VOL. XXXI

LAKEVIEW, LAKE COUNTY, OREGON, SEPTEMBER 15, 1910.

University of Ore. Library

37

## DEMOCRATS ARE SHY ON TICKET

ONLY TWO NAMED ON PRIMARY TICKET

NOT HUNGRY FOR OFFICE

County Ticket at the Primaries Will Have That "Vacant Stare"

The ballot to be handed Democratic voters at the primary election, September 21 will have a vacant look, with plenty of blank space for penmanship, if the voters are disposed to write in names of his choosing for each county office. The state ticket is fairly well filled, but there will be only two names on the County ticket. These will be A. B. Schroder, who wants to be sheriff and P. W. Payne, who will no doubt get the nomination as there is no one on the Republican ticket against him.

### Registration Closes

The registration books were closed last night by County Clerk Payne, the total number of voters registered being 905. This is a gain of 44 over that of two years ago, the registration for 1908 and 1910 being as follows, Lake and Fort Rock precincts being included with Silver Lake for 1908:

1910	1908
South Lakeview	100
Summer Lake	33
Paley	29
Crooked Creek	24
North Warner	64
South Warner	29
North Lakeview	130
Silver Lake	110
Drews Valley	6
Goose Lake	31
Cogswell Creek	61
Thomas Creek	17
Lake	92
Fort Rock	89
Total	905

## DOINGS AT STANFORD UNIVERSITY

GEORGE ROSS WRITES A LONG LETTER

Tells of His Experiences Since Entering That College

Stanford University, Sept. 3, 1910

Dear Sir: With the idea in mind, that the happenings around a college might interest some of your readers I submit the following concerning the Leland Stanford University.

The university is one of the largest if not the largest endowed universities in the world the sum being \$50,000,000 and so far as I am at present able to ascertain the amount of \$200,000,000 constitutes the sum expended in bringing the university to what it now is. The buildings form a quadrangle and in the middle of the quadrangle is the memorial court where the statues of Mr. Leland and Leland Stanford Jr. are situated. I shall not attempt to give any more of a description for it would take up too much space.

The first thing that appeals to a freshman upon coming in sight of the university is the grounds and about the next and most important thing is the appearance of a sophomore, which is a classman above the freshman and the one that tantalizes the new comer, who immediately yells the year he is to graduate and the poor unsuspecting freshman is soon into the hands of a bunch of sophs. They do all manner of stunts with him; as for instance force him to chase another freshman around on a table covered with tanglefoot fly paper, box, while blindfolded with gloves covered with blacking, sing give prep school yells, bribe to girls, thank any one they meet for being allowed to live, work for co-ed and many other foolish on-

(Continued on page 8)

### Now at Klamath

The many friends of Frank Gasford the well known musician who made Lakeview his home last winter will be glad to learn that he now is in Klamath Falls where he has opened in connection with his musical studies a "Hot Tamale Foundry" where the various spanish dishes are appreciated by connoisseurs generally are served to his patrons. While Mr. Graham, his partner serves the guests Frank draws the crowd with the sweet strains of some spanish waltz and gets them going so fast that nothing less than Chile Con Carne or the real old fashioned tamale will suffice to show their appreciation.

### The Strong Man

The Great Northern is one of the attractions that is making a hit with the Klamath Falls people and he is certainly original in some of the stunts that he pulls off. As a drawing card he allows a heavy automobile the largest in the town—filled with passengers, to run over him in the street each evening before the astonished populace. When hungry he devours large quantities of glass and other delicacies and to show that the strange diet agrees with him he challenges any person of his weight to come on the stage and wrestle with him at the same time showing some feats of strength that are in themselves wonderful.

## WILL RECONVENE CIRCUIT COURT

JUDGE NOLAND ARRIVED LAST NIGHT

Several Interesting Cases Are to Be Heard At This Term

Judge George Noland arrived in Lakeview last night and will reconvene Circuit Court. Among the cases that will come up are those of the Silver Lake damage cases resulting from the famous case of Hough & Porter, involving water rights in the Silver Lake Country.

The Barry murder case may also be called, as well as the charge of horse stealing lodged against Bernard Kuhl who was with DeMoss when the latter was killed by a member of a posse in Klamath County a few weeks ago.

### Has Faith in Lake

On Thursday of last week, George Ede, of Loyalton, California made filings at the local land office on a 150 acre Desert claim and a 320 acre homestead, a total of 470 acres of land situated in the Christmas Lake Valley. Mr. Ede was accompanied by Alfred T. Donovan, of Egli, who filed on a 320 acre homestead. Both men have good faith in the future of the country in which they have located.

### Will Take Vacation

Rev. G. J. Wentzell, Sunday evening closed his pastorate in Lakeview and will take a well earned rest during the ensuing year. He expects to divide his time between Cegarrville and Lakeview. His successor as pastor of the Lakeview M. E. Church will be named at the Hillsboro conference which meets shortly.

### Will Return With Bride

Word has just been received from Jack McAuliffe a former sheepman of this place, to the effect that he was in Chicago and would be married in a few days time. Mr. McAuliffe intends to return here with his bride and there is no doubt but what he will receive a warm welcome on arrival.

### Will Pave Main Street

The final step in the paving of the streets of Klamath Falls was taken last Thursday night when the city council instructed the Mayor and Police Judge to sign the contract awarding the contract for paving Main street from Link river to the depot with bitulithic material.

The Republican voters in town, or a majority of them, have received during the past week circular letters from Congressman Hawley and Judge Bean, requesting support at the primaries. The primary election takes place on Sept. 21st, and it is expected that a big vote will be turned out.

## RAILROAD MAN PLEASSED

Goose Lake Valley Fruit [Finest He Has Ever Seen

ADVISES IMMEDIATE PLANTING OF TREES

Says Southern Pacific Will Do More for Lake County in Near Future Than Imagination or Expectation Calls For Which Is Certainly Wished

"Plant fruit trees" so that they will be bearing fruit when the railroads get here to take the products of your orchards to the market of the world. It takes five years or more to get the trees into their first bearing and if those that have lands that are adaptable to this industry wait until the railroads come they will be five or more years behind the times. I have seen some of the finest fruit that it has ever been my privilege to view in the Goose Lake Valley this trip. At Davis Creek the orchards of John Briles are in them selves worth going a long distance to see. Mr. Briles seems to have every variety of deciduous fruit on his trees and from close inspection the surprise even those that have been the most optimistic regarding your many advantages in this line; so spoke J. M. Fulton, District Freight and Passenger Agent of the Southern Pacific in an interview at the Hotel Lakeview where he is stopping while looking after the interests of the company he represents. He further continued, "I came to Lakeview to secure for the Southern Pacific a continuation of your business from Reno, Nevada either to or from the East or West. I am not unfamiliar with this town and country. I have known your people and they have known me. I have never tired saying that Lassen and Modoc counties' California and Lake County, Oregon have the best undeveloped country in the United States.

"I want for my company your word by our line at Reno, for Boston, New York and San Francisco; also your merchandise and livestock. I have but little fear that I will not get it, for your people are just and we are entitled to it, provided we give you the same as others, because we have helped you for the past twenty years.

"I have no word against any railroad, but I will say to you that my company—the Southern Pacific—will be the near future likely to move for Lake County, Oregon and Modoc County, Cal. than our imagination or expectation calls for. If I live I expect to be very close to your every interest. We want your business; want it rightfull, and will see that you are given as good or better service than any one else can give you.

"If you use the Nevada-California-Oregon Railroad at Alturas via Reno, it is sixty one miles less to San Francisco than by any other route; the Southern Pacific and connections is the quickest, safest and best route to every point east for freight and passengers. There are four passenger trains each way daily. We put passengers into San Francisco in eleven hours from Reno; we put them into Chicago in two and one half days from Reno. Our lines are equipped with every known safety device. I fail to see therefore, why we cannot respectfully ask for a continuance of the business."

## HARRELL LOSES NERVE BEFORE HANGING

Contrary to expectations, Isaac Newton Harrell, executed at 12:30 last Friday for the murder of Walter and Herbert Newell in this county last June, did not bear up strong under the preparations for the impending ordeal, but gave up completely. He was able to walk to the scaffold, but did not attempt to speak. When the noose was tightened about his throat his groans were loud enough to be heard in all parts of the execution chamber. Harrell's execution was the bloodiest ever held at the state prison. Being completely unnerved, the drop of five feet eight inches almost jerked his head from his body, and the blood from the jugular vein soon covered the body and floor, which should have sufficiently satisfied the craven curiosity of the 50 spectators present. Thursday Rosclair was dropped five feet 10 inches but Harrell was a much heavier man. Prison Physician J. N. Smith pro-

nounced Harrell dead two and one half minutes after the trap was sprung which was an unusually quick death. Harrell was attendend in the last rites by Father Moore, of Salem and Father Francis, of Grants Pass, Harrell having been baptized in the Catholic faith Thursday by the reverend father. Father Francis in his statement for Harrell merely said the condemned man was penitent for the crimes he had committed against God and society, and craved forgiveness for all his past sins.

In Harrell's case the operation of the law was speedy. The crime was committed in June, he was tried and convicted July 9 and hanged September 9.

Harrell's body was placed in the Catholic cemetery in Salem.

F. M. Corey, of this place was among those who witnessed the execution. He is a brother-in-law of the Newells, who were murdered by Harrell.

### \$33,000 a Year Saved

Another economy this time the saving of \$33,000 a year will be shortly effected at the treasury. It costs that much to count the sheets of paper upon which money, postage stamps and revenue stamps are printed. Each sheet is regarded as having the value of the money or stamps to be printed upon it, and the accounting has been very close. Hereafter the millions of sheets will be stored at the bureau of engraving and printing instead of at the treasury, one counting operation thus obviated. Fifty-one clerks thrown out of the government employment by the change probably will find employment in other departments.

Band is going to get valuable advertising in the East by making a complete exhibit in the Oregon car to be shown by the Hill interests. A splendid collection of products grown around Band will be included in the exhibit, which will be an object lesson in what Oregon farms can grow. It is certain to get good results. Every Oregon town should have a like showing.

### Will Open to Settlers

The Oregon & Western Colonization Company which recently acquired the big Cascade wagon road grant and will open up 800,000 acres to settlement has appointed Earl L. Marvin formerly state land agent for Idaho manager of the property and the lands are now being appraised preparatory to opening them up for settlement. The possibilities of irrigation on the land now being considered by the owners.

### Getting in Winter Goods

While many large loads of wool are being hauled to the railroad at Alturas each week, these teams on their return are heavily laden with merchandise for our merchants. Every business house is now putting in their winter stock as the roads are good and freight is now much cheaper than it will be later on.

Eph Miller has returned after a short visit to San Francisco. Eph reports having a fine time on the trip. While in the big city he saw George Verling, a former sheep man of this place, who is now located there.

### Guy Ingram Regins

On September 12 I took occasion to sever my connections with the Forest Service and I desire at this time to extend my thanks to the stockmen and forest users of the Fremont Forest who have so kindly assisted me in the way of good will and cooperation during my administration.

During my eight years employment in the Forest Service I have never had a better delegation of good people to deal with and I take pride in commending you to the supervisor that shall succeed me.

Guy Ingram.

### Returns From Outing

Mr. and Mrs. F. P. Cronmiller returned last Saturday from a five weeks vacation in Klamath County stopping most of the time at Fort Klamath in Wood River valley. They visited the buckberry patch near Orater Lake and found quite a number of berries but say that the crop was a little short this year. On the way home they stopped a few days in Klamath Falls and visited among old friends.

### Card of Thanks

I wish to extend my heartfelt thanks to the many friends and neighbors who so kindly assisted me during the sickness and death of my husband.

Mrs. J. T. Metzker and family.

## SCHOOL OPENED LAST MONDAY

TEACHERS WERE READY FOR YEAR'S WORK

The Enrollment is Much Larger Than That of Last Year

Studies were resumed Monday in the High and Public Schools, the first days enrollment being 230 pupils 243 a year ago. The enrollment in the several grades was as follows:

- High School—Prof. J. F. Burgess, 23 pupils.
- Eighth Grade—Hazel Horn, 26 pupils.
- Seventh Grade—Ethel A. McNea, 27 pupils.
- Sixth Grade and Senior Fifth—Sarah Horn, 40 pupils.
- Fourth Grade and Junior Fifth—Gertrude Palmer, 39 pupils.
- Third Grade—Bessie Burgess, 38 pupils.
- Second Primary—Gertrude V. noon, 27 pupils.
- First Primary—Pearl Hall, 40 pupils.

### Resolutions of Sympathy

Whereas, our beloved brother, James T. Metzker, was on the 8th day of September, 1910, by the decree of an overruling providence, called from his earthly suffering to a home where pain and sorrow are unknown, and where the weary find rest—be it therefore

Resolved that in the death of Brother Metzker the members of this lodge fully recognize that we have lost one of our number who was imbued with the pure principles of the order and whose life and conduct suffer no reproach to be on his heart either as an Odd Fellow fellow citizen or husband and father.

Resolved that the sincere and heartfelt sympathy of the members of this lodge be and are hereby extended to the bereaved widow and family of our deceased brother whose loss we with them deeply mourn.

Resolved that as a token of love and esteem for our deceased brother the lodge room be draped in mourning for the thirty day period and that the members wear the mourning badge during the same time.

Resolved That these resolutions be recorded on the memorial page of our lodge records, that the secretary deliver a copy of properly engrossed to the widow and family of our deceased brother and that each paper published in our city also be furnished with a copy for publication.

Lakeview Lodge No. 63 I. O. O. F. Committee

Gen. E. Morrill, S. P. Ahlstrom, Daniel Beemis.

Charles McCarty who has been acting as bartender at Flynn's saloon left Friday morning for New York City, where he is to locate.

## CUT DOWN SIZE OF PAPER MONEY

WILL BE NEARLY INCH SMALLER EACH WAY

MUCH WOULD BE SAVED

New Notes Would Be More Convenient to Handle in Many Respects

Director Joseph B. Ralph of the bureau of Engraving and Printing thinks it would save Uncle Sam \$1,000,000 year if the 25 notes were about one third the size of the present issues, because the bills would wear longer and therefore would not have to be replaced so frequently.

He has communicated with prominent bankers and financiers throughout the country, and if his suggestion that the notes be made smaller meets with general approval, the change will be made immediately in the case of the gold and silver certificates and Treasury notes.

But as the plan cannot be put into operation with regard to bank notes except through the action of congress, it is believed that there is little probability of financiers endorsing the plan now involving as it would the handling of two different sizes of paper money.

The small sized paper note has been tried, and is now in the Philippines. It is more conveniently handled and wears better.

### Want Better Roads

An automobile stage line between Ashland and Klamath Falls is projected, provided some urgent work in repairing the Jackson County end of the road across the Cascades is done. The County Court of that county is being asked to take immediate action. Klamath Falls people want another outlet to the Rogue River Valley, and they have come to the conclusion that the old road across the Cascades is the most reliable the year round.

## BOWERMAN PLANS TO AID UMATILLA

OREGON MUST MAKE A NOISE TO BE HEARD

In Order to Secure Rightful Share of That Twenty Million

Acting Governor Bowerman hurried to Portland by automobile last week to join the army engineer, who left to inspect the Umatilla irrigation project for the purpose of recommending to President Taft what appropriation Oregon shall receive of the \$20,000,000 appropriation to reclaim the arid lands.

"There has been some talk that Oregon has not been heard sufficiently to get what it wants from the government," said acting Governor Bowerman "and I thought I would join the engineers and party going to the Umatilla project to see what is doing. You may depend upon it, that if there is any chance at all to get a portion of that appropriation for Oregon we are going to have it. Oregon will act for what it wants this time and the request will be made in such an effective way that it will accomplish results.

"There are 60,000 acres under this project, which if irrigated, the reclaimed land would support 100,000 or more people," continued the Governor. Consequently, I consider it of prime importance to the state that these lands be developed as rapidly as possible. Dr. W. G. Cole, of Pendleton, Oregon gave me figures when I was in Eastern Oregon which shows that other projects, not nearly as favorable as the West Umatilla support one person to the acre, or a family on five acres. The West Umatilla is so located that it can produce practically any crop known to the Northwest, and produce it in advance
