The efforts of the great Northern Railroad to exploit middle west by means of exhibit cars operated through the east and middle west will be extended this year to include Oregon as well as Washington, and a new car is now being equipped at Portland to display the products of the former state. Washington had an exhibit car on the road last year, starting at the close of the Alaska-Yukon-Pacific Exposition and it proved a success in luring new settlers to the North West, that the immigration department of the railroad decided to use two cars this season. H. B. Wright of 39 Fifth St., Portland, is assembling the Oregon exhibit, and when the car is supplied with exhibits from every county in Oregon it will be on display in Portland for a few days and then started on its tour to the country. A lecturer will accompany the car and lecturers will be illustrated with stereopticon views will be given in places visited. The Washington car is already on its second trip through the middle west. In another year the Great Northern will probably branch out and include other western states in its exhibit car campaign to bring in settlers.

The sheep will be delivered to the new owners on the first of September. Lawrence Meyers, who took a D. West and E. K. Henderson to Klamath Falls in his auto. Instead of going by Crescent as has been the practice, he went by the way of Bear Flat which is a saving on the distance some forty or fifty miles. This is the first attempt for an auto to go by the route, but Mr. Meyers is satisfied it can be easily done, but to guard against any accidents took along tools so that rocks, stumps or other obstacles that might impede his progress could be removed. To Mr. Meyers much credit is due as this trip of his, if successful, will be the opening of a new and shorter route to Klamath Falls from this place.

The Hotchkiss boys have finished haying on their Goose Lake ranch and are now finishing at Valley Falls. The continued delay of the O.V.L. Co. in this vicinity is making many knackers which formerly were enthusiastic boomers. The Burns-Lakeview road via this place is now in fine shape although

It could be improved upon the north of the XL ranch. The Harriman party in autos averaged 13 miles all through. Screen Your Ditches It has been reported that on account of the lack of screens at some of the dams on the JJ and JT ranches in Warner Valley, that a great many trout have gone through into the meadows this summer and have died. It is said that some that weighed several pounds have been lost this way. A little care on the part of every one will greatly increase the value of the fishing in some of the streams that are so abused in many ways. It is against the law to catch trout below a certain size and it is not always lived up to by some anglers. William J. Sherlock, a Lake County pioneer, died at his home at Paisley Monday evening.
