**CROWNING THE WINTER QUEEN**

**At the Parisian Millinery**  
**Our First Fall Exhibition of Correct Millinery**  
**Saturday, Sept. 17, 1910**

On this date the Winter Queen will ascend her throne of power, and rule in the Kingdom of Fashion.  
The new Fall and Winter colorings are indescribable, but magnificently beautiful and in perfect harmony with the elegant plumes, furs and velvets. The Turbans as shown this season are an artistic triumph, gathering their inspirations in styles from all nations. Perhaps the newest and most important feature of the new hat is the high back, practically all hats are higher at that point, coming low over the face and high to the back where a liberal allowance is usually made for an abundance of hair. Among the hats that promise to be the season's favorites are the Hindu Turban, a perfectly close fitting effect, The Cloche, a medium small drooped but with a high crown, and the Sheperd's shape, which is rather large, but softening to the face.  
The striking color note of the season is French Blue, Scarlet or Point-cetta Red, Black, Black and White, the soft dull tones of Green, Old Blue, Ashes of Lavender. Beautiful large Beavers are leading in elegance with bows of Lace and Plumes. Our showing of hats will convince you of their beauty and elegance, better than any description I could give you.  
We are now showing a beautiful line of Silk Petticoats, Silk Kimonos, Silk Hose, Silk Waists, and Kid Gloves which are now open for your inspection.  
Everybody cordially invited.

**Have You Protected Your Family?**  
**Why should a man value his horse or barn, more than His Wife and Children?**

The Union Central Life Insurance Company of Cincinnati came into existence at a time, 43 years ago, when life insurance presented many unsolved problems, and when, as compared with the present time, the territory in which it began to operate was undeveloped. It successfully solved each problem as it presented itself and had more than kept pace with the gigantic strides of the great Middle West. Of all the companies writing ordinary life insurance exclusively the Union Central as to amount of insurance, assets and premium income is ranked by only seven companies, all of them older than the Union Central by from 8 to over 40 years. It now has \$284,906,828 insurance in force, assets aggregating \$74,523,966 and an annual premium income of \$10,202,904. Its total income last year was \$14,554,375. It paid its policy-holders \$5,691,056 and after meeting all expenses saved \$6,201,713 out of its income for the year.  
The company in its investment department may be said to stand without a peer. It is the one company which in the panic of 1907 did not have to mark off anything from the value of its securities. Eighty per cent. of its assets is invested in mortgage loans well secured on property worth nearly four times the amount of the loans, and nearly 18 per cent. in loans on policies.  
**J. C. Bigelow, Resident Agent, Lakeview, Oregon**

We do not decry any Standard Fire Insurance Co., but call attention to the Company just entering Lakeview, that ranks with the very best, if it is not the best of all Fire Insurance Companies—  
**"The Union Assurance Society Limited of London"**  
Older than this County is old—Founded in the year 1714. It is a matter of congratulation to have this Company establish an agency in our community.  
**J. C. Bigelow, Resident Agent, Lakeview, Oregon**

**The North American Accident Insurance Company**  
Covers every accident, and any disease or sickness, and pays \$50 each week of total disability, besides surgeon's and physician's bills

**Walters Addition**

*Walters Addition has been one of the most gratifying pieces of property we have ever handled, it seems to have met the popular demand of new comers, old residents, and even speculative out-of-town investors. Every day or so we are called upon for prices, terms, etc., as relating to the various priced lots. A number of persons have realized that it is cheaper to build than rent. Our Building and Loan Company has helped those that otherwise would now be paying rents. Outside of the gradual slope of the land which insures first class sanitation, the streets are wide and well graded. The principal factor in many selections is the immediate proximity of this addition to the heart of the business district THREE SHORT BLOCKS from center of town. This is of vital importance to both builder and investor, close to work, close to schools, and in a few short years parts of this addition will be business property.*

Ask us for prices on the lot that suits your fancy--\$100 to \$250--10 per cent cash, easy terms monthly.
