The restaurant recently started by him has proven a big success. G. B. Graves, the contractor, went on a hunting trip to Lakeside on Sunday afternoon last and returned to town with three fine geese. Clapp can go over the roughest road in the country with the least jar or discomfort, when driving his big auto of any man in the state of Oregon. No wonder Mr. Clapp has people waiting for a ride in his "Buzzie". Rev. M. Both were thrown with no serious injury, however, to anything but the road-bed in the vicinity of the accident. For further particulars see the parties. W. Roca Fick, the homestead specialist and erstwhile politician, left Wednesday morning for Klamath Falls. Before returning he is to make a visit to Silver Lake and the north end of the county where he is well and favorably known. It is not unreasonable to think that when a new town of any size springs up in that locality, Mr. Fick will be the unanimous choice for Mayor, and with the rapid growth of this section we look for such a town to start up at any time. The people of Summer Lake and Christmas Lake Valleys are indignant over the reported defense of Kuhl the horse thief awaiting trial in the county jail. Some of them say that he is a thief in every way and he has been trying off what problems he has stolen from the various sheep and cattle men for the past year. They also say that he is really more to blame than the man DeMoss, killed in the battle with his pursuers.

DOINGS IN THE NORTH END (Silver Lake Leader)

The members of that order are anxiously looking forward to the day they can occupy it and have a home of their own. Jas. Wakefield left last Friday for the Willamette Valley where his wife and son is visiting Mrs. Wakefield had only been gone ten days when Jim left, but to him it appeared that many years it is expected that they will return about the middle of September with his wife and baby. Last week one day while John Hayes was riding the range after cattle he came across bear which he loaded a d hoally choked to death. Benny Vandorn and Everett Long was also on the range the same day looking for horses when they came across a bear track and upon seeing it they quit horse hunting and started bear hunting. Following the tracks along they came to where Mr. Hayes was busy engaged skinning brats, he having come across him first. The fires in the mountains presumably is driving the bear out of their usual haunts as many tracks have been seen in several places in this section.

Fort Rock News

The forest fires have been put out around here and it seems good to be able to see once more. The stores are putting in a large supply of goods for winter use. A great many freighters are out bringing goods from Sausalito, Klamath Falls and Prineville. Several Fort Rockers went on a camping trip to Lake Odell last week and brought back two bears and a cougar besides a large number of fish and small game. The Fort Rock Amusement society will give a dance in the hall Monday, September 5. At the last dance, the prize offered to the best dancers was won by Mr. and Mrs. Kersten of Fremont. The young ladies of the neighborhood arranged a surprise party for Mr. Harry Crampton last Saturday night. Whether it was a real surprise or not, everyone had a royal good time. Most of the grain around Fort Rock has been harvested and is now ready for the threshing machine. Very little hay will be bought around here this winter as nearly everyone has raised enough for his own use and many have hay to sell. The homesteaders feel greatly encouraged and have gone to work in earnest getting the land ready for next year's crop. School in all three schools of the district will begin Monday September 12th. Two new school houses will not be completed but will be ready in a few weeks. The schools are to have a nine months term. Miss Augusta De Forest is teacher in School No. 1. Miss Mae Rithey in School No. 2 and Miss Anna Rithey in School No. 3.

Valley Falls Items

E. L. H. Meyers returned from Lakeview yesterday. A Plumas County, California outfit has filed on some 900 acres of Wagon-tire land. They state they secured water at three feet. Water has been the only drawback to this location but now with their fine sage brush land with water close and on the main E. & W. survey we look to see this settled up very fast. Mr. Henry the Government surveyor, working from this point expects to finish his work this week. Coyotes seem thicker than ever. Lumber is on the ground for the Valley Falls house. Manuel Sanders passed through going north. Some of the West Siders say that they are never out of work and on the contrary are able to give employment to anyone that wants it if they will come and help clear off the sage brush from the land which will be done before next spring when the early grain crops are planted.

Have You Protected Your Family? Why should a man value his horse or barn, more than His Wife and Children?

The Union Central Life Insurance Company of Cincinnati came into existence at a time, 43 years ago, when life insurance presented many unsolved problems, and when, as compared with the present time, the territory in which it began to operate was undeveloped. It successfully solved each problem as it presented itself and had more than kept pace with the gigantic strides of the great Middle West. Of all the companies writing ordinary life insurance exclusively the Union Central as to amount of insurance, assets and premium income is ranked by only seven companies, all of them older than the Union Central by from 8 to over 40 years. It now has \$284,906,828 insurance in force, assets aggregating \$74,523,966 and an annual premium income of \$10,202,904. Its total income last year was \$14,554,375. It paid its policy-holders \$5,691,056 and after meeting all expenses saved \$6,201,713 out of its income for the year. The company in its investment department may be said to stand without a peer. It is the one company which in the panic of 1907 did not have to mark off anything from the value of its securities. Eighty per cent. of its assets is invested in mortgage loans well secured on property worth nearly four times the amount of the loans, and nearly 18 per cent. in loans on policies. J. C. We do not deny any Standard Fire Insurance Co., but call attention to the Company just entering Lakeview, that ranks with the very best, if it is not the best of all Fire Insurance Companies.

"The Union Assurance Society Limited of London" Older than this County is old—Founded in the year 1714. It is a matter of congratulation to have this Company establish an agency in our community. J. C. Bigelow, Resident Agent, Lakeview, Oregon

Walters Addition Walters Addition has been one of the most gratifying pieces of property we have ever handled, it seems to have met the popular demand of new comers, old residents, and even speculative out-of-town investors. Every day or so we are called upon for prices, terms, etc., as relating to the various priced lots. A number of persons have realized that it is cheaper to build than rent. Our Building and Loan Company has helped those that otherwise would now be paying rents. Outside of the gradual slope of the land which insures first class sanitation, the streets are wide and well graded. The principal factor in many selections is the immediate proximity of this addition to the heart of the business district THREE SHORT BLOCKS from center of town. This is of vital importance to both builder and investor, close to work, close to schools, and in a few short years parts of this addition will be business property.
