

The Building Roofed With Ruberoid Did NOT Burn

In Netcong, N. J., a livery stable roofed with Ruberoid stood within ten feet of a factory which burned to the ground. Behind and alongside this roof of Ruberoid, were shingle roofs which ignited. The Ruberoid roof was literally covered with blazing fragments. But it did not burn.

We do not claim that Ruberoid is fireproof. If the house burns from within, the roof will be destroyed, whether it be of Ruberoid, of slate, or even of iron.

But a roof of Ruberoid is as safe from fire from without as any roof can be. You can safely throw burning coals on a Ruberoid roof. The coals will not set fire to the Ruberoid, nor to the timbers underneath.

Yet its fire-resisting qualities are of minor importance, when you consider the other superiorities of Ruberoid.

For here is a roofing which is sun proof, snow proof, rain proof. It withstands acids, gases, and fumes. It is so flexible that it stands the strains of contraction and expansion which cause ordinary roofs to leak.

Only One Ruberoid

Since Ruberoid was invented, nearly twenty years ago, there have been many substitutes—more than 300.

Many of these substitutes have names which sound like Ruberoid. And until they are laid and tested, they look like Ruberoid. But do not let these facts deceive you.

The secret of the wonderful properties of Ruberoid lies in the Ruberoid gum which is used. No other maker can use this gum. No other roofing can possibly be so good as Ruberoid.

Ruberoid roofing can be laid by any one. Once on, it is practically a one-piece roof. It also comes in attractive colors—red, green, brown—suitable for the finest homes.

These color roofings are made under exclusively owned United States and foreign patents. The colors can never wear off nor fade, because they are a part of the roofing.

Get This Free Book

Before you decide on any roofing for any purpose, get our free book which tells about all kinds of roofing—the results of twenty years of roofing tests.

It tells the advantages and disadvantages of shingles, tin, tar, iron, "prepared," and other roofings—it is frank, fair, comprehensive.

RUBEROID

Be sure to look for this registered trademark which is stamped every four feet on the surface of the Ruberoid. This is your protection against substitutes which may be sold as Ruberoid. We will gladly send you a free book when you send for the free book.

J. B. Auten, Lakeview, Orego

DAMES AND DAUGHTERS.

Marie Montessori, a lecturer in the university of Rome, is said to be the most intelligent woman in Europe.

Miss Helen Taft the president's daughter, has the credit of being an excellent cook and of being able to make her own clothes.

Miss Anna Dreibus of Chicago, a teacher of French, has been honored by the decoration of officer d'a cademie conferred upon her by the French government.

Mrs. W. James Colburn, wife of the head of a Chicago banking firm, has had a bedroom added to her home for her forty-five year old son. The house is filled up with brass beds, silk draperies and fine furniture.

Mrs. Harriet Stanton Blatch, president of the Society for the Education of the Blind, is not yet an American citizen, because she married an Englishman. She has determined, however, to be naturalized in due form, though she would prefer to have English make her a citizen by special act, as was done in the case of Mrs. Nellie Grant Sartoris.

Lord Greville is one of the latest additions to England's long list of American heiresses of titles. Only a year ago the new Lord Greville was a younger son, but his brother and father have died since, the brother suddenly. Lady Greville is a daughter of the late John W. Greave of New York, and the widow of Hugh S. Kerr of New York, who died in 1907.

Progress and Labor.

A new system of telegraphing half tone photographs is said to be in successful operation between London and Manchester, England.

In the nineteenth century twenty feet a minute was regarded as a good standard rate of cutting for a planing machine. Today forty feet a minute may be considered the standard.

A steam dredge made in Holland for use at Nantes digs and carries off 500 cubic meters an hour. A swivel knife weighing tons and driven by a 300 horsepower machine cuts out clay as hard as iron, to be scooped up by the buckets, which hold two tons each.

In 1890 we stood at the bottom of the list of the four great manufacturing nations—namely, the United Kingdom, France, Germany and the United States. Forty-nine years later we stand at the head of the list, our manufactured product equalling that of the other great nations combined.

Sporting Notes.

The Buffalo Yacht club plans a \$15,000 clubhouse.

The University of Pennsylvania is to go in for indoor track racing next fall.

Hollo, Philippine Islands, has a tennis league made up of eight five man team clubs.

For \$5 Germans may soon be able to take airship excursions from Berlin to Potsdam.

The open American golf championship has never been won by an American born golfer, it is said.

The Yorkshire fishing board of England has distributed 6,100 yearling trout to angling clubs there.

Geers, Murphy, Cox, Snow and Shank were the only drivers to win money at every grand circuit meeting last year.

Things Theatrical.

William Dwight Moody has written a new play, called "The Rising Generation."

Edgar L. Davenport and Aubrey Boucault are to establish a dramatic school in Philadelphia.

Lillian Russell has scored in her new farce, "The First Night," under the direction of Joseph Brooks.

"Peter Pan" has been revived in London with Pauline Chase in the title role. It was enthusiastically received.

Maude Raymond will be with Max Rogers in "The Young Turk," which will be produced in New York shortly.

Charles Dillingham's new theater, the Globe, in New York, opened recently with Montgomery and Stone in "The Old Town." The play is by George Ade, with music by Gustave Luders.

LAKE COUNTY ABSTRACT CO.
Incorporated.
A Complete Record
We have made an entire transcript of all records in Lake County which in any way, affect Real Property in the county. We have a complete Record of every Mortgage and transfer ever made in Lake County, and ever Deed given.
Errors Found in Titles
In transcribing the records we have found numerous mortgages recorded in the Deed record and indexed; and many deeds are recorded in the Mortgage record and other books. Hundreds of mortgages and deeds are not indexed at all, and most difficult to trace up from the records.
We have notations of all these Errors.
Others cannot find them. We have put hundreds of dollars hunting up these errors, and we can fully guarantee our work.
