rosen-  
feld's new play, "Children of Des-  
tiny."

Mabel Barrison and Harry Conner  
are to have prominent parts in an adapta-  
tion from a German farce called "Lu-  
lu's Husbands."

"The Midnight Sons" will go on tour  
after playing the best part of the year  
in New York. It will probably have a  
summer run in Chicago.

"The Commuters," which Henry B.  
Harris is to produce about the middle  
of April at Atlantic City, is by James  
Forbes, author of "The Chorus Lady"  
and "The Traveling Salesman."

## Household Hints.

Allow four eggs to each quart of  
milk in making cup custards.

Even a dishcloth may prove expen-  
sive. If dirty it may cause typhoid; if  
dirty it may clog the plumbing.

A spoonful of ox gall to a gallon of  
water will set the colors of almost  
any goods soaked in it previous to  
washing.

Turpentine should be sprayed or  
sprinkled in the haunts of cockroaches.  
It will often quite destroy the  
pests and will always disperse them.

A clean cloth dipped in hot water,  
then a saucer of bran, will speedily  
clean white paint without injury to it.  
The soft bran acts like soap on the  
dirt.

## Willow Ranch Orchard Homes Have No Competitors

Because they excell all others. The best  
opportunities for buying of Irrigated Orch-  
ard and Garden Land is in the WILLOW  
RANCH ORCHARD HOMES TRACTS, Mo-  
doc County, California.

## The Ceram of the Goose Lake Valley

No expert who has investigated this  
wonderful land of sunshine has yet dared  
to place a limit upon its horticultural  
possibilities.
